

When the game becomes the **Future.**

Accept the challenge and participate in Leonardo's Hackathon.

Space Edition

Today, your ambition.
Tomorrow, a better world.

Hackathon Leonardo, Space Edition: test your talent and give concrete shape to innovation

On 18-19 April 2026 in Rome and 9-10 May 2026 in Milan, two new **hackathons organised by Leonardo**, in collaboration with Talent Garden, will be held, open to undergraduates, recent graduates and young professionals in the STEM sector.

Two high-tech challenges in the space sector, where ambition and skills can be nurtured and transformed into concrete innovation, capable of generating value for the future.

Who are we looking for?

Are you studying **STEM subjects** at university? Do you have a degree in Engineering, Computer Science, Mathematics, Physics or similar? Or are you already working and have a strong passion for technological innovation and space? These hackathons are perfect for you!

We are looking for people who are ready to get involved in a highly stimulating environment, eager to take on advanced technological challenges and collaborate with industry experts.

Why participate?

To express your talent and win up to 5,000 euros: you will test your skills in artificial intelligence, automation, and robotics.

To build your future: you will have the opportunity to get in direct contact with Leonardo, a leading high-tech multinational company.

HOW TO JOIN

Submit your application

Complete the online form by **March 29, 2026**.

Wait for the selection results

If your profile meets the requirements, you will receive an e-mail confirmation with all the logistical participation details.

Get ready for the challenge

Sharpen your strategy and show your best skills during the hackathon.

FAQ

Who can apply?

Undergraduates and graduates of three-year or master's degree programmes; professionals with a background in STEM disciplines and a strong interest in technological innovation and space.

Where will the hackathons take place?

18-19 April 2026 in Rome and 9-10 May 2026 in Milan. All logistical details will be communicated by email to those who will be selected to take part in the activities.

Is it necessary to have previous work experience?

Previous work experience is not required. It is essential to demonstrate solid skills in STEM subjects and a clear aptitude for technological innovation.

Are there any prizes?

Cash prizes will be awarded to the top three teams in each hackathon:

- First place: € 5,000
- Second place: € 3,000,00
- Third place: € 2,000,00

All participants who distinguish themselves during the challenge may be considered for future growth opportunities within the Group.
