

BASE PROSPECTUS

LEONARDO – SOCIETÀ PER AZIONI

(incorporated as a società per azioni under the laws of the Republic of Italy)

EUR 4,000,000,000 Euro Medium Term Note Programme

Under the EUR 4,000,000,000 Euro Medium Term Note Programme (the "**Programme**") described in this base prospectus (the "**Base Prospectus**"), Leonardo S.p.A. ("**Leonardo**" or the "**Issuer**") may from time to time issue notes (the "**Notes**") denominated in any currency agreed between the Issuer and the relevant Dealer(s) (as defined below), subject to a minimum denomination of EUR 100,000 (or its equivalent in another currency). The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed EUR 4,000,000,000 (and, for this purpose, any Notes denominated in another currency will be translated into euro at the date of the agreement to issue such Notes (as calculated in accordance with the provisions of the Dealer Agreement as defined under "*Subscription and Sale*")). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement. The Notes issued by Leonardo will constitute "*obbligazioni*" pursuant to Article 2410 *et seq.* of the Italian Civil Code, which relate to the issuance of "*obbligazioni*" by joint stock companies (*società per azioni*) in the Republic of Italy.

This Base Prospectus has been approved by the Luxembourg *Commission de Surveillance du Secteur Financier* (the "**CSSF**"), which is the Luxembourg competent authority under Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"), as a base prospectus issued in compliance with Article 8 of the Prospectus Regulation for the purpose of giving information with regard to the issue of notes ("**Notes**") issued under the Euro Medium Term Note Programme (the "**Programme**") described in this Base Prospectus during the period of twelve months after the date hereof. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 6(4) of the Luxembourg Act dated 6 July 2019 on prospectuses for securities and has only approved the Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such an approval should not be considered as an endorsement of the Issuer nor as an endorsement of the quality of any Notes that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in such Notes. This Base Prospectus (as supplemented from time to time) is valid to 30 May 2025. The Issuer shall have no obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies after the end of its 12-month validity period. Applications have been made for such Notes to be admitted during the period of twelve months after the date hereof to listing on the official list and to trading on the regulated market of the Luxembourg Stock Exchange, however Notes may be issued pursuant to the Programme which will not be admitted to listing on the official list of the Luxembourg Stock Exchange and to trading on the regulated market of the Luxembourg Stock Exchange but admitted to listing, trading and/or quotation by any other competent authority, stock exchange and/or quotation system of the European Union as the Issuer and the relevant Dealer(s) may agree, in accordance with applicable laws and regulations. The regulated market of the Luxembourg Stock Exchange is a regulated market for the purposes of Directive 2014/65/EU on markets in financial instruments.

The Issuer has been rated "Baa3" with a "stable" outlook from Moody's Deutschland GmbH ("**Moody's**"), "BBB-" with a "stable" outlook from S&P Global Ratings Europe Limited ("**Standard & Poor's**") and "BBB-" with a "stable" outlook from Fitch Ratings Ireland Limited ("**Fitch**"). Each of Moody's, Fitch and Standard & Poor's are established in the European Economic Area (the "**EEA**") and registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (as amended) (the "**EU CRA Regulation**") and are included in the list of credit rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with the EU CRA Regulation at <https://www.esma.europa.eu/>. Notes issued under this Programme may be rated or unrated. Where the Notes are to be rated, the credit rating will be assigned by Moody's and/or Fitch and/or Standard & Poor's. Where a Tranche of Notes is to be rated, such rating

will not necessarily be the same as the rating assigned to Notes already issued or, if any, to the Issuer. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not a rating in relation to any Tranche of Notes will be treated as having been issued by a credit rating agency established in the European Union and registered under the EU CRA Regulation will be disclosed in the relevant Final Terms.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

The Notes have not been, and will not be, registered, *inter alia*, under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, and Notes in bearer form are subject to U.S. tax law requirements. The Notes may not be offered, sold or (in the case of Notes in bearer form) delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) except in certain transactions exempt from the registration requirements of the Securities Act. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see "*Subscription and Sale*".

Investing in Notes issued under the Programme involves certain risks. The principal material risk factors that may affect the abilities of the Issuer to fulfil its obligations under the Notes issued under the Programme and those that are material for the purpose of assessing the market risks associated with Notes issued under the Programme are discussed under "Risk Factors" below.

IMPORTANT NOTICES

The Issuer accepts responsibility for the information contained in this Base Prospectus. The Issuer declares that, to the best of its knowledge, the information contained in this Base Prospectus is in accordance with the facts and that the Base Prospectus makes no omission likely to affect its import.

Each Tranche (as defined herein) of Notes will be issued on the terms set out herein under "*Terms and Conditions of the Notes*" (the "**Conditions**"), completed by a document specific to such Tranche called final terms (the "**Final Terms**") or, to the extent that the information relating to that Tranche constitutes a significant new factor in relation to the information contained in this Base Prospectus, in a separate prospectus specific to such Tranche (the "**Drawdown Prospectus**") as described under "*Final Terms and Drawdown Prospectuses*" below.

This Base Prospectus should be read and construed together with any supplements hereto and with any other documents incorporated by reference herein (see "*Information Incorporated by Reference*" below) and, in relation to any Tranche (as defined herein) of Notes which is the subject of Final Terms, should be read and construed together with the relevant Final Terms. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Other than in relation to the documents which are deemed to be incorporated by reference, the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus and has not been scrutinised or approved by the CSSF.

The Issuer has confirmed to the Dealers, named under "*Subscription and Sale*" below, that this Base Prospectus contains all necessary information which is (in the context of the Programme, the issue, listing and offering of the Notes) material to an investor for making an informed assessment of the assets and liabilities, profits and losses, financial position of the Issuer, together with the relevant Final Terms, the rights attaching the Notes and the reasons for the issuance and its impact on the Issuer; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Base Prospectus does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme, the issue, offering and sale of the Notes) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing. None of the Dealers has independently verified the information contained in this Base Prospectus.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer in any marketing material prepared in relation to each issue of Notes or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any Dealer. To the fullest extent permitted by law, none of the Dealers accepts any responsibility for the contents of this Base Prospectus or for any other statement made or purported to be made by a Dealer or on its behalf in connection with the Issuer or the issue, listing and offering of the Notes. Each Dealer accordingly disclaims all and any liability whether arising in tort or in contract (or otherwise) which it might otherwise have in respect of this Base Prospectus or any such statement.

None of the Dealers, nor any of their respective affiliates, have authorised the whole or any part of this Base Prospectus and none of them makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus or any responsibility for the acts or omissions of the Issuer or any other person (other than the relevant Dealer) in connection with the issue and offering of the Notes. Neither the delivery of this Base Prospectus or any Final Terms nor the issue, listing, offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base

Prospectus has been most recently supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the condition (financial or otherwise) of the Issuer since the date thereof or, if later, the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Neither this Base Prospectus nor any Final Terms nor any other information supplied in connection with the Programme or the issue of any Notes: (a) is intended to provide the basis of any credit or other evaluation, (b) constitutes an offer or an invitation to subscribe for or purchase any Notes or (c) should be considered as a recommendation by the Issuer, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms or any other information material should subscribe for or purchase any Notes.

Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the affairs, condition (financial or otherwise) and of the creditworthiness of the Issuer and the Leonardo Group (as defined below), determined for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes based upon advice from such financial, legal and tax advisers as he has deemed necessary and determined the suitability of an investment in the Notes in light of its own circumstances, as the Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which such investor's financial activities are principally denominated and/or from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of financial markets;
- (v) consider all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency; and
- (vi) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The distribution of this Base Prospectus, any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. In particular, no action has been taken by any of the Issuer, the Arranger or the other Dealers which would permit a public offering of any Notes or distribution of this Base Prospectus or any related material in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any Final Terms nor any advertisement or other offering material may be distributed or published in any jurisdiction, except in circumstances that will result in compliance with any applicable laws and regulations, and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base

Prospectus or any Final Terms and other offering material relating to the Notes, see "*Subscription and Sale*" below.

In particular, Notes have not been and will not be registered under the Securities Act and are subject to U.S. tax law requirements. The Notes have not been approved or disapproved by the U.S. Securities and Exchange Commission, any State securities commission in the United States or any other U.S. regulatory authority nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of the Notes or the accuracy or the adequacy of this Base Prospectus. Any representation to the contrary is a criminal offence in the United States. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons.

In this Base Prospectus, unless otherwise specified, references to "**Member State**" are references to a Member State of the EEA, references to "**EUR**", "**€**" or "**euro**" are to the currency introduced at the start of the third stage of European economic and monetary union, and as defined in Article 2 of Council Regulation (EC) No 974/98 of 3 May 1998 on the introduction of the euro, as amended, references to "**U.S.\$**", "**U.S. Dollar**", "**USD**" or "**\$**" are to the lawful currency of the United States of America, and references to the "**Leonardo Group**" or the "**Group**" are to Leonardo and its subsidiaries.

The language of this Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary, including without limitation advice from such financial, legal, tax and other professional advisers as it deems necessary.

None of the Dealers or the Arranger undertakes to review the financial condition or affairs of the Issuer during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

IMPORTANT – EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97, as amended (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT - UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of

domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended. Consequently no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE/PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET

A determination will be made in relation to each issue about whether, for the purpose of the relevant provisions of the EU Delegated Directive 2017/593, as amended (the "**MiFID II Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the other Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID II Product Governance Rules.

The Final Terms in respect of any Notes may include a legend entitled "**MiFID II Product Governance**" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

UK MiFIR PRODUCT GOVERNANCE/PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the other Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

The Final Terms in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

RATINGS

Tranches of Notes issued under the Programme will be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating(s) described above, elsewhere in this Base Prospectus or the rating(s) assigned to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be (1) issued or endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation, or by a credit rating agency which is certified under the EU CRA Regulation and/or (2) issued or endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or by a credit rating agency which is certified under the UK CRA Regulation will be disclosed in the Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (2) the rating is provided by a credit rating the EEA which is certified under the EU CRA Regulation. UK regulated investors are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated

investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation or (1) the rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or (2) the rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation. See also "*Risk Factors – Risks Relating to the Notes generally - Credit ratings assigned (if any) to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes*".

BENCHMARKS REGULATION

Interest and/or other amounts payable under the Notes may be calculated by reference to certain reference rates. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011, as amended (the "**Benchmarks Regulation**"). If any such reference rate does constitute such a benchmark, the Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 (*Register of administrators and benchmarks*) of the Benchmarks Regulation. The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the Final Terms to reflect any change in the registration status of the administrator. See also "*Risk Factors – Risks related to the structure of a particular issue of Notes – Certain benchmark rates, including EURIBOR, may be discontinued or reformed in the future*". At the date of this Base Prospectus, the administrator of EURIBOR is the European Money Markets Institute ("**EMMI**"). At the date of this Base Prospectus, EMMI appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 (*Register of administrators and benchmarks*) of the Benchmarks Regulation.

PRODUCT CLASSIFICATION PURSUANT TO SECTION 309B OF THE SECURITIES AND FUTURES ACT 2001

The Final Terms in respect of any Notes may include a legend entitled "*Singapore Securities and Futures Act Product Classification*" which will state the product classification of the Notes pursuant to Section 309B(1) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the "**SFA**"). If applicable, the Issuer will make a determination and provide the appropriate written notification to "relevant persons" in relation to each issue about the classification of the Notes being offered for the purposes of Section 309B(1)(a) and Section 309B(1)(c) of the SFA.

STABILISATION

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

ALTERNATIVE PERFORMANCE MEASURES

This Base Prospectus and the documents incorporated by reference herein contain certain alternative performance measures ("**APMs**") which are different from the IFRS financial indicators obtained directly from the 2022 Integrated Annual Report, from the 2023 Integrated Annual Report (each as defined in section "*Information incorporated by reference*" below) and from the interim

results of Leonardo at 31 March 2024.

On 3 December 2015, CONSOB ("*Commissione Nazionale per le Società e la Borsa*") issued Communication No. 92543/15, which gives effect to the guidelines issued on 5 October 2015 by the European Securities and Markets Authority ("**ESMA**") concerning the presentation of APMs disclosed in regulated information and prospectuses published as from 3 July 2016. These guidelines, which update the previous CESR ("*Committee of European Securities Regulators*") Recommendation (CESR/05-178b), are aimed at promoting the usefulness and transparency of APMs in order to improve their comparability, reliability and comprehensibility.

For a description of such APMs, see the section headed "*Leonardo and the Leonardo Group – Overview*" below, the sections of the 2022 Integrated Annual Report and of the 2023 Integrated Annual Report, both entitled "*Non-GAAP alternative performance indicators*", the section of the interim results of Leonardo at 31 March 2024 entitled "*Annex 2: Non-GAAP performance indicators*" and the one described below:

- **ESG-linked funding sources**: this refers to sources of financing that are linked to ESG parameters. This is calculated as the ratio of ESG-linked funding sources to total committed funding sources available to the Group. The amount of the ESG-linked funding sources refers to: the ESG-linked Revolving Credit Facility, the ESG Term Loan and the first ESG-linked loan granted by the European Investment Bank.

FORWARD-LOOKING STATEMENTS

All statements (other than statements of historical fact) included in this Base Prospectus regarding the Group's business, financial condition, results of operations and certain of the Group's plans, objectives, assumptions, expectations or beliefs with respect to these matters and statements regarding other future events or prospects are forward-looking statements. These statements include, without limitation, those concerning: the Group's strategy and the Group's ability to achieve it; expectations regarding revenues, profitability and growth; plans for the launch of new services, businesses and activities; the Group's possible or assumed future results of operations; research and development, capital expenditure and investment plans; adequacy of capital; and financing plans. The words "aim", "may", "will", "expect", "anticipate", "believe", "future", "continue", "help", "estimate", "plan", "intend", "should", "could", "would", "shall" or the negative, or other variations thereof, as well as other statements regarding matters that are not historical fact, are or may constitute forward-looking statements. In addition, this Base Prospectus includes forward-looking statements relating to the Group's potential exposure to various types of market risks, such as foreign exchange rate risk, interest rate risks and other risks related to financial assets and liabilities.

These forward-looking statements have been based on the Group's management's current view with respect to future events and financial performance. These views reflect current estimates and assumptions that the Group's management makes to the best of its knowledge but involve a number of risks and uncertainties which could cause actual results to differ materially from those predicted in such forward-looking statements and from past results, performance or achievements. Although the Group believes that the estimates reflected in the forward-looking statements are reasonable, such estimates may prove to be incorrect. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. Prospective investors are cautioned not to place undue reliance on these forward-looking statements, as a prediction of actual results or otherwise.

The Issuer does not intend to update or revise any forward-looking statements, whether as a result of new information, future events or circumstances or otherwise. In addition, all subsequent written or oral forward-looking statements attributable to the Issuer or persons acting on its behalf, are expressly qualified in their entirety by the cautionary statements contained throughout this Base Prospectus including any document incorporated by reference herein. Prospective purchasers are urged to review and consider carefully the various disclosures made by the Issuer in this Base Prospectus, including any document incorporated by reference herein, which attempt to advise interested parties of the factors that affect the Issuer, the Group and their business,

including, without limitation, the disclosures made under the sections headed "*Risk Factors*" and "*Leonardo and the Leonardo Group*" below.

INDUSTRY AND MARKET DATA

Information regarding markets, market size, market share, market position, growth rates and other industry data pertaining to the Group's business contained in this Base Prospectus consists of estimates based on data reports compiled by professional organisations and analysts, on data from other external sources, and on the Group's knowledge of its sales and markets. In many cases, there is no readily available external information (whether from trade associations, government bodies or other organisations) to validate market-related analyses and estimates, requiring the Group to rely on internally developed estimates. While the Group has compiled, extracted and, to the best of its knowledge, correctly reproduced market or other industry data from external sources, including third parties or industry or general publications, neither the Group nor the Dealers nor any of their respective affiliates have independently verified that data. The Issuer confirms that no facts have been omitted which would render the reproduced information inaccurate or misleading. The Group cannot assure investors of the accuracy and completeness of, and takes no responsibility for, such data other than the responsibility for the correct and accurate reproduction thereof. Similarly, while the Group believes such information to be reliable and believes its internal estimates contained in such information to be reasonable, they have not been verified by any independent sources and the Group cannot assure investors as to their accuracy. Undue reliance should therefore not be placed on such information. In addition, information regarding the sectors and markets in which the Group operates is normally not available for certain periods and, accordingly, such information may not be current as of the date of this Base Prospectus.

Risk Factors:	There are certain factors that may affect the ability of the

Issuer to fulfil its obligations under the Notes issued under the Programme. In addition, there are certain factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme. For a discussion of such principal material risks see "*Risk Factors*" below.

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the industries in which it operates together with all other information contained in this Base Prospectus, including in particular, the risk factors described below, and any document incorporated by reference herein. Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

Prospective investors should note that the risks relating to the Issuer, the industries in which it operates and the Notes described herein are the risks that the Issuer believes, based on information currently available to it, to be the most relevant to an assessment by a prospective investor of whether to consider an investment in the Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. However, the inability of the Issuer to pay interest, repay principal or pay other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate.

The risks that are specific to the Issuer are presented in 6 (six) categories and the risks that are specific to the Notes are presented in 3 (three) categories, in each case with the most material risk factor presented first in each category and the remaining risk factors presented in an order which is not intended to be indicative either of the relative likelihood that each risk will materialise or of the magnitude of their potential impact on the business, financial condition and results of operations of the Issuer and the Group. Additional risks and uncertainties relating to the Issuer and the industries in which it operates that are not currently known to the Issuer, or that it currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Base Prospectus and their personal circumstances.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus including any document incorporated by reference herein and reach their own views, based upon their own judgement and upon advice from such financial, legal, tax and other professional advisers as they deem necessary, prior to making any investment decision.

MATERIAL RISKS THAT ARE SPECIFIC TO THE ISSUER AND THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE NOTES ISSUED UNDER THE PROGRAMME

- **RISKS RELATED TO MACRO-ECONOMIC CONDITIONS**

Conflicts and geopolitical tensions increase the complexity and instability of the global scenario

The violent rekindle of violent conflicts in the Middle East has caused a highly tense situation, which could exacerbate oppositions between countries supporting one side and those supporting the other side of the conflict. The situation has global repercussions, escalating tensions between individual world and regional powers, including the United States, Iran, Russia, Turkey and China, involving the supranational dimension, starting with the United Nations. Any escalation of the conflict, as well as a deterioration of the macroeconomic scenario – already weakened on a large scale firstly by COVID-19, then by the difficulties of the post-pandemic era, and lastly, by the Russo-Ukrainian war – could shape new geopolitical balances and change Leonardo's eligible markets in the medium and long term (see the risk factor headed "*Risks associated with Leonardo's transactions in countries, with entities or in specific sectors which might become subject to sanctions or associated with Leonardo's potential infringement of compliance laws and regulations*" included in the sub-section "*External Risks*"). The growing instability in the Middle East also affects the security of maritime transport of goods and wares, leading to increasing

impacts on the time and cost of delivery to businesses and end customers. We cannot exclude that escalations between Israel and Iran may have effects on the price of crude oil.

At the same time, deteriorating security conditions in the referenced geographic area could jeopardize the safety of Leonardo's people, assets and business continuity in Israel, as well as the Israeli supply-chain and customers. Given the direct interests in Israel, Leonardo's headquarters and main plants in the domestic markets and abroad may become target of terrorism, in addition to stronger actions by antagonists and opponents. Furthermore, Leonardo's people stationed at customer sites whose countries are directly or indirectly affected by the conflict could also be exposed.

In the meanwhile, the protracted Russo-Ukrainian war and the possibility of conflict escalation bring Europe and NATO into the centre of growing geopolitical tensions, which increase the complexity and instability of the global scenario, including from a geoeconomic perspective. Faced with increased bloc opposition and in the wake of NATO objectives with regards to gross domestic product, various countries, including some of those closest to the conflict zones in Ukraine, are seeking and allocating additional resources for defence. In this scenario, the next political elections, such as but not limited to the EU and US ones, will play a key role.

Russia's actions have led to sanctions and other penalties being levied by the United States, Australia, the European Union, and other countries, as well as other public and private actors and companies, against Russia and certain other geographic areas. Additional potential sanctions and penalties have also been proposed and/or threatened. In particular, Leonardo's activities had already been impacted by the sanction programmes related to the 2014 Crimean crisis and are impacted by the Russo-Ukrainian war. By way of example, the sanctions issued in relation to the Russo-Ukrainian war have prohibited all exports related to aerospace civil sector, which wasn't previously restricted. Russian military actions and the resulting sanctions could disrupt or otherwise adversely impact the Leonardo Group's operations and the operations of third parties upon which we rely, as well as the global economy and financial markets, and lead to instability and lack of liquidity in capital markets, potentially making it more difficult for us to obtain additional funds.

Unstable market and economic conditions, including adverse developments affecting the financial services industry, such as actual events or concerns involving liquidity, defaults or non-performance by financial institutions or transactional counterparties, may have adverse consequences on the Group's business, financial condition, results of operations and stock price

Markets are used to experience volatility – in some cases reflected in stocks and securities prices – fueled by repeated phases of insecurity, mistrust on the part of citizens and businesses, high levels of inflation, restrictive monetary policies and growing public debt, which add to the difficulties and bottlenecks of the post-COVID-19 recovery, with respect to which smaller companies in particular have already seen deterioration in their risk profile.

The level of inflation, its slow decreasing - also caused by certain market shortages - and the consequent restrictive monetary policies undertaken in the recent past by central banks induce significant effects on the budgets of governments, businesses and households. The growth of national public debts and the rise of the interest costs might lead, in the future, to a review of the governments' spending plans, including for defense and security. Furthermore, the budgets of public institutions might incorporate levels of planned inflation lower than the real ones, thus effectively reducing the real spending capacity. For businesses, the main consequences on competitiveness could derive from: i) the lower margins of active long-term contracts at a fixed price; ii) the recovery of the higher costs of goods, services and wages in the new contracts with customers, who are also committed to reviewing their source strategy and spending budgets; iii) further growth in the weighted average cost of the corporate financing sources; and iv) the possible deterioration of the risk profile of certain suppliers, in particular small and medium sized enterprises, more affected by the cost of working capital and with growing difficulties in financing incremental investments in capacity, digitalization and transformation.

In addition, the global credit and financial markets have recently experienced volatility and disruptions, including severely diminished liquidity and credit availability. Events involving limited

liquidity, defaults, sectorial crises (e.g. commercial real estate), non-performance or other adverse developments that affect financial institutions, transactional counterparties or other companies in the financial services industry or the financial services industry generally, or concerns or rumours about any events of these kinds or other similar risks, have in the past and may in the future lead to market-wide liquidity problems

If banks and financial institutions enter receivership or become insolvent in the future in response to financial conditions affecting the banking system and financial markets, the Group's ability to access existing cash, cash equivalents and investments may be threatened and could have a material adverse effect on the Leonardo Group's business and financial condition.

As a consequence, investor concerns regarding the international financial systems could result in less favorable commercial financing terms, including higher interest rates or costs and tighter financial and operating covenants, or systemic limitations on access to credit and liquidity sources, thereby making it more difficult for us to acquire financing on acceptable terms or at all.

- ***RISKS RELATED TO THE INDUSTRY IN WHICH THE GROUP OPERATES***

The Group is strongly dependent on the level of expenditure of national governments and public institutions

The major customers of the Group are national governments and public institutions. Moreover, the Group takes part in numerous national and international programmes funded by the European Union, governments, intergovernmental organisations or multinational collaborations. Therefore, the core business of the Group is influenced by economic and geopolitical factors at global and regional level, the variation in the expense policies of such national governments and public institutions and by the medium/long-term plans of the countries' common defence programmes. Geopolitical and economic situations, which are largely characterised by increasing uncertainty, represent important challenges for the companies operating in foreign markets, such as Leonardo. Even if the Russo-Ukrainian war has led, and is leading, to increases in the level of public expenditure for defence (as well as, with the necessary differences, the conflict in the Middle East and its subsequent ripple effects) and a fiercer competition might take place to gain the new opportunities both in domestic and international markets the expenditure programmes adopted by governments may be subject to delays, changes under way, periodical reviews or cancellations. The foregoing may occur in particular in periods of high instability or critical periods in macroeconomic terms, with effects on the Group's volumes, results and indebtedness. The acquisition of contracts, especially outside Europe, may be affected by local preferences for certain products. Moreover, there is no guarantee that the Group will be able to replace order cancellations in developed nations with new orders in developing countries that are increasing their defence expenditure or in other business segments in which the Group operates. All of the above factors could have a material adverse effect on the Group's financial condition and results of operations.

Furthermore, public grants are also a key element in Leonardo's research and development funding. Many of the Leonardo Group's operating segments, in fact, require extensive research and development expenditure to keep pace with rapid technological and market changes. Leonardo's growth depends on penetrating new markets, adapting existing products to new requirements and introducing new products successfully into the market. In particular, in Italy, grants for research and development in the aeronautics and defence and security systems sectors, which are regulated by Law 808/1985, represent indispensable funding for research activities in such areas. However, strong pressure on public budgets reduced in the past and could reduce in the future public grants for research and development activities and failure to maintain grants at levels that are comparable to those of other European and non-European competitors could adversely affect the Group's ability to compete successfully, due to a lower self-financing capacity under difficult economic conditions; this would increase the risk of inadequate time-to-market of products being developed, with a consequent material adverse effect on the Group's financial condition and results of operations.

The Group operates in sectors that are highly exposed to growing levels of competition

The business segments in which the Leonardo Group operates are characterised by intense competition in civil/governmental markets, also fuelled by innovation and digitalization. The competitive dynamics and profitability levels of these markets are affected by the balance between production capacity, long-term demand and costs of production. A cyclical weakness in the industry, a significant decrease in demand also due to customers' diminished spending capacity, increases in costs of production or the addition of new, more efficient capacity by established players or new entrants could lead to over-capacity and enable those players to put in place more aggressive pricing policies, resulting in a reduction in the Leonardo Group's orders. Furthermore, all market participants may take advantage of lower cost structures, economies of scale and other synergies, which may lead to lower prices in the industry and result in loss of market share if the Group is unable to implement similar efficiencies successfully. For example, competitors in adjacent markets already operate in the security market and, mostly with the help of anti-cyclical M&A transactions carried out by international investment funds, have entered and still may enter the aerospace and defence sectors, especially in the field of electronics, with advanced and often cheaper technological solutions. Similarly, in the information technology and consumer electronics markets there are highly innovative competitors which maintain high levels of research and development investment by leveraging significant economies of scale. Furthermore, many of the Group's larger competitors have significantly greater financial resources than the Group does, including as a result of substantial industry consolidation, which increased the market share of certain competitors of the Group and enabled them to take advantage of economies of scale and develop new technologies.

Such increasing competition may result in delays or reductions to the acquisition of new orders by the Leonardo Group or the acquisition of new orders on less favourable terms than in the past (financially or otherwise). This may contribute to growing complexity of the Group's prospective scenario, could reduce profitability and the volume of sales and increase financial requirements of the Group during the performance of such orders. Furthermore, such a competitive scenario may result in an increase of bid protests from unsuccessful bidders, which typically extends the time until work on a contract can begin.

Notwithstanding the fact that such competition is more felt in the civil sector, it cannot be excluded that it may also influence the defence sector in case the new players in the civil markets become in the medium/long-term competitors in gaining government clients too.

Leonardo's capacity for innovation and growth depends on the planning and management of skills

Technological innovation and the growing complexity of the Group's businesses require a constant alignment of skills, with a view to providing high added-value products and services and attaining the role of system integrator and prime contractor. Competition for personnel is intense, and Leonardo may not be successful in attracting or retaining qualified personnel. Especially in a market environment characterised by sharp demand for innovation skills (as the one in which Leonardo operates), any shortage of specialist expertise, the obsolescence of certain competencies and professional skills, a lack of senior managers and key employees might impact on the full achievement of short and medium/long-term objectives, including possible repercussions in terms of time-to-market of new products and services, as well as of access to emerging business segments.

The Group operates in particularly complex and regulated markets, which require compliance with specific regulations (e.g. export control)

The export of defence products is subject to compliance with particularly important national or foreign regulatory obligations. Their export must comply with foreign policy guidelines and is subject to restrictions and prior authorizations which are based on specific regulations and agreements that may change in relation to the evolution of the geo-political situation, international economic interests (such as, for example, Italian Law 185/1990 on controlling the export, import and transit of military goods, the U.S. International Traffic in Arms Regulations – ITAR and the Export Administration Regulations – EAR) and compliance with customs regimes applicable to any and all products offered by the Group, including the present and future post-Brexit agreements with the United Kingdom. Export authorisations for defence or dual-use products, as well as any failure to comply with applicable customs regimes and any other applicable

regulations could make it impossible for the Group to operate in specific regulated areas and may have substantial adverse effects on the Leonardo Group's business, financial position, results of operations and cash flow.

- **RISKS RELATED TO LEONARDO GROUP'S OPERATION**

The Group operates in some segments through joint ventures, in which control is shared with other partners

The Group's corporate strategies contemplate the possibility of gaining business opportunities through joint ventures or commercial alliances in order to integrate its technology portfolio or strengthen its presence in the market. The Group's strategic joint ventures are: in the Electronics, Defence & Security Systems business area, MBDA, in which the Group holds a 25 per cent stake (with partners BAE Systems and Airbus Group); in the Space business area, Thales Alenia Space, in which the Group holds a 33 per cent stake and Telespazio, with a 67 per cent stake (both with partner Thales); and in the Aeronautics business area, GIE-ATR, with a 50 per cent stake held (with partner Airbus Group).

Besides the market challenges and the actual and potential geopolitical constraints (among the actual ones the Russo-Ukrainian war that, *inter alia*, might impact the operation of certain joint ventures in the Space business area, the operations of joint ventures are subject to both strategic positioning and management risks and uncertainties, mainly due to the possible divergence of views between the partners on the identification and achievement of operating and strategic objectives, the difficulties in resolving any conflicts that may arise between them and the difficulties of interaction with partners in the ordinary course of business of the joint venture. In particular, the joint ventures in which the Group has an interest may be subject to deadlock in the decision-making process, which may ultimately lead to the break-up of the joint venture. Exiting from a joint venture or an outright dissolution of a joint venture can be a long and costly process and could require Leonardo to share or transfer technology and know-how that it originally contributed to the joint venture. Any of the above circumstances could have a material adverse effect on the Group's strategic positioning in the given sectors, including the risk of not obtaining the expected benefits.

The Group is exposed to the risk of fraud or illegal activities on the part of employees and third parties

The Group makes every effort in terms of organisation, controls, internal procedures and training to ensure fraud risk monitoring and compliance with any and all anti-corruption laws applicable in the domestic and foreign markets in which it operates; however, the possibility of employees or third parties behaving in an ethically incorrect or not fully compliant manner cannot be ruled out thus exposing the Group to the risk of financial responsibility and adverse reputational effects. Similarly, we cannot rule out the possibility of judicial authorities initiating proceedings aimed at establishing any possible liability attributable to the Group, the results and timing of which are difficult to determine, which might entail temporary suspensions from the market concerned.

The Group is and/or might be involved in civil, administrative, tax and criminal proceedings

In the ordinary course of its activities, the Leonardo Group is and/or might be involved in a number of civil, administrative and tax proceedings involving substantial amounts. Furthermore, some Group companies and certain former/current directors or executives of the Leonardo Group have been involved in judicial investigations and criminal proceedings as a suspect or as a defendant or – with reference to the companies – as the person liable for any civil action filed by the victims of crime for damages suffered as a result of the alleged conduct of former officers or employees of the Leonardo Group. As at the date of this Base Prospectus, certain criminal proceedings are still underway.

Provisions are made in respect of pending litigation when a loss is certain or probable and reasonably quantifiable, and Leonardo has accordingly made provisions considered appropriate in light of the circumstances (for further information, see "*Leonardo and the Leonardo Group – Litigation*" below and Section 22 (*Provisions for risks and charges and contingent liabilities*) of the explanatory notes to the Leonardo 2023 Integrated Annual Report as well as the paragraph

headed “*Contingent liabilities*” of the section of the interim results of Leonardo at 31 March 2024 entitled “*Explanatory notes*”, both incorporated by reference in this Base Prospectus). In certain cases, when Leonardo believes that an adverse outcome of proceedings is unlikely or that the dispute will be resolved in a satisfactory manner without a significant impact on the Group, no provision is made in the Group’s financial statements. The most significant proceedings in respect of which no specific provisions are made are described in Section 22 (*Provisions for risks and charges and contingent liabilities*) of the explanatory notes to the Leonardo’s 2023 Integrated Annual Report, incorporated by reference in this Base Prospectus.

Further developments of existing proceedings or new proceedings, presently unforeseeable and indefinable, together with the possible consequential impact on Leonardo’s reputation, could significantly affect the Group’s financial position, results of operations and cash flows as well as its relationships with customers.

The Group operates through a number of industrial plants and processes that may expose it to risks involving the health and safety of workers and the environment

The Group’s activities are subject to compliance with laws, rules and regulations governing the protection of workers’ health and safety. Specifically, Legislative Decree 81/2008 provides for a preventive and permanent health and safety management system at work, through the identification of risk factors and sources, the elimination or reduction of risk, the ongoing monitoring of preventive measures implemented and the development of a corporate strategy to be implemented through the participation of all stakeholders in the working communities. Legislative Decree 81/2008 also requires the planning of measures that are considered to be appropriate to ensure the improvement of safety levels over time, including through the adoption of codes of conduct and good practices. Furthermore, the Group’s activities are subject to compliance with laws, rules and regulations governing the protection of environment and energy management, which contemplate specific environmental permits aimed at ensuring compliance with restrictions on emissions into the atmosphere, water discharge, storage and use of chemicals or hazardous substances (e.g. REACH Regulation and RoHS Directive) and waste management and disposal. Any substantial increases in compliance costs could adversely affect the Group’s business, financial condition and results of operations. Furthermore, non-compliance with any of these environmental regulations, or with health and safety laws and regulations, may give rise to claims for damages and/or sanctions and may cause potential damage to the Group’s image and reputation. In this regard the Group might be party to judicial proceedings (see the risk factor headed “*The Group is and/or might be involved in civil, administrative, tax and criminal proceedings*”).

The Group operates in contexts requiring a proactive cyber security management; breaches of information security obligations can cause damage to the Group, its customers and suppliers and pose a threat to the security of citizens and critical infrastructures

The Leonardo Group is required to face the risks associated with information security, specifically the risk posed by sophisticated cyber threats (such as, *inter alia*, advanced persistent threat and phishing campaigns), and faces an ever-greater exposure to such risks as a result of, among other things, the increasing digitalization of processes, products and services for customers, the use of innovative technologies, the practice of inadequate cybersecurity policies by third parties, the proliferation of remote working arrangements and the continuous evolution of the cyber threats. Furthermore, changes to the geopolitical context, including the deterioration of relations between states or the occurrence of conflicts (e.g. the Russo-Ukrainian war or the escalations of the conflict in the Middle East) may increase the scope and number of cyber-attacks aimed at institutions and companies. Indeed, cyber threats may become more and more significant as a means to perform a hybrid conflict in response to the actions undertaken by third-party countries. The Group may not be able to entirely mitigate such risk, and there can be no assurance that future cyber security incidents will not have a material negative impact on the Group. In particular, a security breach or other disruption involving cyber information, IT networks and/or related systems could (i) disrupt the proper functioning of the networks and systems and, therefore, the operations of the Group and of certain of its suppliers; (ii) result in the unauthorised access to, and destruction, loss, theft, misappropriation or release of, proprietary, confidential, sensitive or otherwise valuable information of the Group, its customers and its employees, including trade secrets; (iii) result in

litigation and governmental investigation and proceedings associated with cybersecurity incidents; (iv) compromise national security and other sensitive government functions; (v) require significant management attention and resources to remedy the damages; (vi) subject the Group to claims for contract breach, damages, credits, penalties or termination; and (vii) damage the Group's reputation with its customers and the general public.

Cybersecurity incidents, including any in the supply chain, business interruption, leaks of data and information, including personal data, that may be of strategic importance may compromise both the Group's business and image, especially in the case of theft of third-party data stored in its archives. Cybersecurity incidents in the supply chain might have repercussions on the Group's operations.

Significant capital investments and other expenditures could be required to remedy cybersecurity problems and prevent future breaches, including costs associated with additional security technologies, personnel and experts. These costs, which could be material, could adversely impact the Group's results of operation in the period in which they are incurred and may not meaningfully limit the success of future attempts to breach the Group's products and services or its IT systems.

The Group's performance depends on proper and effective execution of existing long-term contracts and on the award of new long-term contracts

The Group, through its advanced technological expertise, supplies complex products, systems and services, under long-term contracts, also at a fixed all-inclusive price. Given the fierce competition in the market, terms and conditions generally require contracts to be performed at a high level of service and within stringent execution timetables. If, for any reason whatsoever, the Group does not perform the contract in compliance with quality and time limit requirements, the customer is entitled to apply penalties and other contract clauses that might have an adverse economic and financial impact on the Group. Furthermore, an unforeseen rise in the costs incurred in the performance of a contract, which may also be the result of the occurrence of change events, could lead to lower profits. For example, in periods characterised by inflation, over-demand, lack or discontinuity of supply of goods (including, *inter alia*, commodities and electronic components) and services for the production and delivery to customers, times and costs for the Group's companies in performing their contractual obligations may increase. These dynamics may also be determined, accelerated and/or exacerbated by the deterioration of institutional and commercial relations between sovereign states or by the onset of war conflicts (such as the Russo-Ukrainian war or the escalations of the conflict in the Middle East).

The long-term sustainability of Leonardo's economic and financial performance also depends on its ability to enter into new long-term contracts, ensuring the achievement of key improvements, such as costs reduction, quality performance and a production performance able to secure a higher profitability. This may be applicable particularly in the Aerostructure's domain, in which Leonardo is also characterised by a significant client concentration. In addition, the award of new contracts is subject to competition and is affected by factors outside of Leonardo's control, such as governmental spending decisions and administrative procedures. Any failure to secure or delay in securing a substantial number of long-term contracts or any interruption, suspension or termination of existing contracts may cause an insufficient workload that would adversely affect the Leonardo Group's financial condition and results of operations.

Differences between estimated and actual costs incurred in performing medium and long-term contracts may affect Leonardo's operating results

In order to record revenues and margins resulting from medium and long-term contracts in the income statement of each period, the Group adopts the applicable accounting principles, including the percentage-of-completion method, which requires: (i) an estimate of the costs necessary to carry out the contract, including risks for delays and additional actions to be undertaken to mitigate the risk of non-performance and (ii) checking the state of progress of the activities. Given their nature, these are both subject to management's estimates and, as a result, they depend on the ability to foresee the effects of future events such as, *inter alia*, technological difficulties, engineering or development challenges, fluctuations in the availability and prices of raw materials or other goods such as electronic components, higher than expected inflation,

increased labour costs, problems with suppliers and cost overruns. An unexpected increase in the costs incurred while performing contracts could cause a significant reduction in profitability or a loss, if costs exceed the revenues deriving from contracts.

Leonardo periodically conducts a review of its estimated costs to complete existing contracts and if such review suggests that higher costs will be incurred, appropriate adjustments are recorded on Leonardo's balance sheet in accordance with IFRS. If the expenditure overrun in the future exceeds for whatever reason the estimated costs, Leonardo's results will be adversely affected in future periods. Differences between estimated and actual costs, arising from a number of factors such as production delays, cost overruns and other unforeseen matters, may have a material adverse impact on Leonardo's financial condition and results of operations.

Risk of proper performance of contracts also depends on the supply and sub-supply chain

The Group purchases, in substantial proportions, industrial products and services, materials and components, equipment and subsystems provided by suppliers and sub-suppliers. Therefore, the timely and satisfactory performance of Leonardo's contractual commitments depends upon, *inter alia*, the timely and proper performance of the contractual obligations of such suppliers and sub-suppliers. This in turn may be affected by certain factors beyond the suppliers' and sub-suppliers' control, such as the destruction of their facilities or distribution infrastructure and/or work stoppages and strikes. The Group's dependence on suppliers for certain business activities might give rise to difficulties in maintaining quality standards and meeting delivery times. The risk profile of suppliers and sub-suppliers – especially the small and medium sized enterprises – can deteriorate during downturns in the economy, in the case of geopolitical tensions and conflicts and during periods of convulsive recovery, attributable to offer shortages and discontinuity, bottlenecks and inflationary effects felt in the real economy, such as the increase in prices of, *inter alia*, the energy commodities which it is, and may further be, experienced also as a consequence of the Russo-Ukrainian war, besides the escalations in the Middle East region. In addition, third-party acquisitions of suppliers relevant to the Group could change the terms and conditions of contract renewals, with costs or timing being less convenient for the Issuer.

Furthermore, the production of chips and electronic components – of great importance for industrial applications, especially for high-tech applications - still relies on a small number of countries, mostly outside the European Union. These goods continue to be characterised by long delivery times as a consequence of the convulsive and at times discontinuous post-pandemic recovery and the outbreak of the Russian-Ukrainian conflict and the consequent contrasts among countries. In some cases, critical raw materials, including the rare earths elements, are a decisive enabler for both the technologies of certain production sectors and the initiatives underpinning the European Green Deal. Most of the critical raw materials relevant to the Aerospace and Defence sector are not directly available in Europe, but rather in other countries, mainly non-NATO/EU. When availability and production of materials are concentrated in a single country, such country may be in a position to sway the balance between global supply and demand, with impacts on market prices and/or availability of goods. This trend may be exacerbated in scenarios marked by critical geopolitical issues, the deterioration of institutional and commercial relations between sovereign states and/or the occurrence of war conflicts, especially if the countries involved play a substantial role in the supply of energy commodities and the production of critical materials (including, without limitation, raw materials) such as some parties involved in the Russo-Ukrainian war. Escalations of the conflict in the Middle East may add complexities to such a scenario.

Any failure by the Leonardo Group to deliver products and services in a timely manner or at all, or any defect in contract performance (including as a result of delays or breaches by the Group's suppliers or sub-suppliers) as well as any failure in after-sale services and maintenance and revision of products may lead to higher costs or penalties and may have an adverse effect on the Leonardo Group's financial condition and results of operations.

The Group is required to fulfil direct or indirect offset obligations in certain countries

Some international customers require industrial cooperation related to the award of contracts in the aerospace and defence sector, in certain cases with rigorous requirements linked to the development policy of each relevant country. Together with supply contracts, the Group may

therefore undertake offset obligations that require procurement or manufacturing support at local level, technology transfer and investments in industrial projects in the customer's country. Failure to meet offset obligations may result in the application of penalties and, in certain cases, might prevent the Group from participating in contract award procedures in the countries concerned, with a consequent negative impact on the profitability of the Leonardo Group.

A substantial amount of consolidated assets is attributable to intangible assets and goodwill

The recoverability of amounts recognised as intangible assets (including goodwill and development costs) is linked to the implementation of future plans and the business plans for the relevant products that, especially in case of long-term developments, may see the needs of customers and the competitive environment change, given the speed of technological innovation. Any failure to implement such plans may impair the value of the intangible assets.

The overall productivity of the consortia in which Leonardo participates depends in part on Leonardo's partners performing their obligations

Leonardo performs a substantial portion of its business as a prime contractor or sub-contractor in *consortia*. As prime contractor, Leonardo assumes its responsibility towards the customer in respect of work to be performed by its partners, whom Leonardo does not control. Failure by any of Leonardo's partners to perform their obligations may affect Leonardo's ability or the ability of the *consortia* to perform their respective obligations, impairing the *consortia*'s overall productivity and Leonardo's ability to perform its obligations as prime contractor. Sub-contractor performance deficiencies could result in a customer terminating a contract for default, thereby exposing Leonardo to liabilities and penalties, which would have a material adverse effect on Leonardo's results of operation and financial condition, as well as its ability to compete for future contracts and orders.

The Leonardo Group is exposed to product liability and other customer claims which may not be fully covered by insurance policies

Leonardo is subject to product liability and other claims from customers or third parties in connection with (i) non-conformity of products or services with customers' requirements, due to design and manufacturing defects of products and services, for example; (ii) delays in supplying or failure to supply products or services indicated in the contract (or offsetting obligations); or (iii) defaults and/or delays in the marketing, performing of after-sale services and maintenance and revision of products. These liabilities might arise from causes that are attributable directly to the Leonardo Group companies or due to maintaining the specialist expertise of the relevant Group company and its resources or causes that are ascribable to third parties outside the Group that act as suppliers or sub-suppliers for the Group. Although these claims are generally covered by Leonardo's insurance policies, there can be no assurance that insurance will cover all future product liability claims. In addition, any accident, failure, incident or liability, even if fully insured, could damage Leonardo's reputation among its customers and the public, thereby making it more difficult for Leonardo to compete effectively, and could have a significant impact on the cost and availability of adequate insurance in the future. Material product defects or breaches by the Leonardo Group may also lead to contract termination. All of the above factors could have a material adverse effect on Leonardo's business, financial condition and results of operation.

Leonardo may face difficulties in protecting its intellectual property

Leonardo's success and results depend, in part, on its ability to protect its research and development innovation by intellectual property rights (primarily patents, copyrights and trade secrets). To this end, the Group's intellectual property rights are granted to third parties only through specific license agreements and other contractual provisions.

However, there can be no assurance that Leonardo will be able to prevent any unauthorised use of its intellectual property, due to, *inter alia*, disloyal employees or suppliers' default of the contractual provisions related to intellectual property rights, as well as any risk of counterfeiting. Furthermore, patent protection does not prevent competitors from developing incremental or radical innovations without violating the Leonardo Group's intellectual property rights. In addition,

government clients normally have the royalty-free right to use intellectual property rights (sometimes including the right to sub-license) related to the Leonardo Group's products and technologies that have been developed under government contracts, which weakens the Group's intellectual property protection.

Moreover, the Group may have difficulties in enforcing its intellectual property rights against alleged infringers. In this event, Leonardo is required to assess the pros and cons deriving from a lawsuit to be filed against the alleged infringers. Any claims, indeed, could be time consuming and expensive. Furthermore, many jurisdictions may be involved, thus increasing the uncertainty connected with the outcome of the proceedings.

In addition, third parties have claimed in the past and may claim in the future that the Group is infringing directly or indirectly upon their intellectual property rights. If the Group were not to prevail in any of these claims, it could be required to cease the manufacturing of a product, indemnify significant damages or enter into license agreements which the Group may not be able to obtain with acceptable royalty.

If Leonardo fails to effectively protect its own intellectual property or to successfully defend itself from aggressive claims by third parties, then its business, results of operation and financial condition could be materially harmed.

Other facts and circumstances that may affect Leonardo Group's operation

In addition to the risk factors described above, the operation of the Leonardo Group, also through its supply chain, may be affected, directly and/or indirectly, by other facts or circumstances such as disruptions caused by natural disasters, severe weather conditions, other extraordinary and unforeseeable events such as a fire, service interruption or acts of terrorism.

Climate change, the protection of the environment and consequent new developments in the scenario may require actions to be taken on certain types of processes and products

The transition to a low-carbon and more environmentally sustainable economy may entail risks for the Group as well as its business, assets and processes, induced by greater severity of environmental and climate policies, disharmony in the regulations of different countries (including resulting competitive asymmetries between companies), the progress of the relevant technology or the changing confidence of investors and lenders in the relevant business. In parallel, the importance of the sustainability requirements of suppliers and their supply chains and the consumption of energy and water resources is becoming a central issue in customer tenders.

Furthermore, the impact of climate change, in addition to affecting the geopolitical context, exposes the Group to an increased frequency of acute weather events, such as storms and floods, as well as droughts and fires, which can endanger industrial sites and products being prepared.

In order to reduce the effects of environmental events caused by climate change – such as floods, drought, fires, storms and others – which may significantly affect corporate sites and assets, environmental regulations require a transition towards a low-carbon and more environmentally sustainable economy. This may have an impact on business, production processes and assets, as well as on the products and services offered to the market. Leonardo cannot anticipate whether, and to what extent, such regulations will become more stringent over time, nor can Leonardo give any assurances that the cost of future compliance with existing regulations will not increase.

- ***RISKS RELATED TO THE FINANCIAL INDEBTEDNESS OF THE GROUP***

Risk related to high levels of indebtedness and to interest rates fluctuation

The Group's debt level is high as a consequence of a low level of cash flow generation, thereby reducing the Group's profitability through higher borrowing costs and exposing it to future fluctuations in interest rates (as to the floating portion). The high levels of indebtedness could have an impact on the Group's strategy, limiting its operational and strategic flexibility. Persisting or new restrictive monetary policies by central banks could make new financing and current floating-rate debt more expensive. Potential future liquidity crises could also restrict the Group's

ability to repay its debts. Furthermore, certain bank facilities include financial covenants or the achievement of some ESG key performance indicators, whose breach may lead to default.

In addition, the Leonardo Group is subject to interest rate risk arising from its financial indebtedness, which varies depending on whether such indebtedness is at a fixed or floating rate. As at 31 December 2023, approximately 30%] per cent. of Leonardo's financing sources is represented by variable rate instruments (taking into account the hedging policies in place), the cost of which increases when market interest rates rise. For the portion of fixed-rate debt, in the event of its refinancing, the increase or the persistence at higher levels of the interest rates – as in case of restrictive monetary policies to manage the inflation trends – can lead to a worsening of the overall Group's financial situation.

The Group's credit rating and financial market conditions may affect its ability to obtain funding

All bond issues by the Leonardo Group are typically given a medium-term financial credit rating by the three international rating agencies: Moody's, Standard & Poor's and Fitch (for information regarding Leonardo's credit ratings see the cover page of this Base Prospectus). A downgrade in the Group's credit rating could severely limit its access to funding sources, as well as increase its borrowing costs for loans, which would have a negative impact on the Group's business prospects and its performance and financial results. These difficulties could be compounded by unfavourable market conditions and other factors which may prevent Leonardo from meeting its financial needs. Furthermore, eligibility and sustainability performance of the Group may also become increasingly important in determining creditworthiness of the Group. In addition, were the Group to obtain funding, borrowing costs could be higher and contractual conditions may be less favourable than current arrangements in terms of covenants and other restrictions. Any difficulties in obtaining access to funding would have a material adverse effect on the Leonardo Group's financial condition and business results.

In addition, on the basis of the methodologies used by Standard & Poor's and Moody's, the Issuer's credit ratings might potentially be exposed to risk in reductions of the sovereign credit rating of the country of origin, which may have a potential knock-on effect on the credit rating of certain issuers, such as the Issuer, and increase the likelihood that the credit rating of Notes (if any) could be downgraded, with a consequent adverse effect on the market value of the Notes.

The Leonardo Group may suffer losses from any deficit in its defined benefits plans

The Group is a sponsor of defined-benefit pension plans in the United Kingdom and the U.S. and of other minor plans in Europe. Under defined-benefit plans, the Group is required to ensure a specific future retirement benefit level for employees participating in the plan; in the United Kingdom and the U.S., the pension funds in which the Group participates invest resources in the plan's assets (stocks, bonds, etc.) that might not be sufficient to cover the agreed-upon benefits, especially in periods of turbulence of the financial markets, also as a consequence of conflicts such as the Russo-Ukrainian war. If the value of the plan's assets is less than the agreed-upon benefit level, the Group records the amount of the deficit as a liability. The calculation of expected liabilities arising from defined benefit plans is based on actuarial estimates and demographic and financial assumptions. However, future developments may differ from those estimates and assumptions and may lead to significantly higher levels of deficits, including, for example, as a result of high volatility in equity and bond markets. In those circumstances, the Group must make up for the shortfall and any further increases in deficits could have a material adverse effect on its financial condition and results of operations.

The Leonardo Group operates in industries demanding high working capital, which is subject to volatility and seasonal variations

The Leonardo Group is required to maintain a high level of working capital because its business activities are characterised by long product development periods and production cycles. The Leonardo Group partly finances its working capital requirements through arrangements with customers (*i.e.* advance payments) and suppliers, and through working capital financing lines. The scope and quantity of the Leonardo Group's transactions with government and government-related entities has, from time to time, increased working capital requirements because of a

deterioration in the terms of payment. Delays and/or a reduction in customer payments or advance payments, reduction in margins achieved on sales of products and services, timing and collection of receivables, timing and size of inventory and work in progress increases and/or accelerated payments to suppliers may lead to extraordinary cash absorptions, which could materially increase the amount of working capital to be funded through external debt financing.

In addition, the Leonardo Group's level of debt during the year reflects seasonal working capital requirements. These requirements arise largely because, while expenditure is incurred regularly during the course of the year, several of Leonardo's largest customers (including the public sector) typically pay at the financial year end (fourth quarter), thereby increasing Leonardo's reliance on debt financing for short term working capital requirements.

Historically, Leonardo's working capital requirements and cash flows have been, and are expected to continue to be, subject to significant fluctuations. Any difficulty in meeting the Group's working capital requirements and or the management of fluctuations in cash flows could have a material adverse effect on its financial condition and results of operations.

- **EXTERNAL RISKS**

The Group is exposed to the risk of exchange-rate fluctuations

Because of Leonardo's substantial international sales, fluctuations in the exchange rate of the Euro, which is the Leonardo Group reporting currency, against other currencies, mainly U.S. dollar and Sterling, can have a significant impact on Leonardo's revenues and operating results. In particular, the Group reports a significant portion of revenues in U.S. dollars and Sterling, while costs may be denominated in other currencies (mainly Euros). Accordingly, any decrease in the value of the U.S. dollar and/or Sterling compared to the Euro affects the Group's margins in Euro. In addition, fluctuations in exchange rates may adversely affect the competitiveness of Leonardo's products and services provided outside the Eurozone.

In order to hedge the above foreign currency risk exposure under contracts which are denominated in currencies other than the functional currency of the entity performing the operation ("transaction risk"), the Group enters into forward currency transactions, swaps and options. However, there can be no assurance that future fluctuations in exchange rates, particularly the Euro/Sterling and the Euro/U.S. dollar exchange rate, will not harm the Leonardo Group's business, results of operations and financial condition.

Moreover, the Leonardo Group has made significant investments *inter alia* in the United Kingdom, the United States and in Poland. Since the reporting currency of the Group's consolidated financial statements is the Euro, appreciation of the Euro against the Sterling, the U.S. dollar or the Polish zloty could have an adverse impact, through the translation of the financial statements of foreign subsidiaries/investees, on the Leonardo Group's balance sheet and income statement and may give rise to significant changes in Leonardo's shareholders' equity from period to period (so-called "translation risk").

The Leonardo Group is exposed to credit and counterparty risk

The Leonardo Group is active with clients belonging to countries that are suffering from political, social and economic instability (besides the situation in the Middle East). These countries may be subject to (i) high inflation, volatile exchange rates, rising public debts and interest expenses (ii) weak bankruptcy and creditor protection law and (iii) limitations on investments and export/import of assets. In addition, those countries may be exposed to the risk of social unrest and political upheavals. Any instability in countries where the Group does business, such as, *inter alia*, Nigeria, Turkey, Pakistan, Kenya and Angola may have a material adverse effect on the Group's financial condition and results of operations. For further information, see Section 37 (*Financial risk management*), paragraph headed "*Credit risk*", of the explanatory notes to the Leonardo 2023 Integrated Annual Report incorporated by reference in this Base Prospectus.

Furthermore, given that Leonardo often operates under long-term contracts (in this respect see also risk factors headed "*The Group's performance depends on proper and effective execution of existing long-term contracts and on the award of new long-term contracts*" and "*Differences*

between estimated and actual costs incurred in performing medium and long-term contracts may affect Leonardo's operating results" above), the Group is exposed to a higher risk of default by customers who, although believed to be financially sound at the time of the initial order, subsequently face financial difficulties. In the case of customer insolvency, the Group may find itself in a situation where it has already delivered an order or incurred the costs associated with it but has not received full payment or is even required to return amounts to the insolvency administrator or liquidator.

Risks associated with Leonardo's transactions in countries with entities or in specific sectors which might become subject to sanctions or associated with Leonardo's potential infringement of compliance laws and regulations

The complex and constantly evolving geopolitical and regulatory environment may have unpredictable consequences in countries in which, or for entities with whom, Leonardo currently conducts business, which may in the future be subject to sanctions or blacklisted, resulting in a loss of Leonardo's current and/or potential business, which could have a material adverse effect on its financial condition and results of operations. Indeed, international sanction authorities impose and may further impose restrictions on trade with certain countries, regions and/or persons and/or on trade of certain goods and/or provision of certain services.

In addition, any potential allegations made against members of the Leonardo Group relating to violations of European and/or US sanctions-related regulations could adversely affect the Group's reputation and relationship with its customers, its ability to obtain future contracts and orders and the Group's capacity to raise finance from banking institutions or refinance existing lines of credit, with the result that its business, operations and financial condition could be materially harmed.

Pandemics can have time-varying effects and lead to systemic crises

A pandemic can undermine people's health to the point of jeopardising the resilience of the health and socio-economic systems of the countries involved, leading to systemic or large-scale crises that may take a long time to normalise. The duration and magnitude of a pandemic depend, among other things, on the timeliness and effectiveness of health actions taken at global level, the possible mutations of the virus, and the coverage and decay of immunisation. A single epidemic event not properly addressed at regional or local level can quickly turn into a pandemic.

As was the case with COVID-19, the Leonardo Group's performance can be affected by declines in target sectors as well as by additional risk factors, among which the economy recovery trend and the market trend, asymmetries between demand for and supply of certain goods and services, inflationary effects, shortages of certain professional skills, the ability of customers and suppliers to meet contractual obligations undertaken and to undertake new ones, the revision, by customers, of purchasing strategies, including by the shortening of supply chains or insourcing services, restrictions resulting from measures to protect people's health, with repercussions on the Group's commercial and industrial action. The impacts of a pandemic may exacerbate other risk factors, any of which could have a material adverse impact on the Group's business, financial condition and results of operations.

- ***RISKS RELATED TO LEONARDO'S PRINCIPAL SHAREHOLDER***

The Italian Ministry of Economy and Finance has significant influence over Leonardo's actions which may restrict its ability to run its business

At the date of this Base Prospectus, the Italian Ministry of Economy and Finance holds approximately 30.20 per cent of Leonardo's share capital and exercises the control over major decisions taken by Leonardo through a significant holding of its ordinary shares which *de facto* allows the Ministry to appoint two-thirds of the directors by means of a special mechanism (*voto di lista*) provided for under the By-laws. Accordingly, the Italian government has a significant influence over decisions taken at Leonardo's shareholders' meetings, including the payment of any dividends, capital increases and the appointment of directors and statutory auditors. Furthermore, Leonardo's By-laws provide for shareholding limits and require qualified majorities by Leonardo's Board of Directors and shareholders for the approval of certain actions. Given the size of these qualified majorities, it may be necessary to obtain the affirmative vote of directors

appointed by the Italian government at a board meeting or, on the basis of past experience, the affirmative vote of the Italian government at a shareholders' meeting in order for those actions to be approved. As a result, Leonardo's shareholders' meetings could experience significant decision-making deadlock in the event the Italian government is against certain initiatives (including as a consequence of factors not specifically linked to the sectors in which the Group operates) and, at the same time, the ability of other shareholders to influence decisions on matters submitted to the approval of Leonardo's shareholders' meeting may be limited.

In addition, in periods with high financial and economic instability the Italian government might dispose of certain assets in order to increase its cash flow and support public expenditure in sectors which, from time to time, might be considered more strategic. Alternatively, it may significantly restrict the operations of companies in which it owns significant holdings (such as the Issuer) with the aim of adopting a more conservative approach. This could also negatively affect the financial and business results of the Group.

The "golden power" may affect Leonardo's ability to manage its business

Pursuant to Law Decree No. 21 of 15 March 2012 (converted with amendments into Law No. 56 of 11 May 2012), as amended by Law Decree No. 23 of 8 April 2020 and Law Decree No. 21 of 21 March 2022 (as converted by Law No. 51 of 20 May 2022) (the "**Golden Powers Decree**"), the Italian government is entitled to exercise certain special powers (the "**Golden Powers**") in order to face serious threats to public interests or threats to security and public order with respect to companies operating in sectors such as defence and national security, transport, energy and communication and high tech and holding or managing strategic assets in those sectors, as specifically identified in implementing regulations.

The Golden Powers, which are unrelated to any equity interest held in the companies operating in the previously mentioned sectors, consist mainly of the following:

- (a) imposition of specific requirements or conditions on the acquisition of stakes in companies operating in strategic areas;
- (b) veto right over certain shareholders' and/or directors' resolutions concerning extraordinary transactions involving companies holding strategic assets (as identified by the relevant implementing measures) such as, *inter alia*, mergers, demergers, transfers of business or business units, changes to the corporate purposes, transfer of the registered offices, securities over the assets; and
- (c) opposition to the acquisition of stakes by entities where the buyer came to acquire an interest in the voting share capital of the previously mentioned companies, which is capable of affecting the defence, and national security interests.

The Italian government may or may not exercise the above special powers. The exercise of any of the Golden Powers and the relevant consequential measures could affect Leonardo's ability to manage its business with reference to the relevant transactions mostly referred to above. In particular, the exercise of the special powers connected to the acquisition of holdings in Leonardo, could make a change of control of Leonardo (whether by merger or otherwise) more difficult or even discourage certain bidders from making an offer involving a change of control that might otherwise be beneficial to stakeholders.

The Italian government has the faculty to exercise the Golden Powers ex officio in case of failed notification of the transaction by the relevant company(ies). Without prejudice to the application of criminal sanctions (should the conduct constitute the perpetration of a crime), failure to notify a relevant transaction, or to carry it out before receiving governmental clearance or in breach of the government-imposed prescriptions or conditions, entails an administrative pecuniary sanction of up to twice as much as the value of the transaction and, in any event, no less than 1% of the aggregate turnover realized in the last fiscal year. Any ruling by which such rights and powers are exercised may be challenged before the Regional Administrative Tribunal of Lazio.

With specific reference to the implementing decrees impacting on Leonardo's sectors of activity, the Decree No. 108 issued by the President of the Council of Ministers on 6 June 2014, in force

as of 15 August 2014, identified a list of activities of strategic importance for the national defence and security system for the purposes of the exercise of the special powers provided under the Golden Powers Decree.

The Decree No. 179 issued by the President of the Council of Ministers on 30 December 2020, identifies assets and relationships of strategic importance under the so-called “European Sectors” referred to in Article 2, paragraph 1-ter of the Golden Power Decree. These sectors cover all the “critical factors” set out under Article 4 of Regulation (EU) No. 452/2019 of the European Parliament and of the Council of 19 March 2019 (establishing a framework for the screening of foreign direct investments into the Union) and include asset and activities such as, by way of example, data processing and storage (Article 6), artificial intelligence and cyber-security (art. 9) and dual use items (Article 12).

Both Law Decree No. 21 of 21 March 2022 and Law No. 51 of 20 May 2022 (the so-called “Ukraine Decree”) provide for significant amendments to the Law Decree No. 21 of 15 March 2012. The Ukraine Decree has introduced several changes to the Golden Powers screening procedure to address some of the uncertainties that followed the expansion of the Golden Powers. For example, it is now provided that, in addition to deals currently subject to Golden Powers screening, corporate resolutions resulting in a change of ownership, control and availability of strategic assets are also to be examined by the Presidency of the Council of Ministries, as well as any assignments of strategic assets as a guarantee. Furthermore, the Ukraine Decree has made the increased scope of Golden Powers permanent, as the amendments introduced in 2020 due to COVID-19 were previously introduced on a temporary basis, and it has further strengthened the government’s powers in specific sectors such as, inter alia, defence and national security.

MATERIAL RISKS THAT ARE SPECIFIC TO THE NOTES ISSUED UNDER THE PROGRAMME AND WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH NOTES ISSUED UNDER THE PROGRAMME

- ***RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES***

Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of Fixed Rate Notes. While the nominal interest rate of a security with a fixed interest rate is fixed during the life of such security or during a certain period of time, market interest rates typically change on a daily basis. As market interest rates change, the price of such security changes in the opposite direction. In particular, if market interest rates increase, the price of such security typically falls, until the yield of such security is approximately equal to the prevailing market interest rate. Conversely, if market interest rates fall, the price of a security with a fixed interest rate typically increases, until the yield of such security is approximately equal to the prevailing market interest rate.

Investors will not be able to calculate in advance their rate of return on Floating Rate Notes

A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Notes provide for frequent interest payment dates, investors are exposed to reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer’s ability to issue Fixed Rate Notes may affect the market value and the secondary market (if any) of the Floating Rate Notes (and vice versa).

Certain benchmark rates, including EURIBOR, may be discontinued or reformed in the future

The Euro Interbank Offered Rate ("**EURIBOR**") and other interest rates or other types of rates and indices which are deemed to be benchmarks are and/or may be the subject of national and international regulatory discussions and proposals for reform.

The Benchmarks Regulation applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU. The Benchmarks Regulation could have a material impact on any Notes linked to EURIBOR or another benchmark rate or index, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the terms of the Benchmarks Regulation, and such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level, of the benchmark. More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks," trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the discontinuance or unavailability of quotes of certain "benchmarks."

As an example of such benchmark reforms, on 21 September 2017, the European Central Bank announced that it would be part of a new working group tasked with the identification and adoption of a "risk free overnight rate" which can serve as a basis for an alternative to current benchmarks used in a variety of financial instruments and contracts in the euro area. On 13 September 2018, the working group on Euro risk-free rates recommended the new Euro short-term rate ("**€STR**") as the new risk-free rate for the euro area. The €STR was published for the first time on 2 October 2019. Although EURIBOR has subsequently been reformed in order to comply with the terms of the Benchmarks Regulation, it remains uncertain as to how long it will continue in its current form, or whether it will be further reformed or replaced with €STR or an alternative benchmark.

The elimination of any benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the interest calculation provisions of the Conditions (as further described in Condition 7(e) (*Benchmark Replacement (Independent Adviser)*)) or result in adverse consequences to holders of any Notes linked to such benchmark (including Floating Rate Notes whose interest rates are linked to EURIBOR or any other such benchmark that is subject to reform). Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities (including the Notes) based on the same benchmark.

The "*Terms and Conditions of the Notes*" provide for certain fallback arrangements in the event that a published benchmark, such as EURIBOR, (including any page on which such benchmark may be published (or any other successor service)) becomes unavailable or a Benchmark Event or a Benchmark Transition Event (each as defined in the Conditions), as applicable, otherwise occurs. Such an event may be deemed to have occurred prior to the issue date for a Series of Notes. Such fallback arrangements include the possibility that the rate of interest could be set by reference to a successor rate or an alternative rate and that such successor rate or alternative reference rate may be adjusted (if required) in accordance with the recommendation of a relevant governmental body or in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark, although the application of such adjustments to the Notes may not achieve this objective. Any such changes may result in the Notes performing differently (which may include payment of a lower interest rate) than if the original benchmark continued to apply. In certain circumstances the ultimate fallback of interest for a particular Interest Period may result in the rate of interest for the last preceding Interest Period being used.

This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of successor rates and alternative reference rates and the involvement

of an Independent Adviser (as defined in the Conditions) in certain circumstances, the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the value of and return on any such Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest bearing securities with comparable maturities.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than the then prevailing spreads on comparable floating rate notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing rates on its other Notes.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

- ***RISKS RELATED TO THE MARKET GENERALLY***

No active trading market for the Notes, the secondary market generally and the market volatility

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single Series with a Tranche of Notes which is already issued). Although application has been made for the Notes issued under the Programme to be admitted to the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange, there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop or, if developed, that it will continue. Furthermore, if the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer.

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes. In addition, holders of Notes should be aware that, in view of

the prevailing and widely reported global credit market conditions (which continue at the date hereof), the secondary market for Notes and instruments of this kind may be illiquid. The Issuer cannot predict when these circumstances will change.

Delisting of the Notes

Application has been made for Notes issued under the Programme to be listed on the Official List and admitted to trading on the regulated market of the Luxembourg Stock Exchange, however Notes issued under the Programme may also be admitted to trading, listing and/or quotation by any other listing authority, stock exchange or quotation system of the European Union (each, a "**listing**"), as specified in the relevant Final Terms. Such Notes may subsequently be delisted despite the best efforts of the Issuer to maintain such listing and, although no assurance is made as to the liquidity of the Notes as a result of listing, any delisting of the Notes may have a material effect on a Noteholder's ability to resell the Notes on the secondary market.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

• RISKS RELATED TO THE NOTES GENERALLY

Credit ratings assigned (if any) to any Notes or the Issuer may not reflect all the risks associated with an investment in those Notes

Tranches of Notes issued under the Programme may be rated or unrated. One or more independent credit rating agencies may assign credit ratings to the Notes. The credit rating of a Tranche of Notes (if any) will be provided in the relevant Final Terms. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the ratings described herein or the ratings assigned to Leonardo. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A rating is not a recommendation to buy, sell or hold securities, and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Any adverse change in an applicable credit rating could adversely affect the trading price for the Notes issued under the Programme. Credit ratings may be lowered, *inter alia*, if certain profitability and cash flow to debt ratios are not met by Leonardo. The Issuer's borrowing costs and access to the capital markets depend significantly on the credit ratings assigned to the Issuer. Reduction in the credit ratings of the Issuer could significantly increase borrowing costs and limit the Issuer's access to the capital markets. In turn this could materially adversely affect the Issuer's access to liquidity, its competitive position, increase its funding costs and, hence, have a material adverse effect on the Issuer's business, financial position and results of operations.

Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation will be disclosed in the relevant Final Terms. In general, European regulated investors may be restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation unless: (1) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation; or (2)

the rating is provided by a credit rating agency not established in the EEA which is certified under the EU CRA Regulation. The list of registered and certified credit rating agencies is published by ESMA on its website in accordance with the EU CRA Regulation and is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant credit rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

UK regulated investors are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation, unless (1) the rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or (2) the rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation.

The Notes may be redeemed at the Issuer's option prior to maturity

If in the case of any particular Tranche of Notes the relevant Final Terms specifies that the Notes are redeemable at the Issuer's option in certain circumstances, the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of such Notes generally will not rise substantially above, and may in fact decrease below, the price at which they can be redeemed. This also may be true prior to any redemption period. The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate.

In addition, with respect to the options under Condition 9(b) (*Redemption and Purchase – Redemption for tax reasons*), Condition 9(c)(i) (*Redemption and Purchase – Redemption at the option of the Issuer – Issuer Call*), Condition 9(d) (*Redemption and Purchase – Clean-Up Call Option*) and Condition 9(e) (*Redemption and Purchase – Redemption at the Option of the Issuer from three months prior to the Maturity Date of the relevant Notes*), the Issuer's right to redeem at par all or, as the case may be, part of the Notes will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of the relevant option the Notes may have been trading significantly above par, thus potentially resulting in a loss of capital invested. If the Issuer calls and redeems the Notes in the circumstances mentioned above, the Noteholders may not be able to reinvest the redemption proceeds in securities offering a comparable yield. Potential investors should consider reinvestment risk in light of other investments available at that time.

Furthermore, with respect to the Clean-Up Call Option, there is no obligation under the Terms and Conditions of the Notes for the Issuer to inform investors if and when the percentage of 80 per cent. is about to be reached, and the Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of the Clean-Up Call Option, the Notes may have been trading significantly above par, thus potentially resulting in a loss of capital invested.

The Make-Whole Issuer Call and the Issuer Call are exercisable in whole or in part and such exercise by the Issuer in respect of certain Notes may affect the liquidity of the Notes in respect of which such option is not exercised

The Issuer Call provided in Condition 9(c)(i) (*Redemption and Purchase – Redemption at the option of the Issuer – Issuer Call*) and the Make-Whole Issuer Call provided in Condition 9(c)(ii) (*Redemption and Purchase – Redemption at the option of the Issuer – Make-Whole Issuer Call*) are exercisable in whole or in part. If the Issuer decides to redeem certain Notes in part only, such partial redemption may affect the liquidity of the Notes of the same Series in respect of which

such option is not exercised. Depending on the number of the Notes of the same Series in respect of which the Issuer Call or the Make-Whole Issuer Call (as the case may be) is exercised, any trading market in respect of those Notes in respect of which such option is not exercised may become illiquid.

Redemption for tax reasons

In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Republic of Italy or certain other relevant jurisdictions or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with Condition 9(b) (*Redemption and Purchase – Redemption for tax reasons*). In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

The Issuer may amend the economic terms and conditions of the Notes without the prior consent of all holders of such Notes

The terms and conditions applicable to each Series will be as agreed between the Issuer and the relevant Dealer at or prior to the time of issuance of such Series, and will be completed by the relevant Final Terms. The terms and conditions applicable to each Series will therefore be those set out under "*Terms and Conditions of the Notes*" below, subject to being completed by the relevant Final Terms in relation to each Series.

The Terms and Conditions of the Notes and the Agency Agreement contain provisions, which are binding on the Issuer and the holders of Notes, for convening meetings of the holders of Notes of any Series to consider matters affecting their interests generally, including the modification or waiver of the Conditions applicable to any Series of Notes. These provisions permit defined majorities to make decisions that may affect Noteholders' rights and obligations under the Notes and bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. Any such amendment to the Notes may include, without limitation, lowering the ranking of the Notes, reducing the amount of principal and interest payable on the Notes, changing the time and manner of payment, changing provisions relating to redemption, limiting remedies on the Notes, and changing the amendment provisions. These and other changes may adversely impact Noteholders' rights and may adversely impact the market value of the Notes. Furthermore, the Issuer has the right to correct manifest errors in the Conditions without the Noteholders' consent. In addition, in accordance with Condition 7(e) (*Floating Rate Note Provisions – Benchmark Replacement*), certain changes may be made without the consent of Noteholders to the interest calculation provisions of the Floating Rate Notes in the circumstances and as otherwise set out in such Condition.

Notes where denominations involve integral multiples: Definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Note may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case, a holder who, as a result of such trading, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in bearer form in respect of such holding (should such definitive Notes be printed) and, in order to receive such a Note, would need to purchase a principal amount of Notes such that its holding amounts to the minimum Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Potential conflicts of interest

Any Calculation Agent appointed under the Programme (whether the Fiscal Agent, any Paying Agent or otherwise) is the agent of the Issuer and not the agent of the Noteholders. Potential conflicts of interest may exist between the Calculation Agent (if any) and Noteholders, including with respect to certain determinations and judgments that such Calculation Agent may make pursuant to the Conditions that may influence amounts receivable by the Noteholders during the term of the Notes and upon their redemption.

Besides, the Issuer may act as Calculation Agent or appoint a Dealer as Calculation Agent in respect of an issuance of Notes under the Programme. In such a case the Calculation Agent is likely to be a member of a financial group that is involved, in the ordinary course of its business, in a wide range of banking activities out of which conflicting interests may arise. Whilst such a Calculation Agent will, where relevant, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Noteholders during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer

Notes issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a common depositary, or as the case may be, a common safekeeper for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg. While the Notes are represented by one or more Global Notes the Issuer will discharge its payment obligations under the Notes by making payments to the common depositary or, as the case may be, a common safekeeper for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes will not have a direct right under the Global Notes to take enforcement action against the Issuer in the event of a default under the relevant Notes but will have to rely upon their rights under the Deed of Covenant.

Taxation

The tax regime in the Republic of Italy and in any other relevant jurisdiction (including, without limitation, the jurisdiction in which each Noteholder is resident for tax purposes) may be relevant to the acquiring, holding and disposing of Notes and the receiving of payments of interest, principal and/or other income under the Notes. For instance, the substitutive tax exemption regime provided by Legislative Decree No. 239 applies if certain procedural requirements are met and there can be no assurance that all non-Italian resident investors will be entitled to claim the application of the withholding tax exemption. For further information on the principal Italian tax consequences of the purchase, ownership, redemption and disposal of the Notes, see the section headed "*Taxation*" below. Furthermore, Law No. 111 of August 2023 delegated to the Italian Government the ability to enact, within the next twenty-four months, one or more legislative decrees to reform the Italian tax system. According to this law, such tax reforms could significantly change the taxation of financial income and capital gains and introduce several amendments in the Italian tax system. The precise nature, extent, and impact of these amendments cannot be quantified or foreseen with any certainty at this stage.

FINAL TERMS AND DRAWDOWN PROSPECTUSES

In relation to the different types of Notes which may be issued under the Programme, the Issuer has included in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes. In this section the expression "**necessary information**" means, in relation to any Tranche of Notes, the necessary information which is material to an investor for making an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and of the rights attaching to the Notes and the reasons for the issuance and its impact on the Issuer.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will be contained in the relevant Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus, in which case such information, together with all of the other necessary information in relation to the relevant series of Notes, may be contained in a Drawdown Prospectus.

For a Tranche of Notes which is the subject of Final Terms, those Final Terms must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Conditions as completed by the relevant Final Terms.

The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted by a single document containing the necessary information relating to the Issuer and the relevant Notes.

FORMS OF THE NOTES

Each Tranche of Notes will initially be in the form of either a temporary global note (the "**Temporary Global Note**"), without interest coupons, or a permanent global note (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each, a "**Global Note**") which is not intended to be issued in new global note ("**NGN**") form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking, *société anonyme*, Luxembourg ("**Clearstream, Luxembourg**") and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

According to the European Central Bank (the "**ECB**"), Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the central banking system for the euro (the "**Eurosystem**"), provided that certain other criteria are fulfilled. Debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership, within seven days of the bearer requesting such exchange.

The principal amount of Notes represented by the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; **provided, however, that** in no circumstances shall the principal amount of Notes represented by the Permanent Global Note exceed the initial principal amount of Notes represented by the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form ("**Definitive Notes**"):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or

- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default as defined in Condition 12 (*Events of Default*) occurs and the Notes become due and payable.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

When the Permanent Global Note is to be exchanged for Definitive Notes in the circumstance described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations of EUR 100,000, plus integral multiples of EUR 1,000 in excess thereof up to and including EUR 199,000 and no Notes in definitive form will be issued with a denomination above EUR 199,000.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

When the Temporary Global Note is to be exchanged for Definitive Notes, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or

- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default as defined in Condition 12 (*Events of Default*) occurs and the Notes become due and payable.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

When the Permanent Global Note is to be exchanged for Definitive Notes in the circumstance described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations of EUR 100,000, plus integral multiples of EUR 1,000 in excess thereof up to and including EUR 199,000 and no Notes in definitive form will be issued with a denomination above EUR 199,000.

The Notes are issued pursuant to Articles 2410 *et seq.* of the Italian Civil Code, as amended and supplemented from time to time.

(b) **Final Terms**

Notes issued under the Programme are issued in series (each, a "**Series**") and each Series may comprise one or more tranches (each, a "**Tranche**") of Notes. Each Tranche is the subject of a set of final terms (the "**Final Terms**") which completes these terms and conditions (the "**Conditions**"). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as completed by the relevant Final Terms. In the event of any inconsistency between these Conditions and the relevant Final Terms, the relevant Final Terms shall prevail.

(c) **Agency Agreement**

The Notes are the subject of an amended and restated issue and paying agency agreement dated 30 May 2024, as amended or supplemented from time to time (the "**Agency Agreement**"), between the Issuer, Société Générale Luxembourg as fiscal agent (the "**Fiscal Agent**", which expression includes any successor fiscal agent appointed from time to time in connection with the Notes) and the paying agents named therein (together with the Fiscal Agent, the "**Paying Agents**", which expression includes any successor or additional paying agents appointed from time to time in connection with the Notes).

(d) **The Notes**

All subsequent references in these Conditions to "**Notes**" are to the Notes which are the subject of the relevant Final Terms. Copies of the relevant Final Terms are available for inspection by Noteholders during normal business hours at the Specified Office of the Fiscal Agent, the initial Specified Office of which is set out below. Copies of Final Terms in relation to Notes to be listed on the Luxembourg Stock Exchange will also be published on the website of the Luxembourg Stock Exchange (<http://www.luxse.com/>).

(e) **Summaries**

Certain provisions of these Conditions are summaries of the Agency Agreement and are subject to its detailed provisions. The holders of the Notes (the "**Noteholders**") and the holders of the related interest coupons, if any (the "**Couponholders**" and the "**Coupons**", respectively) are bound by, and are deemed to have notice of, all the provisions of the Agency Agreement applicable to them. Copies of the Agency Agreement are available for inspection by Noteholders during normal business hours at the Specified Offices of each of the Paying Agents, the initial Specified Offices of which are set out below.

(b) **Interpretation**

In these Conditions:

- (i) if the Notes are Zero Coupon Notes, references to Coupons and Couponholders are not applicable;
- (ii) if Talons are specified in the relevant Final Terms as being attached to the Notes at the time of issue, references to Coupons shall be deemed to include references to Talons;
- (iii) if Talons are not specified in the relevant Final Terms as being attached to the Notes at the time of issue, references to Talons are not applicable;
- (iv) any reference to principal shall be deemed to include the Redemption Amount, any additional amounts in respect of principal which may be payable under Condition 11 (*Taxation*), any premium payable in respect of a Note and any other amount in the nature of principal payable pursuant to these Conditions;
- (v) any reference to interest shall be deemed to include any additional amounts in respect of interest which may be payable under Condition 11 (*Taxation*) and any other amount in the nature of interest payable pursuant to these Conditions;
- (vi) references to Notes being "**outstanding**" shall be construed in accordance with the Agency Agreement;
- (vii) if an expression is stated in Condition 2(a) (*Interpretation – Definitions*) to have the meaning given in the relevant Final Terms, but the relevant Final Terms give no such meaning or specify that such expression is "not applicable" then such expression is not applicable to the Notes; and
- (viii) any reference in these Conditions to any legislation (whether primary legislation or regulations or other subsidiary legislation made pursuant to primary legislation) shall be construed as a reference to such legislation as the same may have been, or may from time to time be, amended or re-enacted.

3. **Form, Denomination and Title**

The Notes are in bearer form in the Specified Denomination(s) with Coupons and, if specified in the relevant Final Terms, Talons attached at the time of issue. In the case of a Series of Notes with more than one Specified Denomination, Notes of one Specified Denomination will not be exchangeable for Notes of another Specified Denomination. Title to the Notes and the Coupons will pass by delivery. The holder of any Note or Coupon shall (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or any notice of any previous loss or theft thereof) and no Person shall be liable for so treating such holder. No person shall have any right to enforce any term or condition of any Note under the Contracts (Rights of Third Parties) Act 1999. Notes will be issued in such denominations as may be specified in the relevant Final Terms, subject to compliance with all applicable legal and/or regulatory and/or central bank requirements save that the minimum denomination of each Note will be €100,000 (or, where the Notes are denominated in a currency other than Euro, the equivalent amount in such other currency), or if higher such as may be allowed or required from time to time by the relevant authority or any laws or regulations applicable to the relevant Specified Currency.

4. **Status**

The Notes constitute direct, general and unconditional obligations of the Issuer which will at all times rank *pari passu* among themselves and at least *pari passu* with all other present and future unsecured obligations of the Issuer, save for such obligations as may be preferred by mandatory provisions of applicable law.

5. **Negative Pledge**

So long as any Note remains outstanding, the Issuer shall not, and the Issuer shall procure that no Material Subsidiary will, create or permit to subsist (other than by operation of law) any Security Interest upon the whole or any part of its present or future undertaking, assets or revenues to secure any Relevant Indebtedness without (a) at the same time or prior thereto securing the Notes equally and rateably therewith or (b) providing such other security for the Notes as may be approved by an Extraordinary Resolution of Noteholders **provided that** nothing in this Condition 5 (*Negative Pledge*) shall prevent (i) the Issuer or any Material Subsidiary from creating or permitting to subsist any Security Interest over any revenues or receivables which is created pursuant to any securitisation or like arrangement whereby in the event of a failure to repay amounts advanced in connection therewith or any interest thereon, the Person or Persons providing such finance are entitled to have recourse only to the revenues or receivables derived from the assets forming the subject of such securitisation or like arrangement and/or (ii) the Issuer from separating certain of its assets to designate them exclusively for the payment of debts incurred for a specific business and/or utilising revenues deriving from a specific business for the reimbursement of financings entered into to finance such business, in both cases pursuant to, and within the limits set forth in, Articles 2447-bis and following of the Italian Civil Code.

6. **Fixed Rate Note Provisions**

(a) ***Application***

This Condition 6 is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(b) ***Accrual of interest***

The Notes bear interest from (and including) the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 10 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (both before and after judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) ***Fixed Coupon Amount***

If the Notes are in definitive form, except as specified in the relevant Final Terms, the amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the relevant Final Terms, amount to the Broken Amount so specified.

(d) ***Calculation of interest amount***

Except in the case of Notes in definitive form where a Fixed Coupon Amount or Broken Amount is specified in the relevant Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (1) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Fixed Rate Notes represented by such Global Note; or
- (2) in the case of Fixed Rate Notes in definitive form, the Calculation Amount.

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with

applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

7. **Floating Rate Note Provisions**

(a) ***Application***

This Condition 7 is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(b) ***Accrual of interest***

The Notes bear interest from (and including) the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 10 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 7 (both before and after judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment). Unless otherwise specified in the applicable Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

(c) ***Screen Rate Determination***

If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, where:
 - (A) one rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next longer than the length of the relevant Interest Period;

provided, however, that if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate; and

- (iii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; **provided, however**, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

(d) **ISDA Determination**

If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions (provided that in any circumstances where under the ISDA Definitions the Calculation Agent would be required to exercise any discretion, including the selection of any reference banks and seeking quotations from reference banks, when calculating the relevant ISDA Rate, the relevant determination(s) which require the Calculation Agent to exercise its discretion shall instead be made by the Issuer or its designee) and under which:

- (i) If the Final Terms specify either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:

- (A) the Floating Rate Option is as specified in the relevant Final Terms;
- (B) the Designated Maturity, if applicable, is a period specified in the relevant Final Terms;
- (C) the relevant Reset Date, unless otherwise specified in the relevant Final Terms, has the meaning given to it in the ISDA Definitions;
- (D) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the rate for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:
 - (1) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (2) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period,

provided, however, that if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;

- (ii) references in the ISDA Definitions to:

- (A) "**Confirmation**" shall be references to the relevant Final Terms;

- (B) **"Calculation Period"** shall be references to the relevant Interest Period;
 - (C) **"Termination Date"** shall be references to the Maturity Date;
 - (D) **"Effective Date"** shall be references to the Interest Commencement Date; and
- (iii) if the Final Terms specify "2021 ISDA Definitions" as being applicable:
- (A) **"Benchmark Event"** shall be disapplied; and
 - (B) if the Temporary Non-Publication Fallback in respect of any specified Floating Rate Option is specified to be "Temporary Non-Publication Fallback – Alternative Rate" in the Floating Rate Matrix of the 2021 ISDA Definitions the reference to "Calculation Agent Alternative Rate Determination" in the definition of "Temporary Non-Publication Fallback – Alternative Rate" shall be replaced by "Temporary Non-Publication Fallback – Previous Day's Rate".
- (iv) Unless otherwise defined capitalised terms used in this Condition 7(d) shall have the meaning ascribed to them in the ISDA Definitions.
- (e) **Benchmark Replacement (Independent Adviser)**
- (i) If a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the Issuer shall use its reasonable endeavours to appoint as soon as reasonably practicable, at the Issuer's own expense, an Independent Adviser to determine as soon as reasonably practicable a Successor Rate, failing which an Alternative Rate (in accordance with Condition 7(e)(iii) below) and, in either case, an Adjustment Spread if any (in accordance with Condition 7(e)(iv)) and any Benchmark Amendments (in accordance with Condition 7(e)(v)).
- An Independent Adviser appointed pursuant to this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*) shall act in good faith and in a commercially reasonable manner as an expert and in consultation with the Issuer. In the absence of bad faith, wilful default, gross negligence or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents, the Noteholders or the Couponholders for any determination made by it or for any advice given to the Issuer in connection with any determination made by the Issuer, pursuant to this Condition (e) (*Benchmark Replacement (Independent Adviser)*).
- (ii) If the Issuer is unable to appoint an Independent Adviser or the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*) prior to the relevant Interest Determination Date, the Original Reference Rate applicable to the next succeeding Interest Period shall be equal to the Original Reference Rate last determined in relation to the Notes in respect of the preceding Interest Period (or if there has not been a first Interest Payment Date, the rate of interest shall be the Original Reference Rate that would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date). For the avoidance of doubt, this Condition 7(e)(ii) shall apply to the relevant Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*).
 - (iii) If the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines that:

- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 7(e)(iv)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part(s) thereof) for the relevant Interest Period and for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*)) in the event of a further Benchmark Event affecting the Successor Rate); or
 - (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7(e)(iv)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part(s) thereof) for the relevant Interest Period and for all future payments of interest on the Notes (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*)) in the event of a further Benchmark Event affecting the Alternative Rate).
- (iv) If the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines in its discretion (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be).
 - (v) If any relevant Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*) and the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines in its discretion (i) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, following consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s)), subject to giving notice thereof in accordance with Condition 7(e)(vi), without any requirement for the consent or approval of Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice (and, for the avoidance of doubt, the Fiscal Agent shall, at the direction and expense of the Issuer, consent to and effect such consequential amendments to the Agency Agreement required in order to give effect to this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*)).
 - (vi) Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*) will be notified promptly by the Issuer to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 18 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.
 - (vii) No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorised signatories of the Issuer:
 - (A) confirming (x) that a Benchmark Event has occurred, (y) the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate and, (z) where applicable, any relevant Adjustment Spread and/or the specific terms of any relevant Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 7(e) (*Benchmark Replacement (Independent Adviser)*); and

- (B) certifying that (1) the relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate, Alternative Rate and/or Adjustment Spread and (2) the intent of the drafting of such changes is solely to implement the relevant Benchmark Amendments.
- (viii) The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate and such Adjustment Spread (if any) and such Benchmark Amendments (if any)) be binding on the Issuer, the Fiscal Agent and Principal Paying Agent, the Calculation Agent, the other Paying Agents and the Noteholders.
- (ix) Without prejudice to Conditions 7(e) (i), (ii), (iii), (iv) and (v), the Original Reference Rate and the fallback provisions provided for in Condition 7(d) will continue to apply unless and until a Benchmark Event has occurred.

As used in Condition 7(e) (*Benchmark Replacement (Independent Adviser)*):

"Adjustment Spread" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (B) (if no such recommendation has been made, or in the case of an Alternative Rate), the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines is customarily applied to the relevant Successor Rate or Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or
- (C) (if no such recommendation has been made), the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or
- (D) (if the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines that no such industry standard is recognised or acknowledged) the Independent Adviser determines to be appropriate to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be).

"Alternative Rate" means an alternative benchmark or screen rate which the Independent Adviser, acting in a commercially reasonable manner and in good faith, determines in accordance with Condition 7(e)(iii) (*Floating Rate Note Provisions – Benchmark Replacement*) is in customary market usage in the international debt capital markets for the purposes of determining floating rates of interest (or the relevant component part thereof) for a commensurate period and in the Specified Currency.

"Benchmark Amendments" has the meaning given to it in Condition 7(e)(v) (*Floating Rate Note Provisions – Benchmark Replacement*).

"Benchmark Event" means:

- (A) the Original Reference Rate ceasing to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered; or
- (B) a public statement by the administrator of the Original Reference Rate that it has ceased such Original Reference Rate permanently or indefinitely or that it will, by a specified future date (the "**Specified Future Date**") cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or
- (C) a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate (i) has been or will, by a Specified Future Date, be permanently or indefinitely discontinued; or
- (D) a public statement by the supervisor of the administrator of the Original Reference Rate that such Original Reference Rate will, by a Specified Future Date, be prohibited from being used or that its use will be subject to restrictions or adverse consequences, either generally or in respect of the Notes; or
- (E) a public statement by the supervisor of the administrator of the Original Reference Rate (as applicable) that, in the view of such supervisor, (i) such Original Reference Rate is or will by a specified future date (the "**Specified Future Date**"), be no longer representative of an underlying market or (ii) the methodology to calculate the Original Reference Rate has materially changed; or
- (F) it has or will, by a specified date within the following six months, become unlawful for any Calculation Agent to calculate any payments due to be made to any Noteholder using the Original Reference Rate (as applicable) (including, without limitation, under the Benchmarks Regulation (EU) 2016/1011, if applicable).

Notwithstanding the sub-paragraphs above, where the relevant Benchmark Event is a public statement within sub-paragraph (B), (C), (D) or (E) above and the Specified Future Date in the public statement is more than six months after the date of that public statement, the Benchmark Event shall not be deemed to occur until the date falling six months prior to such Specified Future Date.

"Independent Adviser" means an independent financial institution of international repute or an independent financial adviser with appropriate expertise in the international capital markets appointed by the Issuer at its own expense.

"Original Reference Rate" means the originally-specified benchmark or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes.

"Relevant Nominating Body" means, in respect of a benchmark or screen rate (as applicable):

- (A) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (1) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (2) any central bank or other supervisory authority which is responsible for supervising

the administrator of the benchmark or screen rate (as applicable), (3) a group of the aforementioned central banks or other supervisory authorities or (4) the Financial Stability Board or any part thereof.

"Successor Rate" means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

(f) ***Maximum or Minimum Rate of Interest***

If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(g) ***Calculation of Interest Amount***

The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest to:

- (1) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Notes represented by such Global Note; or
- (2) in the case of Floating Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

(h) ***Calculation of other amounts***

If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.

(i) ***Publication***

The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.

(j) ***Notifications etc.***

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 7

(Floating Rate Note Provisions) by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

8. **Zero Coupon Note Provisions**

(a) ***Application***

This Condition 8 (*Zero Coupon Note Provisions*) is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.

(b) ***Late payment on Zero Coupon Notes***

If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

9. **Redemption and Purchase**

(a) ***Scheduled redemption***

Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at their Final Redemption Amount on the Maturity Date, subject as provided in Condition 10 (*Payments*).

(b) ***Redemption for tax reasons***

The Notes may be redeemed at the option of the Issuer in whole, but not in part:

- (i) at any time (if the Floating Rate Note Provisions are not specified in the relevant Final Terms as being applicable); or
- (ii) on any Interest Payment Date (if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 30 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), together with interest accrued (if any) to the date fixed for redemption, if:

- (1) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 11 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of the Republic of Italy, or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations where such change or amendment becomes effective on or after the date of issue of the first Tranche of the Notes; and
- (2) such obligation cannot be avoided by the Issuer taking reasonable measures available to it;

provided, however, that no such notice of redemption shall be given earlier than:

- (1) where the Notes may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes was then due; or
- (2) where the Notes may be redeemed only on an Interest Payment Date, 60 days prior to the Interest Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes was then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent: (1) a certificate signed by any authorised director of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and (2) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment. Upon the expiry of any such notice as is referred to in this Condition 9(b) (*Redemption for tax reasons*), the Issuer shall be bound to redeem the Notes in accordance with this Condition 9(b) (*Redemption for tax reasons*).

(c) ***Redemption at the option of the Issuer***

- (i) ***Issuer Call***: If the Call Option (as defined herein) is specified in the relevant Final Terms as being applicable, the then outstanding Notes may be redeemed at the option (the "**Call Option**") of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer's giving not less than 15 nor more than 30 days' notice to the Noteholders, or such other period(s) as may be specified in the relevant Final Terms, (which notice shall be irrevocable and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to (but excluding) such date).
- (ii) ***Make-Whole Issuer Call***: If the Make-Whole Issuer Call (as defined herein) is specified in the relevant Final Terms as being applicable, the Issuer may, at its option (the "**Make-Whole Issuer Call**"), redeem at any time in whole or, if so specified in the relevant Final Terms, in part the Notes then outstanding at an amount equal to the Make-Whole Amount, having given not less than 25 days nor more than 60 days prior notice to the Noteholders in accordance with Condition 18 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption, (such date the "**Make-Whole Optional Redemption Date**")).

In this Condition 9(c)(ii) (*Make-Whole Issuer Call*):

"Make-Whole Amount" means an amount calculated by the Calculation Agent equal to the higher of:

- a) 100 per cent. of the principal amount of the Note to be redeemed; or

(d) ***Clean-Up Call Option:***

If the Clean-up Call Option (defined herein) is specified in the relevant Final Terms as being applicable, in the event that at least 80 per cent. of the initial aggregate principal amount of the Notes has been purchased and cancelled by the Issuer, the Issuer may, at its option (the **"Clean-Up Call Option"**) but subject to having given not less than fifteen (15) nor more than thirty (30) days' notice to the Noteholders, redeem all, but not some only, of the outstanding Notes; *provided that* the Notes in that Series that are no longer outstanding have not been redeemed by the Issuer pursuant to Condition 9(c)(ii) (*Redemption and Purchase – Redemption at the option of the Issuer – Make-Whole Issuer Call*). Any such redemption of Notes shall be at their principal amount together with interest accrued to (but excluding) the date fixed for redemption.

The Paying Agent with which a Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Noteholder. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 9(g) (*Redemption at the option of Noteholders*), may be withdrawn; **provided, however, that** if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption monies is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Put Option Notice and shall hold such Note at its Specified Office for collection by the depositing Noteholder against surrender of the relevant Put Option Receipt. For so long as any outstanding Note is held by a Paying Agent in accordance with this Condition 9(g) (*Redemption at the option of Noteholders*), the depositor of such Note and not such Paying Agent shall be deemed to be the holder of such Note for all purposes.

(h) **No other redemption**

- (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the "**Relevant Coupons**") being equal to the amount of principal due for payment; **provided, however, that** where this sub-

Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Noteholders. In addition to the above publications, with respect to notices for a meeting of Noteholders, any convening notice for such meeting shall be made in accordance with the relevant provisions of the Italian Civil Code, the Financial Services Act and Leonardo's by-laws.

19. Currency Indemnity

If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of: (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

(c) **Appropriate forum**

The Issuer irrevocably waives any objection that it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.

(d) **Process agent**

The Issuer agrees that the process by which any Proceedings in England are begun may be served on it by being delivered to it at Leonardo UK Ltd at One Eagle Place, London, SW1Y 6AF, or, if different, its registered office for the time being or at any address of the Issuer in Great Britain at which process may be served on it in accordance with the Companies Act 2006. If such Person is not or ceases to be effectively appointed to accept service of process on behalf of the Issuer, the Issuer shall, on the written demand of any Noteholder addressed to it and delivered to it or to the Specified Office of the Fiscal Agent, appoint a further person in England to accept service of process on its behalf and, failing such appointment within 30 days from receipt of notice, any Noteholder shall be entitled to appoint such a Person by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent **provided that** there shall never be more than one process agent appointed at any one time. Nothing in this paragraph (d) shall affect the right of any Noteholder to serve process in any other manner permitted by law.

(e) **Rights of the Noteholders to take proceedings in Italy**

Notwithstanding Condition 21(b) (*Jurisdiction*), the submission to the jurisdiction of the courts of England shall not (and shall not be construed so as to) limit the right of any Noteholder to take Proceedings, as an alternative to the jurisdiction of the courts of England, before any competent courts in the Republic of Italy. This clause is for the benefit of the Noteholders only.

(f) **Consent to enforcement etc.**

To the extent permitted by applicable law, the Issuer consents generally in respect of any Proceedings to the giving of any relief or the issue of any process in connection with such Proceedings including (without limitation) the making, enforcement or execution against

OVERVIEW OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

Each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Terms and Conditions of the Notes to "Noteholder" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depository or a common depository, in the case of a CGN, or a common safekeeper, in the case of an NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depository or common depository or, as the case may be, common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each, an "**Accountholder**") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of the Global Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of an NGN, effectuated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (London time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or

- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (London time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under a deed of covenant dated 30 May 2024 (the "**Deed of Covenant**") executed by the Issuer). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Conditions applicable to Global Notes

Each Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note. The following is an overview of certain of those provisions:

Payments: All payments in respect of the Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that in respect of a CGN the payment is noted in a schedule thereto and in respect of an NGN the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

Calculation of interest: the calculation of any interest amount in respect of any Note which is represented by a Global Note will be calculated on the aggregate outstanding principal amount of the Notes represented by such Global Note, as the case may be, and not by reference to the Calculation Amount.

Exercise of put option: In order to exercise the option contained in Condition 9(g) (*Redemption and Purchase – Redemption at the option of Noteholders*) the bearer of the Permanent Global Note must, within the period specified in the Conditions for the deposit of the relevant Note and put notice (in accordance with the rules and procedures of Euroclear, Clearstream, Luxembourg and/or other relevant clearing system), give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 9(c) (*Redemption at the option of the Issuer*) in relation to some only of the Notes, the Permanent Global Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

Notices: Notwithstanding Condition 18 (*Notices*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are) deposited with a depository or a common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders for the purposes of Condition 18 (*Notices*) on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, except that, for so long as such Notes are admitted to trading on the Luxembourg Stock Exchange and it is a requirement of applicable law or regulations, such notices shall be published in a leading newspaper having general circulation in Luxembourg (which is expected to be *Luxemburger Wort*) or published on the website of the Luxembourg Stock Exchange (<http://www.luxse.com/>).

Payment Business Day: Notwithstanding the definition of "Payment Business Day" in Condition 2(a) (*Interpretation – Definitions*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are) deposited with a depository or a common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, "*Payment Business Day*" means:

- (a) if the currency of payment is euro, any day which is a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Financial Centre; or
- (b) if the currency of payment is not euro, any day which is, in the case of payment by transfer to an account, a day on which dealings in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Financial Centre.

HISTORY OF THE LEONARDO GROUP

The history of the current Leonardo began in 1948 with the incorporation by IRI (*Istituto per la Ricostruzione Industriale*, a holding company for Italian state-owned companies) of Società Finanziaria Meccanica – Finmeccanica Società per azioni, as the holding company for the Italian government’s automotive, mechanical, electro-mechanical and shipyard industrial activities. In 1987 the activities of Società Finanziaria Meccanica – Finmeccanica Società per azioni were transferred to a new company named Finmeccanica – Società Finanziaria per azioni, incorporated on 21 May 1987. By the late 1980s, the company’s range of activities included aerospace, automated factories, command and control systems, missile systems, biomedical apparatus, robotics, microelectronic components, alongside its original areas of activity. In 1992, Finmeccanica – Società Finanziaria per azioni was merged into Società Immobiliare e Finanziaria per Azioni or SIFA, a company created in 1897 which then changed its name to Finmeccanica – Società per azioni and was listed on the Italian Stock Exchange (now, Euronext Milan). In 2000, IRI sold over 50 per cent of its ordinary shares in an initial public offering.

In 2016 Finmeccanica adopted a "One Company" model. Consistent with the implementation of the new organisational and operational model of the One Company and the simultaneous replacement of the previous financial holding company model, in April 2016 Finmeccanica – Società per azioni changed its name to Leonardo – Società per azioni but the new name became legally effective on 1 January 2017. On 1 January 2016, the aforementioned organizational and operating model of the Group became legally effective. The new integrated management structure involved the concentration in Leonardo of the corporate sectors, turning the operating subsidiaries into divisions of the One Company. The Group is now structured into five divisions (Helicopters, Aircraft, Aerostructures, Electronics and Cyber Security), which have been provided with powers and resources to ensure a complete end-to-end management of the related scope of business, with consequent full responsibility of the relevant income statement. On 1 February 2019, the new Electronics division and Cyber Security division became effective. According to the Group's One Company model, Leonardo's divisions maintain full responsibility for their own economic results and business, including their own respective budgets and strategies. In January 2019, the acquisition of 100% of Vitrociset S.p.A. became effective and, in September 2021, the Leonardo's Board of Directors approved the merger by way of incorporation of Vitrociset S.p.A. into the Issuer.

In April 2020, Leonardo completed the acquisition of Kopter Group AG (Kopter) from Lynwood (Schweiz). The transaction allows Leonardo to further strengthen its worldwide leadership and position in the rotorcraft sector, in line with the Industrial Plan's objectives for the reinforcement of the core businesses.

In January 2022, Leonardo completed the acquisition from Square Lux Holding II S.à r.l., a portfolio company controlled by funds advised by Kohlberg Kravis & Roberts & Co. L.P, of 25.1% of the shares in Hensoldt AG ("**Hensoldt**"), a leading German player in the field of sensors for defence and security applications. This transaction was a step forward in helping to achieve Leonardo's strategic objective of acquiring a leadership position in the European Defence Electronics market and reflects Leonardo's determination to play an active role in the consolidation process underway, including in the light of future cooperation programmes in Europe. In December 2023, Leonardo disclosed that it had not underwritten the capital increase announced by Hensoldt as part of the acquisition of the German company ESG Elektroniksystem und Logistik GmbH, although it was fully supportive of its strategic rationale. Following this decision, Leonardo's equity investment in Hensoldt slightly decreased from 25.1% to 22.8% but Leonardo maintained its role as reference industrial investor of Hensoldt with the purpose of pursuing a European partnership in accordance with the prerogatives of each country.

In November 2022 Leonardo announced the completion of the merger between the US subsidiary Leonardo DRS, Inc. ("**Leonardo DRS**") and the Israeli company RADA Electronic Industries Ltd. ("**RADA**"), listed on NASDAQ and the Tel Aviv Stock Exchange ("**TASE**"). As a result of this transaction, Leonardo retained – through Leonardo US Holding LLC ("**Leonardo US Holding**") – full ownership of a quota of 80.2% in Leonardo DRS, with the former shareholders of RADA

owning the remaining stock. RADA's products constitute a strategic expansion of DRS and the Leonardo Group's portfolio, by completing the offering of sensors on board land vehicles and have different functional and configuration features from the radars that are currently in the portfolio of the Electronics division of Leonardo and of Hensoldt, thus making them complementary in an integrated perspective. This transaction also enables Leonardo to establish a concrete footprint in Israel, in line with its objective of international expansion. The shares of Leonardo DRS were listed on NASDAQ and the TASE with the symbol "DRS" as from the start of trading operations on NASDAQ on 29 November 2022 and on the TASE on 30 November 2022. In September 2023, Leonardo DRS Inc. voluntarily withdrew its ordinary shares from TASE. This transaction did not affect Leonardo DRS listing on NASDAQ under the DRS symbol and all the ordinary shares traded on the TASE were transferred to NASDAQ. Furthermore, this transaction had no impact on the commitment of Leonardo and Leonardo DRS to the Israeli market or any transaction in the country. In November 2023, Leonardo finalized, through Leonardo US Holding, the sale on the US market of a parcel of shares in Leonardo DRS which represent approximately 7.9% of the ordinary shares issued by Leonardo DRS at the date of the transaction. As a result of this transaction, Leonardo retained – through Leonardo US Holding – full ownership of a quota of 72.3% in Leonardo DRS. For further information, see “*Defence Electronics & Security – Leonardo DRS*” below.

LEONARDO INDUSTRIAL PLAN – TECHNOLOGIES FOR A SAFER FUTURE

The Aerospace, Defence and Security (AD&S) sector is undergoing a deep transformation and is facing an increasingly challenging competitive scenario in terms of industrial structures and technological disruptions. In a context that continues to experience epochal changes, with a significant increase in conflicts and global crises, Countries are confronted with three major challenges with radical impacts on the Defence sector:

1. **more and more bullets and an avalanche of bytes** – warfare is changing, exploiting a combination of traditional and new systems and digital technologies, satellite applications, and drones capable of neutralizing targets valued many orders of magnitude higher;
2. **from conventional Defence to the broader concept of “global security”** – globalization as an element of fragility, regional wars bringing massive repercussions on global security (energy, food, cyber, and infrastructure security) exacerbating the need for global awareness based on secure data orchestration;
3. **security as a continental problem rather than national** – no single European Country can make it on its own and the fragmented expenditure on defence makes Europe even weaker. The pace of tech advancement and sudden shifts in the global geopolitical balance call for increased and optimized investments and standardization / synergy.

On this basis, Leonardo's ambition and positioning are ready to evolve, adapting the strategic vision to ongoing global changes.

In March 2024, Leonardo's Board of Directors approved the 2024-2028 industrial plan (the “**Industrial Plan**”). Over the Industrial Plan horizon, Leonardo aims to transform itself leaning towards a two-fold strategic posture:

- **strengthening the core business** by sharpening strategic selectivity, via business/product portfolio optimization and a renewed approach to innovation driven by focused R&D and massive digitalization, meanwhile as aiming to be a catalyst for European Defence consolidation, steering international alliances and strategic partnerships;
- **paving the way to the future** by investing in **emerging markets**, such as cyber and space domains and by focalizing its portfolio of solutions towards a more efficient capital allocation.

This new posture will drive Leonardo in its transformation, with the aim of being:

- in the **Electronics** sector- global player with European leadership and catalyst for European cooperation, leveraging GCAP spillovers, alliances/JV (land and naval Defense systems), and a rationalized portfolio, with a distinctive US presence;

- in the **Helicopters** sector - global civil leader and military key player, upgrading the portfolio, pioneering new technologies, and exploring strategic partnerships;
- in the **Aircraft** sector - leading player in cooperative programs (next generation combat aircraft and UAV), with evolved proprietary products and boosted training services;
- in the **Aerostructures** sector - profitable supplier thanks to operational excellence and market recovery, further scaling up via diversification and strategic partnerships;
- in the **Cyber Security** sector - European key player in cyber security, Secure Digital Platforms and Mission Critical Communications, with a technology-based value proposition, focused on Defence, Space and National Strategic Organizations;
- in the **Space** sector - European leader on high-value segments, leveraging Group-wide and space alliance capabilities, with an active role on a potential European consolidation.

To deliver on this vision, Leonardo is setting its path on three horizons to boost inertial baseline, mapping an arsenal of initiatives to achieve the full potential of the plan:

- guaranteeing an organic revenue growth and innovation potential with focused R&D and technological efforts, a massive digitization of solutions and operations, and a stronger emphasis on client-centricity and service excellence;
- boosting a company-wide efficiency through product and business rationalization/focalization, while optimizing engineering and manufacturing and reducing group-wide procurement and Corporate costs;
- complementing growth with inorganic initiatives / M&A, steering international alliances to achieve technological relevance in emerging techs and markets.

SUSTAINABILITY PLAN

Guided by the Sustainable Development Goals (“**SDGs**”) of the United Nations 2030 Agenda and by the integration of environmental, social and governance (“**ESG**”) dimensions into business, the sustainability goals defined by Leonardo – covering the fields of Governance, People, Planet, Prosperity with specific targets and related monitoring KPIs for each area – underpin long-term growth and demonstrate the Company’s commitment to its stakeholders with regards to ESG issues.

During 2023, work continued on its path to decarbonisation by submitting its direct and indirect CO₂ emission reduction targets to the Science Based Targets initiative, in line with the commitment made in 2022. The achievement of the goals to 2023 in the Prosperity and Governance areas, related to the certification of anti-corruption management processes and sustainable supply chain training and development, under the programmes of dialogue and collaboration with the main suppliers carried out for years by the Group, pushed Leonardo to set new and more ambitious goals on training for key suppliers on sustainability issues, integration of ESG requirements in the selection criteria of suppliers, certification of anti-corruption management processes and employee training on trade compliance and human rights.

Moreover, with the aim of further reinforcing its decarbonisation objectives and in line with the Industrial Plan, Leonardo set new and challenging emission reduction targets, which have been approved by the Science Base Targets initiative ("SBTI"):

- abating 53% of direct and indirect emissions (Scope 1 e 2 market based) due to the Company's operations and energy consumption by 2030 (vs 2020)⁴;

⁴ Update of an existing target. Previous target set emissions reduction at 50% by 2030 (vs 2020).

- 58% of suppliers by emission will be engaged to develop and commit to a science-based decarbonization target by 2028; and
- abating 52% of CO2e emissions/flight hour equivalent by 2030 (vs 2020).

In particular, SBTi has classified Leonardo's Scope 1 and 2 target as being adequate to keep global warming within the 1.5°C threshold.

With the validation of Leonardo's new targets by SBTi, the Group's decarbonisation actions will be further strengthened and will affect the entire value chain, from supply chain to products. The new targets aim to reduce Scope 3 upstream and downstream emissions by collaborating with suppliers and abating Leonardo's customers carbon footprint due to the use of products.

Leonardo DRS

Leonardo DRS, a U.S. based subsidiary, under a proxy regime, is a leading supplier of integrated products, services and support to military forces, intelligence agencies and prime defence contractors worldwide. Leonardo DRS, considering its knowhow and capabilities, is a market leader in thermal devices, power systems and marine propulsion, tactical communication solutions, electronic sensor systems and support services and integrated logistics¹⁰. Leonardo DRS product range is aimed at meeting customer needs in the aeronautical, land and naval sectors. Leonardo DRS has a highly qualified workforce operating from various facilities in the United States and Canada, in addition to those used in the support of customers around the world.

During the last few years Leonardo DRS has undertaken a path of focusing on its core business, also through the following industrial operations:

- in 2021 Leonardo DRS acquired Ascendant Engineering Solutions (AES), one of the world’s most advanced gimbal producers and during the first quarter 2022 has signed a definitive agreement to sell its Global Enterprise Solutions (GES) business to SES S.A.;
- on 22 March 2022 Leonardo DRS signed a binding agreement to sell its Global Enterprise Solutions (GES) business to SES S.A. GES is the largest provider of commercial satellite communications for the US government and offers mission-critical communications and global-class security solutions. The closing of the transaction occurred on 1 August 2022;
- on 26 April 2022 Leonardo DRS signed an agreement to sell its investment in the Advanced Acoustic Concepts (AAC) Joint Venture to TDSI, a subsidiary of the French company Thales, thus marking a further step in the process of refocusing DRS' business portfolio. The US company AAC is active in the sector of advanced sonar, training and knowledge management systems. The company works with the US Navy as a contractor in the US sector, providing innovative systems and solutions in the underwater sensor domain. The closing of the transaction occurred on 27 July 2022; and
- on 29 November 2022 Leonardo announced the completion of the merger between Leonardo DRS and RADA. Leonardo continues to hold an 80.5% stake (fully diluted) in Leonardo DRS, through the US subsidiary Leonardo US Holding, while the remaining 19.5% is in the hands of the present shareholders of RADA. The shares of Leonardo DRS were

listed on NASDAQ and the TASE with the symbol "DRS" as from the start of trading operations on NASDAQ on 29 November 2022 and on the TASE on 30 November 2022;

- on 27 September 2023, Leonardo DRS announced and then voluntarily withdrew its ordinary shares from the TASE. Under Israeli law, this transaction took effect three months after the company's request. During the transitory period, the ordinary shares of Leonardo DRS continued to be traded on the TASE. This transaction did not affect Leonardo DRS listing on NASDAQ under the Leonardo DRS symbol and all the ordinary shares traded on the TASE were transferred to NASDAQ. Furthermore, this transaction had no impact on the commitment of Leonardo and Leonardo DRS to the Israeli market or any transaction in the country. The Company continued to file public reports and to public information in compliance with the regulations of the US Securities and Exchange Commission and NASDAQ;
- on 21 November 2023, Leonardo finalised, through the subholding Leonardo US Holding, the sale on the US market of a parcel of shares in Leonardo DRS. As a result of this transaction, Leonardo retained – through Leonardo US Holding – full ownership of a quota of 80.2% in Leonardo DRS, with the former shareholders of RADA owning the remaining stock. From the closing of the merger with RADA up to the launch date of the secondary offering in the USA, the DRS share price recorded significant growth. Against this backdrop, on 15 November 2023 Leonardo announced the launch of secondary offering in the United States by Leonardo US Holding of a minority stake of 16,500,000 (6.3%) of common stock of Leonardo DRS, granting the underwriters a 30-day option to purchase up to an additional 2,475,000 shares (equal to 15% of the offered shares). The transaction was completed on 22 November 2023 with the sale of 20,700,000 ordinary shares of Leonardo DRS, at a price of USD 17.75 per share. The amount of the shares sold includes the sale of 18,000,000 ordinary shares (increased vis-à-vis the initial offering) and of an additional 2,700,000 shares (equal to 15% of the above-mentioned 18,000,000 shares) subject to the exercise in full by the underwriter banks of their option to purchase the shares. The shares sold, which represent approximately 7.9% of the ordinary shares issued by Leonardo DRS at the date of the transaction, brought Leonardo US Holding proceeds equal to about 352 M\$, after transaction costs. The proceeds from such transaction enable Leonardo to increase its financial flexibility for investments and acquisitions and to maintain at the same time a solid financial structure and a significant industrial and commercial footprint in the US Defense business.

Aerostructures division

The Leonardo Aerostructures division is a valued partner of major civil aircraft programmes in Europe and in the US and is one of the top global players in the aerostructures market in terms

¹² The maintenance of the program is currently under assessment.

of revenues and leader in fabrication and assembly of fuselages and empennages considering the relevance of programs in which it is involved¹³.

From the ATR 42 and ATR 72 series (ATR Family) - the market leader for the regional turboprop for numbers of aircraft sold worldwide¹⁴ -, to the Boeing 787 "Dreamliner" - the first program in commercial aviation history with majority of primary structure made of composite materials CFRP (Carbon Fiber Reinforced Plastic) -, and finally the Airbus A220 - one of the best selling aircraft in the single aisle segment -, the Aerostructures division brings the ability to design, build, test and integrate large structural components in composite and traditional material to support any aeronautic programme.

The advanced automated technology of large structural components in composite materials represents a competitive advantage of the Aerostructures division for large co-cured structures, for example as partner in the Boeing 787 program with a key role in development, design and manufacturing of this program innovative structures: center fuselage sections 44 & 46 and horizontal stabilizer. For ATR family, including brand new versions ATR 72-600F and ATR 42-600S, Leonardo Aerostructures division is responsible for fuselage (metallic structures) and empennages (integrated CFRP structures) including systems and testing integration of each component. Leonardo Aerostructures division is also involved, since its beginning in 1978, in the Boeing 767 Program; its responsibility includes certification, industrialization and fabrication/assembly of all movable parts of the wings (ailerons, slats, spoilers), the wing tip and the empennages (vertical fin, rudder, elevators). Leonardo Aerostructures division was involved in the co-development of the A321 fuselage section 14A, including design responsibility since 1991, then introducing with the A321 the concept of determinate assembly and automated riveting. The structural components of section 14A are in light alloy almost entirely produced and assembled in Nola plant.

Leonardo Aerostructures division also supplies the A220 Vertical and Horizontal Tails with responsibility for design, development, testing, qualification, certification, production and in service support.

Strategy

In the Aerostructures sector, Leonardo intends to:

- confirm breakeven by 2025, thanks to market recovery and operational excellence by (i) capturing new orders deriving from the recent OEMs' strategy to mitigate geo-political/industrial risks and (ii) exploiting investments in digital/automation carried out during Covid-19 to (NEMESI program) to (i) shorten production time cycle, (ii) reduce inefficiencies, and (iii) increase production flexibility; and
- scale-up to achieve strategic relevance in the medium-term, via a diversified portfolio and partnerships by (i) diversifying current product portfolio by entering in selected high-potential segments such as EuroDrone, supersonic aviation, AAM and (ii) evaluating potential industrial partnerships to increase production scale while ensuring long-term stable order acquisition.

Space

Overview

Leonardo operates in this sector mainly through the Space Alliance with Thales, which comprises two joint ventures, respectively dedicated to:

- *Space services – Telespazio*, in which Leonardo holds 67 per cent and Thales 33 per cent, headquartered in Rome (Italy) and operating worldwide through its many

subsidiaries and joint ventures (in France, Germany, the United Kingdom, Spain, Romania, Brazil and Argentina), also relying on an international network of space centres and teleports; and

- *Space systems manufacturing – Thales Alenia Space*, in which Leonardo holds 33 per cent and Thales 67 per cent, headquartered in France and relying on several industrial facilities in Italy, Spain and Germany.

Leonardo also operates in the space propulsion and satellite launcher segment, through AVIO S.p.A., in which Leonardo holds approximately a 30 per cent equity interest, and performs certain of its activities within this area of business through the Airborne & Space Systems sector.

Space Services

Telespazio's activities cover: (i) Satellite Communications (provision of telecommunications networks, multimedia and services); (ii) Satellite Systems and Applications (ground segment systems engineering, integrated space solutions and applications and engineering services); (iii) Satellites Operations (satellite control, space systems mission control and ground stations operations); and (iv) Geo-Information (earth observation applications and related services).

Telespazio has a key role in the development of the Galileo European programme, the largest independent satellite-based navigation system for a wide range of applications (transports, telecommunications, security etc.), as it has been tasked with creating one of the mission and constellation management control centres at its Fucino premises. Currently Telespazio, through Spaceopal, a dedicated joint venture established with DLR, operates the Galileo system, and owns one of the two Control Centres located in Italy (Fucino). Telespazio is also a leading player in EGNOS operations in partnership with ESSP.

Within the earth observation domain, Telespazio plays a unique role in the COSMO-SkyMed programme (Constellation of small Satellites for Mediterranean basin Observation), both for civilian and military applications. Commissioned and funded by the Italian Space Agency (ASI) and the Italian Ministry of Defense (MoD), the programme aims at exploiting the advanced remote sensing of the constellation of four SAR (Synthetic Aperture Radar) satellites, for applications in different domains (risk management, scientific, commercial, security, defence and intelligence). The system was fully deployed in 2010 and managed by Telespazio, Thales Alenia Space, as prime contractor, is responsible for the development of the entire constellation and for the future development of the second generation.

Telespazio's experience is also drawn from its involvement in major space programmes, including EGNOS, Copernicus, SICRAL and ATHENA-FIDUS.

Space systems manufacturing

Thales Alenia Space, through its network of subsidiaries, focuses on design, integration, testing, operation and commissioning of innovative space systems, such as satellites for telecommunications, science and exploration and remote sensing, as well as orbiting infrastructures – the International Space Station (ISS) – and logistic transport modules. Product applications range from telecommunications to environment monitoring, from defence and security to exploration and scientific research.

The company co-operates with the main international space industries and with the European space agency (ESA) as one of the major suppliers, the French space agency (CNES), the Italian space agency (ASI), as well as the Italian, French and German Ministry of Defence. Moreover, Thales Alenia Space exports Koreasat 5 and Koreasat 6 satellites to South Korea, Star One to Brazil and Yahsat to the United Arab Emirates.

The company is also a leading industrial player, often together with Telespazio, in several programmes, such as Copernicus (formerly known as GMES / Global Monitoring for Environment and Security), where Thales Alenia Space is responsible for the Sentinel-1 and Sentinel-3 satellites missions and Telespazio for the ground segment applications; EGNOS and GALILEO, as mentioned, where Thales Alenia Space is the responsible for the design, integration and testing of satellites; Syracuse and SICRAL I & II, also together with Telespazio, for secure military

communications system; and COSMO-SkyMed. The company is also a leading industrial player in defence and security (Syracuse, SICRAL 1 and 2). Also worth mentioning is the contribution to scientific programmes such as Mars Express, Cassini-Huygens (a NASA/ESA/ASI programme) and Rosetta.

Thales Alenia Space has in fact provided more than half of the pressurized volume of the ISS, including Nodes 2 and 3, the MPLM (Multipurpose Pressurized Logistics Modules) logistics pressurized modules, the Dome and the structure of the Columbus laboratory, as well as the Integrated Cargo Carrier (ICC) for the ATV carrying supplies to the ISS. It also carries the pressurized cargo module (PCM) for the shuttle fueling Cygnus and it is prime contractor for the demonstrators to return IXV and Expert on behalf of ESA. Thales Alenia Space is also a leader in European and international scientific programmes, with a key role in missions such as Herschel & Planck, ExoMars, Euclid and BepiColombo.

Strategy

Leonardo aims to be an **European leader on high-value segments**, leveraging **Group-wide and Space Alliance** capabilities, with an active role on a potential European consolidation:

- establishing the Space Division¹⁵ through the re-organization of the Group space activities and the consolidation of Telespazio;
- consolidating leadership in European institutional segment, and expand the business in Defense and commercial segments by (i) consolidating as National/EU Mission & Satellite Operator and Ground segment provider, (ii) consolidating end-to-end integrated space-as-service offer for Earth Observation data and infrastructures, (iii) reinforcing Geo Observation data & Geo Intelligence for global data and downstream service and (iv) expanding footprint in exploration and logistics markets;
- embedding cyber security into space applications providing secure communications for upcoming broadband constellations;
- accelerating growth with inorganic levers to acquire distinctive capabilities/assets and secure access to new geographies.

LITIGATION

Judicial investigations and criminal proceedings

Leonardo, certain companies of the Group and certain former/current directors, managers and employees of the Leonardo Group have been involved in certain judicial investigations and criminal proceedings as a suspect or as a defendant or – with reference to the companies – as the person liable for any civil action filed by the victim of crime for damages suffered as a result of the alleged conduct of former officers or employees of the Leonardo Group. With respect to pending criminal proceedings against individuals, certain companies of the Group have filed a civil action in certain criminal proceedings in order to claim for damages suffered as a result of the alleged conduct of their former managers, officers and employees.

For information related to the criminal proceedings that are currently underway against Group companies or Leonardo itself, as well as certain former directors and executives, concerning acts committed during the performance of their duties at Group companies or at Leonardo itself, where the companies are involved as suspect or defendant or – with reference to the companies – civilly liable, see section No. 22 of the explanatory notes headed "Provisions for Risks and Charges and Contingent Liabilities" of the Leonardo audited integrated annual financial statements for the year ended on 31 December 2022 and No. 22 of the explanatory notes headed "Provisions for Risks and Charges and Contingent Liabilities" of the Leonardo audited integrated annual report for the year ended on 31 December 2023 and the paragraph headed "*Contingent liabilities*" of the section

of the interim results of Leonardo at 31 March 2024 entitled “*Explanatory notes*”, both incorporated by reference into this Base Prospectus.

Any negative developments - which cannot be foreseen, nor determined to date - arising from any internal investigations or judicial investigations being conducted, will be subject to ongoing assessment for the purposes of provisions (if any).

Civil, administrative and tax proceedings

The Leonardo Group operates in industries and markets where many disputes, both as petitioner and plaintiff, are settled only after a considerable period of time, especially in cases where the customer is a government entity. Pursuant to the IFRSs, provisions have only been set aside for risks that are deemed probable and for which the amount can be determined. No specific provisions have been set aside for certain disputes in which the Group is defendant as these disputes are reasonably expected to be settled, based on current knowledge, satisfactorily and without significantly impacting the Group. Of particular note are the proceedings described under section No. 22 of the explanatory notes headed “*Provisions for Risks and Charges and Contingent Liabilities*” of the Leonardo audited integrated annual report for the year ended on 31 December 2023 and the paragraph headed “*Contingent liabilities*” of the section of the interim results of Leonardo at 31 March 2024 entitled “*Explanatory notes*”, both incorporated by reference into this Base Prospectus.

Disputes on existing contracts

Moreover, given the nature of the Group's customers as well as the complexity and the cutting-edge technological content of the contracts entered into by the companies belonging to the Group, the Group's long-term contracts are sometimes affected by disputes with customers in relation to compliance of works with customers' requests and product performance. The Group adjusts the estimated contract costs for foreseeable issues, including taking into account the possible developments in the relevant disputes. For information related to the most significant existing contracts affected by uncertainties and issues under discussion with customers, see section No. 22 of the explanatory notes headed “*Provisions for Risks and Charges and Contingent Liabilities*” of the Leonardo audited integrated annual report for the year ended on 31 December 2023 and the paragraph headed “*Contingent liabilities*” of the section of the interim results of Leonardo at 31 March 2024 entitled “*Explanatory notes*”, both incorporated by reference into this Base Prospectus.

CORPORATE GOVERNANCE

Corporate governance rules for listed Italian companies, such as Leonardo whose shares are listed on the Italian Stock Exchange, are provided in the Italian Civil Code, in the Consolidated Law on Financial Intermediation (Legislative Decree No. 58/1998, hereinafter “**CLFI**”), in the CONSOB Regulation (mainly Regulation No. 11971 of 14 May 1999, as amended from time to time), and in the voluntary code of corporate governance issued by the Italian Corporate Governance Committee (set up by issuers and investors associations, as well as Borsa Italiana S.p.A.), as published in January 2020¹⁶ (the “**Corporate Governance Code**”), to which Leonardo adheres.

Leonardo has adopted the Italian traditional system of corporate governance, based on an organisational model involving a shareholders' meeting, a board of directors, a board of statutory auditors and independent auditors.

Pursuant to its by-laws, the management of Leonardo is entrusted to a collegial body made up of no fewer than eight and no more than twelve members (including the independent directors in accordance with applicable laws and regulations) appointed by the shareholders' meeting (collectively the “**Board of Directors**”, each a “**Director**”).

¹⁶ On 31 January 2020, the Italian Corporate Governance Committee has issued a new Corporate Governance Code entered into force from the financial year 2021. Issuers listed on the Italian Stock Exchange who decided to adhere the new Code – such as Leonardo – have given notice to the market within the Report on Corporate Governance and the Ownership Structure published during the 2022.

Directors are appointed at the shareholders' meeting for the period established at such shareholders' meeting, which shall not exceed three financial years; directors can be re-eligible for office pursuant to art. 2383 of the Italian civil code. The by-laws of Leonardo, as required by law, provide for a voting list system for the appointment of all members of the Board of Directors.

The Board of Directors is vested with the broadest powers for the ordinary and extraordinary administration of the Issuer, with the authority, in particular, to perform any act it considers appropriate to carry out and attain the corporate purpose, except for those acts reserved by law or by the by-laws to the shareholders' meeting. In addition, Leonardo's by-laws vest the Board of Directors with the power to, *inter alia*, resolve upon the following matters: (a) the merger or demerger of the Issuer in the cases provided by law; (b) the creation or closure of secondary establishments; (c) the reduction in share capital in the event of withdrawal of one or more shareholders; (d) the adaptation of the by-laws in order to comply with applicable laws; and (e) the relocation of the Issuer's registered office within the national territory.

Pursuant to Leonardo's by-laws, the board of statutory auditors is composed of five regular auditors and four¹⁷ alternate auditors, each of which shall meet the requirements provided for by applicable law and Leonardo's by-laws (collectively the "**Board of Statutory Auditors**"). All members of the Board of Statutory Auditors are appointed by the shareholders' meeting for three financial years and can be re-elected for the office. The by-laws of Leonardo, as required by law, provide for a voting list system for the appointment of all members of the Board of Statutory Auditors.

The Board of Statutory Auditors has – *inter alia* – the task of monitoring: (a) compliance with the laws and the Issuer's by-laws and observance of the principles of correct administration; (b) the adequacy of the company's organizational structure for matters within the scope of the board's authority, the adequacy of the internal control system and the administrative and accounting system and the reliability of the latter in correctly representing the company's transactions; (c) any procedures for the actual implementation of the corporate governance rules provided for in the Corporate Governance Code to which Leonardo adheres; and (d) the adequacy of the Issuer's instructions given to subsidiaries in order to comply with disclosure obligations prescribed by applicable laws.

For further information on Leonardo's corporate governance system, see the Corporate Governance Report 2024, and in particular the sections 2, 3, 4, 5, 6.1, 7, 8.1, 9, 10, 11 and 15 of such Report, incorporated by reference in this Base Prospectus.

CONSOLIDATED FINANCIAL AND NON-FINANCIAL INFORMATION RELATING TO LEONARDO

Since 2020 Leonardo has adopted an integrated approach to reporting financial performance and environmental, social and governance (ESG) information, with the aim of offering in a single document a complete, measurable and transparent view of the value generated by the Issuer. The Integrated Annual Report 2023 describes the development strategies of Leonardo, driven by the vision for the next years expressed in the Industrial Plan, and the performance achieved, the way in which the company creates innovative solutions with its supply chain partners and the scientific research ecosystem, operating responsibly in the countries where it is present, and enhancing the value of all its capital, people and expertise, technology and intellectual property, financial resources, industrial assets, relations and partnerships, energy and natural resources.

The Integrated Annual Report 2023 is composed of:

- the **Report on Operations**, which includes the Consolidated Non-Financial Statement (NFS) pursuant to Legislative Decree 254/2016, prepared in accordance with the GRI Sustainability Reporting Standards of the Global Reporting Initiative (GRI), including the correlation table and the methodology note of the non-financial statements (NFS);
- the **Consolidated Financial Statements**;
- the **Separate Financial Statements** of Leonardo.

Leonardo's decision to integrate financial performance and ESG information somewhat anticipates what is envisaged by the Corporate Sustainability Reporting Directive, the new European directive on sustainability reporting that will gradually come into force in 2025 and will require companies to publish sustainability disclosures in the Report on Operations. With this obligation, the European Union intends to pursue the goal of making the links between financial and sustainability information clearer and more evident while increasing its availability, accessibility and reliability.

In preparing the Integrated Annual Report 2023, the following have been taken into account: the priorities reported by ESMA (European Securities and Markets Authority) for financial statements prepared according to the International Financial Reporting Standards (IFRS) and for non-financial disclosures, the Integrated Reporting Framework, the standards of the Sustainability Accounting Standards Board (SASB) for the Aerospace & Defence sector, the Sustainable Development Goals (SDGs), the Ten Principles of the UN Global Compact, the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD) and the core metrics laid down in the White Paper on "Measuring Stakeholder Capitalism - Towards Common Metrics and Consistent Reporting of Sustainable Value Creation" of the World Economic Forum (WEF) as based on the four pillars: **Governance, People, Planet** and **Prosperity**.

In 2023, for the third year running, a selection of indicators (see Annex attached to the Report on Operations – Notes to the NFS) was subjected to full examination (reasonable assurance), as required by the International Standard on "Assurance Engagements ISAE 3000 (Revised) - Assurance Engagements Other than Audits or Reviews of Historical Financial Information", issued by the International Auditing and Assurance Standards Board (IAASB), on the part of EY S.p.A. The audit was carried out according to the procedures set out in the "Independent Auditors' Report of the Non-Financial Statement at 31 December 2023", which is included in the Integrated Annual Report 2023.

The following tables set out the consolidated income statements for the years ended 31 December 2022 and 2023, the reclassified consolidated statement of financial position as of 31 December 2022 and 2023 and the Group Net Debt of Leonardo as of 31 December 2022 and 2023, presented in the Leonardo standard format that is in accordance with Leonardo's integrated annual report. The financial information is derived from the audited consolidated financial statements as of and for the year ended 31 December 2023 prepared for Italian legal and statutory purposes in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union, and published in the EU regulations as of the date of the approval of the consolidated financial statements by the Board of Directors of Leonardo. IFRS should be

understood as International Financial Reporting Standards, International Accounting Standards, the interpretations of the International Financial Reporting Interpretation Committee (IFRIC) and the interpretations of the Standing Interpretations Committee (SIC).

TAXATION

The following is a general description of certain tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in those countries or elsewhere. Prospective purchasers of Notes should consult their own tax and legal advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

Republic of Italy

The following is a general summary of current Italian law and practice relating to certain Italian tax considerations concerning the purchase, the ownership the redemption and the disposal of the Notes. It does not purport to be a complete analysis of all tax considerations that may be relevant to your decision to purchase, own or dispose of the Note, does not purport to deal with the tax consequence applicable to all categories of prospective beneficial owners of Notes, some of which may be subject to special rules.

This summary is based upon tax laws and practice of the Republic of Italy in effect on the date of this Base Prospectus, which are subject to change potentially retroactively. The Issuer will not update this summary to reflect changes in laws and if such a change occurs the information in this summary could become invalid. Changes in the Issuer's organisational structure, tax residence or the manner in which it conducts its business may invalidate this summary. This summary also assumes that each transaction with respect to the Notes is at arm's length.

Where in this summary English terms and expressions are used to refer to Italian concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Italian concepts under Italian tax law.

Prospective purchasers of Notes should consult their tax and legal advisers as to the overall tax consequences of acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes, including in particular the effect of any state, regional or local tax laws.

1. Tax Treatment of Notes - General

Legislative Decree No. 239 of 1 April 1996 as amended and supplemented ("**Legislative Decree No. 239**") provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) (hereinafter collectively referred to as "**Interest**") from notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) within the meaning of Article 44 of Presidential Decree No. 917 of 22 December 1986, the Italian Income Consolidated Code ("**TUIR**"), as amended and supplemented, issued, *inter alia*, by companies listed on an Italian regulated market.

For the above purpose, pursuant to Article 44 of TUIR, debentures similar to bonds are securities that: (i) incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value, (ii) do not grant to the relevant holders any right to directly or indirectly participate to the management of the issuer or of the business in relation to which they are issued or to control the same management and (iii) do not provide for a remuneration which is entirely linked to the profits of the issuer, or other companies belonging to the same group or to the business in respect of which the securities have been issued.

2. Italian Resident Noteholders

In case of Notes qualifying as bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) held by an Italian resident Noteholder who is beneficial owner of the Notes and is (i) an individual not engaged in an entrepreneurial activity to which the

Notes are effectively connected, (unless he has opted for the application of the "*Risparmio Gestito*" regime – see "*Capital Gains*" below) (ii) a non-commercial partnership, pursuant to Article 5 of the TUIR (with the exception of general partnership, limited partnership and similar entities), (iii) a non-commercial private or public institution or trust (except for a company or Italian resident investment fund), or (iv) an investor exempt from Italian corporate income taxation (in each case, unless the relevant Noteholder has entrusted the management of its financial assets, including the Notes, to an Italian authorised intermediary and has opted for the application of the so-called *Risparmio Gestito* regime provided for by Article 7 of Italian Legislative Decree 21 November 1997, No. 461 – see under "*Capital Gains*" below), Interest payments relating to the Notes, during the relevant holding period, are subject to a final tax, referred to as "*imposta sostitutiva*", levied at the rate of 26 per cent, either when the Interest is paid by the Issuer, or when payment thereof is obtained by the Noteholders on a sale of the relevant Notes. The *imposta sostitutiva* may not be recovered as a deduction from the income tax due.

In the event that the Noteholders described under (i) or (iii) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax. In such case, Interest relating to the Notes (a) will be subject to the *imposta sostitutiva* on account of income tax due and (b) will be included in the relevant Noteholder's annual corporate taxable income to be reported in the income tax return. As a consequence, such income will be subject to the ordinary income tax and the *imposta sostitutiva* may be recovered as a deduction from the income tax due.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509/1994 and Legislative Decree No. 103/1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on Interest relating to the Notes if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets all the requirements from time to time applicable set forth under Italian law.

Pursuant to Legislative Decree No. 239, *imposta sostitutiva* is generally applied by banks, *società di intermediazione mobiliare* (so-called "**SIMs**"), fiduciary companies, *società di gestione del risparmio* (so-called "**SGRs**"), stockbrokers and other entities identified by decrees of the Ministry of Economy and Finance who are (i) resident in Italy or permanent establishments in Italy of non-Italian resident financial intermediaries; or an organisation or company non-resident in Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of the Ministry of Economy and Finance (which includes Euroclear and Clearstream) having appointed an Italian representative for the purposes of Legislative Decree No. 239; and (ii) intervene, in any way, in the collection of Interest relating to the Notes or in the transfer of the Notes (each an "**Intermediary**"). For the purpose of the application of *imposta sostitutiva*, a transfer of the Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or the Intermediary with which the Notes are deposited.

Where an Italian resident Noteholder who is beneficial owner of the Notes is a company or similar commercial entity, or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected, and the Notes are timely deposited together with the relevant Coupons with an Intermediary, Interest will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate income tax ("**IRES**"), currently applying at 24 per cent rate (certain surcharges may apply on certain categories of entities, e.g. financial entities) and, in certain circumstances, depending on the "*status*" of the Noteholder, also to *imposta regionale sulle attività produttive*, the regional tax on productive activities ("**IRAP**"), generally applying at the rate of 3.9 per cent (IRAP applies at different rates for certain categories of investors, e.g. banks, financial institutions and insurance companies and, in any case, can be increased by regional laws).

Payments of Interest in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of the Financial Services Act and

Article 14-bis of Law 25 January 1994, No. 86, as amended and supplemented, or to SICAF to which the provisions of Article 9(1) of Legislative Decree of 4 March 2014, No. 44 apply (the "**Real Estate Funds**") are not be subject to *imposta sostitutiva* and do not suffer any other income tax in the hands of the Real Estate Fund, provided that the Notes, together with the relevant Coupons, are timely deposited with an Intermediary. Unitholders are generally subject to a 26 per cent withholding tax on distributions from the Real Estate Funds. Furthermore, a direct imputation system ("**tax transparency**") is provided for certain non-qualifying unitholders (e.g. Italian resident individuals) holding more than 5 per cent of the units of the fund.

If the Noteholder is resident in Italy and is an open-ended or closed-ended investment fund (the "**Fund**"), a SICAV or a SICAF to which the provisions of Article 9(2) of Legislative Decree 4 March 2014 apply, No. 44, and the Notes, together with the relevant Coupons, are timely deposited with an authorised Intermediary, Interest accrued during the holding period on the Notes are not be subject to *imposta sostitutiva* and do not suffer any other income tax in the hands of the Funds. A 26 per cent withholding tax is levied on proceeds received by certain categories of unitholders upon (i) distribution by Fund; or (ii) redemption or disposal of the units or liquidation of the Fund.

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of Legislative Decree 5 December 2005, No. 252) (the "**Pension Funds**") and the Notes, together with the relevant Coupons, are timely deposited with an Intermediary, Interest payments relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to an *ad hoc* 20 per cent substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, Interest relating to the Notes may be excluded from the taxable base of the 20 per cent substitute tax if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets all the requirements from time to time applicable set forth under Italian law.

Where an Italian resident Noteholder has opted for the *Risparmio Gestito* regime with respect to its investment in the Notes, such Noteholder will be subject to a 26 per cent annual substitute tax on the increase in value of the managed assets accrued at the end of each tax year. In such case, Interest payments relating to the Notes will be included in the calculation of said annual increase in value of managed assets.

Where the Notes and the relevant Coupons are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any Italian intermediary (or permanent establishment in Italy of foreign intermediary) that intervenes in the payment of Interest to any Noteholder or, absent that by the Issuer and Noteholders who are Italian resident companies or permanent establishments in Italy of foreign corporations to which the Notes are effectively connected are entitled to deduct *imposta sostitutiva* suffered from income taxes due.

3. **Non-Italian Resident Noteholders**

Where a Noteholder who is the beneficial owner of the Notes is a non-Italian resident without a permanent establishment in Italy to which the Notes are connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident beneficial owner is either (i) resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy; or (ii) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (iii) a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) an institutional investor which is established in a country which allows for a satisfactory exchange of information with Italy, even if it does not possess the status of taxpayer in this country.

The countries which allow for a satisfactory exchange of information with Italy are listed in the Ministerial Decree 4 September 1996, as amended and supplemented by Ministerial Decree dated 23 March 2017. Pursuant to Article 11(4)(c) of Legislative Decree No. 239

(as amended by Legislative Decree No. 147 of September 14, 2015) the list will be updated every six months (the "**White List**"). Pursuant to Article 1-bis of Ministerial Decree of 4 September 1996, the Ministry of Economy and Finance retains the right to test the actual compliance of each country included in the list with the exchange of information obligation and, in case of reiterated violations, to remove from the list the uncooperative countries.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent or at the reduced or nil rate provided for by the applicable double tax treaty (if any, and in any case subject to compliance with relevant subjective and procedural requirements) to Interest paid to Noteholders who are resident, for tax purposes, in countries which do not allow for a satisfactory exchange of information with Italy.

In order to ensure gross payment, qualifying non-Italian resident Noteholders must be the beneficial owners of the payments of Interest and (i) deposit, directly or indirectly, the Notes, together with the relevant Coupons, with an Italian resident bank or SIM or other qualified intermediary or a permanent establishment in Italy of a non-Italian resident bank or SIM or other qualified intermediary or with a non-Italian resident entity or company participating in a centralised securities management system which is in contact, by electronic means, with the Ministry of Economy and Finance and (ii) timely file with the relevant depository a statement of the relevant Noteholder, which remains valid until withdrawn or revoked, in which the Noteholder declares to meet the requirements to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy nor in the case of foreign Central Banks or entities which manage the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001. Additional statements may be required for non-Italian resident Noteholders who qualify as institutional investors.

Failure of a non-resident holder of the Notes to comply in due time with the procedures set forth in Legislative Decree No. 239 and in the relevant implementation rules will result in the application of the *imposta sostitutiva* on Interests payments to a non-resident holder of the Notes.

4. **Fungible issues**

Pursuant to Article 11(2) of Legislative Decree No. 239, where the Issuer issues a new tranche (the "**Tranche**") forming part of a single series with a previous Tranche, for the purposes of calculating the amount of Interest subject to *imposta sostitutiva* (if any), the issue price of the new Tranche will be deemed to be the same as the issue price of the original Tranche. This rule applies where (a) the new Tranche is issued within 12 months from the issue date of the previous Tranche and (b) the difference between the issue price of the new Tranche and that of the original Tranche does not exceed 1% of the nominal value of the Notes multiplied by the number of years of the duration of the Notes.

5. **Capital Gains**

Italian Resident Noteholders

Pursuant to Legislative Decree 21 November 1997, No. 461, any capital gain obtained from the sale or redemption of the Notes would be treated as part of the taxable business income of the Noteholder subject to ordinary taxation (and, in certain circumstances, depending on the "status" of the Noteholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected. The capital gains are calculated as the difference between the sale price and the relevant tax basis of the Notes. Upon fulfilment of certain conditions, the gains may be taxed in equal instalments over up to five fiscal years for IRES and for IRAP purposes.

Where an Italian resident Noteholder is an individual not engaged in an entrepreneurial activity to which the Notes are connected and certain other persons, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Under some conditions and limitations, Noteholders may set-off capital losses with gains of the same nature.

For the purposes of determining the taxable capital gain, Interest on the Notes accrued and unpaid up to the time of the purchase and the sale of the Notes must be deducted from the purchase price and the sale price, respectively.

In respect of the application of *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

- (a) Under the tax declaration regime ("**Regime della dichiarazione**"), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any incurred capital loss of the same nature, realised by the Italian resident individual Noteholder holding the Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding the Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss of the same nature, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains of the same nature realised in any of the four succeeding tax years.
- (b) As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (so-called "**Risparmio Amministrato**" regime). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries (or permanent establishments in Italy of foreign intermediaries) and (ii) an express election for the *Risparmio Amministrato* regime being timely made in writing by the relevant Noteholder. The *Risparmio Amministrato* lasts for the entire fiscal year and unless revoked prior to the end of such year will be deemed valid also for the subsequent one. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised at revocation of its mandate), net of any incurred capital loss of the same nature, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *Risparmio Amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains of the same nature subsequently realised, within the same securities management relationship, in the same tax year or in the following tax years up to the fourth. Under the *Risparmio Amministrato* regime, the Noteholder is not required to declare the capital gains in the annual tax return.
- (c) Any capital gains on Notes held by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "**Risparmio Gestito**" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent substitute tax, to be paid on behalf of the taxpayer by the managing authorised intermediary. Under the *Risparmio Gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in

value of the managed assets accrued in any of the four succeeding tax years. Under the *Risparmio Gestito* regime, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Notes if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets all the requirements from time to time applicable set forth under Italian law.

Any capital gains on Notes held by a Noteholder who is a Fund, a SICAV or a SICAF to which the provisions of Article 9(2) of Legislative Decree 4 March 2014, No. 44 apply is subject neither to *imposta sostitutiva* nor to any other income tax in the hands of the Funds. Please refer to paragraph "*Italian Resident Noteholders*" above.

Any capital gains on Notes held by a Noteholder who is a Pension Fund will be included in the result of the relevant portfolio accrued at the end of the tax period to be subject to an *ad hoc* 20 per cent substitute tax. Subject to certain limitations and requirements (including minimum holding period requirement), capital gains on the Notes may be excluded from the taxable base of the 20 per cent substitute tax if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets all the requirements from time to time applicable set forth under Italian law.

Any capital gains realised by Real Estate Funds on the Notes are not taxable at the level of Real Estate Funds. Please refer to paragraph "*Italian Resident Noteholders*" above.

Non-Italian resident Noteholders

Capital gains realised by non-Italian resident Noteholders (without a permanent establishment in Italy to which the Notes are effectively connected) from the sale or redemption of Notes issued by an Italian resident Issuer and traded on regulated markets in Italy or abroad are not subject to the *imposta sostitutiva*, regardless of whether the Notes are held in Italy. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Noteholders who hold the Notes with an Italian authorised financial intermediary and elect to be subject to the *Risparmio Gestito* regime or are subject to the so-called *Risparmio Amministrato* regime according to Article 6 of Italian Legislative Decree 21 November 1997, No. 461, may be required to produce in due time to the Italian authorised financial intermediary an appropriate self-declaration that they are not resident in Italy for tax purposes.

Capital gains realised by non-Italian resident Noteholders (without a permanent establishment in Italy to which the Notes are effectively connected) from the sale or redemption of Notes issued by an Italian resident Issuer not traded on regulated markets may in certain circumstances be taxable in Italy if the Notes are held in Italy. However, a non-Italian resident beneficial owner of Notes without a permanent establishment in Italy to which the Notes are effectively connected is not subject to the *imposta sostitutiva* on capital gains realised upon sale or redemption of the Notes, provided that he/she/it: (i) is resident in a country included in the White List; or (ii) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (iii) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) is an institutional investor which is resident or established in a country included in the White List, even if it does not possess the status of taxpayer in its own country of residence. In such cases, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Noteholders who hold the Notes with an Italian authorised financial intermediary and elect to be subject to the *Risparmio Gestito* regime or are subject to the so-called *Risparmio Amministrato* regime according to Article 6 of Italian Legislative Decree 21 November 1997, No. 461 may be required to produce in due time to the Italian authorised financial intermediary an appropriate self-declaration

stating that they meet the subjective requirements indicated above. Additional statements may be required for non-Italian resident Noteholders who are institutional investors.

Non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes are connected that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Notes. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Noteholders who hold the Notes with an Italian authorised financial intermediary and elect to be subject to the *Risparmio Gestito* regime or are subject to the *Risparmio Amministrato* regime according to Article 6 of Italian Legislative Decree 21 November 1997, No. 461 may be required to produce in due time to the Italian authorised financial intermediary appropriate documents which include, *inter alia*, a statement from the competent tax authorities of the country of residence.

6. **Stamp tax**

Pursuant to Article 13(2-ter) of the Tariff Part I attached to Presidential Decree 26 October 1972, No. 642, as subsequently amended and supplemented from time to time, provides for a proportional stamp tax on periodical reporting communications sent by banks and financial intermediaries regarding, with certain exceptions (e.g. investments in pension funds), all financial instruments deposited in Italy. The stamp tax is collected by banks and other financial intermediaries. By operation of law, the reporting communication is deemed as sent to the investor at least once a year. The stamp tax applies at a rate of 0.2 per cent and it cannot exceed €14,000 for taxpayers different from individuals. In particular, it is applied, on a yearly basis, on the market value of the financial instruments, or, lacking such value, on the nominal or reimbursement value of such instruments.

The proportional stamp duty does not apply to communications sent by Italian financial intermediaries to subjects not qualifying as clients, as defined by Provision of the Governor of Bank of Italy 20 June 2012. Communications and reports sent to this type of investors are subject to the ordinary €2.00 stamp duty for each copy. Moreover the proportional stamp duty does not apply to communications sent to Pension Funds.

Periodical communications to clients are presumed to be sent at least once a year, even though the intermediary is not required to send any such communication. In this case, the stamp duty is to be applied on 31 December of each year or in any case at the end of the relationship with the client.

7. **Transfer tax**

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds (*atti pubblici e scritture private autenticate*) executed in Italy are subject to fixed registration tax at rate of €200; (ii) private deeds (*scritture private non autenticate*) are subject to registration tax at rate of €200 only in case of use or voluntary registration or on the occurrence of the "*enunciazione*".

8. **Wealth tax on securities deposited abroad**

If the Notes are held abroad by individuals, non-profit entities and certain partnerships (*società semplici* or similar partnership in accordance with Article 5 of TUIR) resident in Italy for tax purposes (not deposited in Italy and not managed by certain Italian intermediaries), a wealth tax (the so-called "IVAFE"), introduced by Article 19 of Law Decree 6 December 2011, No. 201, as amended and supplemented, applies at the yearly-based rate of 0.2 per cent. Moreover, Article 1(91) of Law 30 December 2023, No. 213 provided for an increase of the rate from 0.20 per cent to 0.40 per cent, only in the circumstance that the Notes are held in black list countries, listed in the Ministerial Decree No.107 of 4 May 1999. For taxpayers different from individuals, IVAFE cannot exceed Euro 14,000 per year. This tax is calculated on the market value of the Notes at the end of the relevant year or – if no market value figure is available – the nominal value or the

redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to deduct from the tax a tax credit equal to any wealth taxes paid in the State where the financial assets are held (up to the amount of the Italian wealth tax due).

9. **Tax monitoring**

Pursuant to Law Decree 28 June 1990, No. 167, converted by Law No. 227 of 4 August, 1990, as amended by Law No. 97 of 6 August 2013, individuals, non-profit entities and certain partnerships (in particular, *società semplici* or similar partnerships in accordance with Article 5 of TUIR) resident in Italy for tax purposes, who at the end of the year hold investments abroad or have financial foreign activities by means of which income of foreign source can be accrued must, in some circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return). The requirement applies also where the individuals above, being not the direct holders of the foreign investments or financial activities, are the beneficial owners of them.

The disclosure requirements are not due if the foreign financial investments (including the Notes) are deposited for management or administration with qualified Italian resident intermediary, with respect to contracts entered into through their intervention, or are only composed by deposits and/or bank accounts having an aggregate value not exceeding an €15,000 threshold throughout the year, provided that the cash flow and the income derived from such investments/ activities have been subject to Italian withholding or *imposta sostitutiva* by the such intermediaries.

10. **Italian inheritance and gift tax**

Pursuant to Law Decree 3 October 2006, No. 262, transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation of Italian residents and of non-Italian residents, but in such latter case limited to assets held within the Italian territory (which, for presumption of law, includes bonds issued by Italian resident issuers), are generally taxed in Italy as follows:

- transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent on the value of the inheritance or the gift exceeding €1,000,000 for each beneficiary;
- transfers in favour of brothers/sisters are subject to the 6 per cent inheritance and gift tax on the value of the inheritance or the gift exceeding €100,000 for each beneficiary;
- transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent on the entire value of the inheritance or the gift; and
- any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent on the entire value of the inheritance or the gift.

If the beneficiary has a serious disability recognised by law, inheritance and gift taxes apply on its portion of the net asset value exceeding €1,500,000.

Pursuant to an anti-avoidance rule provided for by Article 16 of Law No. 383 of 18 October 2001, if the donee sells the Notes for consideration from the receipt thereof as a gift, the donee is required to pay the relevant *imposta sostitutiva* on capital gains as if the gift has never taken place.

The *mortis causa* transfer of financial instruments included in a long-term savings account (*piano di risparmio a lungo termine*) – that meets all the requirements from time to time set forth under Italian law – is exempt from inheritance tax.

11. **European Directive on Administrative Cooperation**

Legislative Decree No. 29 of 4 March 2014, as supplemented from time to time, has implemented the EU Council Directive 2011/16/EU, as amended from time to time, on administrative cooperation in the field of taxation (the "**DAC**").

The main purpose of the DAC is to extend the automatic exchange of information mechanism between Member States, in order to fight against cross border tax fraud and tax evasion. The new regime under DAC is in accordance with the Global Standard released by the Organisation for Economic Co-operation and Development in July 2014.

Prospective investors should consult their tax advisers on the tax consequences deriving from the application of the DAC.

The Directive on Administrative Cooperation (2014/107/EU) of December 9, 2014 ("**DAC 2**") implemented the exchange of information based on the Common reporting Standard ("**CRS**") within the EU. Under CRS, participating jurisdictions will obtain from reporting financial institutions, and automatically exchange with exchange partners on an annual basis, financial information with respect to all reportable accounts identified by financial institutions on the basis of common due diligence, and reporting procedures.

The EU Council Directive 2018/822/EU of 25 May 2018 ("**DAC 6**") implemented the mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements. Under DAC 6 intermediaries which meet certain criteria and taxpayers are required to disclose to the relevant Tax Authorities certain cross-border arrangements, which contain one or more of a prescribed list of hallmarks, performed from 25 June 2018 onwards.

Prospective investors should consult their tax advisers on the tax consequences deriving from the application of the Directive on Administrative Cooperation.

Any such agreement for the issue and subscription of Notes will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be subscribed for by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription.

The relevant Dealers will be entitled in certain circumstances to be released and discharged from their obligations in respect of a proposed issue of Notes under or pursuant to the Dealer Agreement prior to the closing of the issue of such Notes, including in the event that certain conditions precedent are not delivered or met to their satisfaction or waived on or before the issue date of such Notes. In this situation, the issuance of such Notes may not be completed. Investors will have no rights against the Issuer or the relevant Dealers in respect of any expense incurred or loss suffered in these circumstances.

Dealers transacting with the Issuer – Potential conflicts of interest

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in lending, in advisory, in corporate finance services, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and the Issuer's affiliates and/or for companies involved directly or indirectly in the sector in which the Issuer and/or their affiliates operate, in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and the Issuer's affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. They have received, or may in the future receive, customary fees and commissions, reimbursement of expenses, indemnification for these transactions.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade bank loans, debt and equity securities (or related derivative securities) and financial instruments for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or the Issuer's affiliates. The Dealers and/or their affiliates may receive allocations of the Notes (subject to customary closing conditions), which could affect future trading of the Notes. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

In relation to the issue and subscription of any Tranche of Notes, fees and/or commissions may be payable to the relevant Dealer(s).

For the avoidance of doubt, the term "affiliate(s)" also includes parent companies.
