

When the game becomes the future

Accept the challenge and participate in Leonardo's Hackathon

Leonardo collaborates with schools, universities, and partners of excellence to promote scientific citizenship and offer students and graduates the opportunity to develop and test key skills for the professions of the future.

Find out some of our initiatives.

Leonardo's Hackathon: test your talent and give concrete shape to innovation

From April 5-6 2025, in Naples, the Hackathon organised by Leonardo in collaboration with Talent Garden was held: a high-tech challenge open to undergraduates, recent graduates and young professionals in the STEM sector.

Who are we looking for?

Are you studying STEM subjects at university? Do you have a degree in Engineering, Computer Science, Mathematics, Physics or similar? Or are you already working and have a strong passion for technological innovation? This hackathon is perfect for you!

We are looking for people ready to get involved in a highly stimulating environment, eager to take on advanced technological challenges and collaborate with industry experts.

Why participate?

To express your talent and win up to 5,000 euros: you will test your skills in artificial intelligence, automation, and robotics.

To build your future: you will have the opportunity to get in direct contact with Leonardo a leading high-tech multinational company.

To make a difference: you will interact with industry experts and, by demonstrating your potential, you may be considered for growth opportunities within the Group.

Submit your application

Complete the online form by **March 10, 2025**.

Wait for the selection results

If your profile meets the requirements, you will receive an e-mail confirmation with all the logistical participation details.

Get ready for the challenge

Sharpen your strategy and show your best skills during the hackathon.

FAQ

Who can apply?

Undergraduates and graduates of the three-year or Master's degree cycle, and professionals with a background in STEM disciplines and a strong interest in technological innovation.

Where will the hackathon take place?

In Naples, from April 5–6, 2025. All the logistical details will be communicated via e-mail to those who will be selected to take part in the event.

Is it necessary to have previous work experience?

While professional experience is not a prerequisite, it is essential to demonstrate solid STEM skills and a strong aptitude for technological innovation.

Are there prizes?

Yes, the three *teams* that will be top-ranked will receive cash prizes:

- First place: € 5,000
- Second place: € 3,000
- Third place: € 2,000

Leonardo will also offer all participants the opportunity to exclusively access the Coursera platform to improve their skills through courses provided by prestigious international universities and high-tech companies. Furthermore, people who have particularly distinguished themselves during the challenge may be considered for growth opportunities within the Group
