

INDRA GROUP AND LEONARDO SIGN AGREEMENT TO WORK TOGETHER IN THE CYBER DEFENCE FIELD

Rome, February 18, 2026. – Indra Group and Leonardo have signed a Memorandum of Understanding (MoU) to reinforce their cooperation in cyber defence, with the aim of jointly identifying and expanding their international reach within Europe, NATO and in other high-potential markets.

The agreement was signed today at Leonardo's Headquarters in Rome (Italy) by Indra Group CEO José Vicente de los Mozos and Roberto Cingolani, Chief Executive Officer and General Manager of Leonardo.

Through this collaboration, the two companies will strength their capabilities to accelerate innovation and reinforce the cyber defence of Institutions and critical infrastructures, providing advanced solutions, specialized training, and a coordinated response to increasingly complex threats.

The agreement also envisages the joint provision of managed cyber defence services for public and private customers.

Ángel Escribano, Indra's executive chairman, recalled that agreements such as the one that's been signed "regulate and accelerate European industrial cooperation with clear governance to facilitate flexible joint bids and the rigorous execution of projects. Our role as a trailblazing company will enable us to activate value chains based on sovereign, open, and interoperable capabilities for Europe and NATO, ensuring that the critical knowledge and technological property remain under EU control. With interconnected operations centers, advanced threat intelligence sharing and cyber defence training environments, we can turn the collaboration into strategic autonomy and effective deterrence."

Indra Group CEO José Vicente de los Mozos stated that "this partnership with Leonardo will allow us to accelerate our innovation and launch solutions that strengthen the digital resilience of systems and operations onto the market, expanding our reach and our impact on the protection of essential infrastructures and services. It constitutes a decisive step towards consolidating the European leadership of cyber defence and projecting it to other countries, providing Europe and its allies with a more robust response to the challenges posed by cyberspace."

Roberto Cingolani, Chief Executive Officer and General Manager of Leonardo, stated: "In a world where digital threats are evolving rapidly and becoming increasingly pervasive, and in a landscape of fragmented technological capabilities, European defence must innovate, anticipate, and cooperate. This agreement underscores cybersecurity as a core pillar of Leonardo's industrial plan, scaling up our international presence also through strategic alliances to develop advanced, sovereign technologies designed to protect people, institutions, and infrastructure. By pooling Leonardo's expertise and proprietary technologies in Cyber & Resilience, Secure Digital & Cloud, and Mission Critical Communications, we aim to transform technological innovation into tangible value for our nations."

By leveraging its product-based approach, Leonardo delivers proprietary platforms tailored for rigorous high demanding sectors like Defence, Space, and Strategic Organizations. Leonardo's latest partnerships and acquisitions consolidate its "Made in Europe" Zero Trust and data-centric security portfolio. Its Global Cybersec Center - a Trusted, Mission Critical and AI-driven provider of cybersecurity - adopts a logically and geographically federated model to ensure customers' cyber mission assurance.

Under its IndraMind proposal, Indra Group employs 3,000 highly-qualified professionals to address current challenges such as hybrid warfare, protection, and security, applying dual technological solutions designed to guarantee both an operational edge in critical situations and deterrence capacity.

About IndraMind

IndraMind is Indra Group's technological initiative that develops sovereign artificial intelligence within a cyber-resilient environment to provide comprehensive protection for citizens, territories, and critical infrastructures across both physical and digital domains. Designed as the group's "digital brain," it delivers cognitive superiority through advanced artificial intelligence capabilities that enable combat hybrid warfare, threat anticipation and optimize decision-making with a comprehensive perspective on security and defense.

About Indra Group

Indra Group (<https://www.indragroup.com/>) is the foremost Spanish multinational and one of the leading European companies that focus on defence and advanced digitalization. It stands at the forefront of the defence, space, air traffic management, mobility, and transformative technologies through Minsait, and it integrates its sovereign AI, cybersecurity and cyberdefence capabilities into IndraMind. Indra Group is paving the way to a more secure and better-connected future through innovative solutions, trusted relationships and the very best talent. Sustainability is an integral part of its strategy and culture in order to overcome current and future social and environmental challenges. At the close of the 2024 financial year, Indra Group posted revenues of €4.843 billion and had a local presence in 46 countries and business operations in over 140 countries.

About Leonardo

Leonardo is an international industrial group, among the main global companies in Aerospace, Defence, and Security (AD&S). With 60,000 employees worldwide, the company approaches global security through the Helicopters, Electronics, Aeronautics, Cyber & Security and Space sectors, and is a partner on the most important international programmes such as Eurofighter, JSF, NH-90, FREMM, GCAP, and Eurodrone. Leonardo has significant production capabilities in Italy, the UK, Poland, and the USA. Leonardo utilises its subsidiaries, joint ventures, and shareholdings, which include Leonardo DRS (71.4%), MBDA (25%), ATR (50%), Hensoldt (22.8%), Telespazio (67%), Thales Alenia Space (33%), and Avio (19.3%). Listed on the Milan Stock Exchange (LDO), in 2024 Leonardo recorded new orders for €20.9 billion, with an order book of €44.2 billion and consolidated revenues of €17.8 billion. Included in the MIB ESG index, the company has also been part of the Dow Jones Sustainability Indices (DJSI) since 2010.
