ESG DRIVING INDUSTRIAL PLAN
EXECUTION, GROWTH AND
LONG-TERM RETURNS

ITALIAN SUSTAINABILITY WEEK 2022

September 2022
Content

**SOUND AND INTEGRATED GOVERNANCE**
- Strong governance supporting long-term sustainable growth
- Sustainability and innovation at the core of the business
- Integrating ESG into the Group risk management

**OUR COMMITMENT**
- Our ESG vision and journey towards long-term value creation

**EXECUTING OUR PLAN**
- Addressing opportunities and industrial goals
- Technology and innovation enabling sustainable growth
- The UK example: aligning ESG customer priorities with our commercial goals
- Partnering with our suppliers
- Human capital and skill enhancement supporting our future
- Transparency and integrity at our core

**DELIVERING SUSTAINABLE GROWTH**
- ESG driving our long-term returns
OUR ESG VISION AND JOURNEY TOWARDS LONG-TERM VALUE CREATION
We have a clear and important purpose

We provide essential Security and Protection, security for people and nations....

... Contributing to the world’s progress and safety through our innovative technological solutions
An industrial and technological leader
With a strong presence in domestic markets and worldwide

2021

- **Commercial Presence**
  - 150 countries globally
  - 50,413 people globally
  - 106 sites all over the world
  - ca 11,000 suppliers supporting us globally

- **Revenues 2021 by Geographical Area**
  - 83% of revenues from export, outside Italy
  - 49% of revenues from export, outside domestic markets

- **Revenues 2021 by Market**
  - 83% Civil
  - 88% Governmental

97% of people in domestic markets
Deeply committed to ESG
ESG driving industrial plan execution, growth and long-term returns

**BUSINESS FUNDAMENTALS**

- We have successfully navigated the Group through 2021 and 1H22, resilient performance
- Taking actions on optimising the portfolio for growth in our core businesses
- Addressing challenges in businesses exposed to civil aeronautics
- Strong foundations and core fundamentals give us confidence in both short and medium/long term
- Well positioned for post COVID-19 opportunities: security, social cohesion and decarbonisation

**SUSTAINABILITY ENABLERS**

- ESG integrated into all aspects of business, decisions and projects to create long-term value and generate positive impacts for the company and stakeholders
- Sustainability actions covering the entire value chain, supporting SDGs
- A sound governance supports the achievement of ESG targets
- Clear alignment of the executive pay with ESG
- Integrated reporting on financial and ESG information, leveraging on international standards
Important progress towards ESG milestones in 2021

Progress on environment and climate change
- 19% GHG Scope 1 & 2 emissions compared to 2019
- 6% intensity of energy consumption vs 2019
- 24% intensity of waste produced compared to 2019
- 80% of sourced electricity from renewable sources

Progress on social impact and people
- 3,753 new hires
  - 24% women, 54% hold a STEM qualification, >40% under 30
  - 19% of female employees
  - 18% of female managers out of total managers

Commitment to sustainable finance
- 50% of investments SDG-aligned
- 50% of financial sources ESG linked

Recognition by third-parties
- Highest score in the A&D sector in the DJSI
- Included in the MIB ESG index by Euronext
- Climate A List of CDP - Climate Change
- Admitted to the Bloomberg gender equality index
- Highest score in Transparency International’s assessment
- UN Global Compact LEAD
Clear targets set throughout the value chain

Main targets

**ENVIRONMENT**
- 10% reduction in consumption of electricity withdrawn from external grid by 2025*
- 40% reduction of annual Scope 1 + 2 (Market Based) emissions by 2030 **
- 4% reduction of annual Scope 1 + 2 (Location Based) emissions by 2025 *
- 10% reduction of water withdrawals by 2025 *
- 10% reduction of the amount of waste produced by 2025 *

**SOCIAL**
- Hiring at least 40% of under 30 by 2022 and 32% of women by 2025 out of total hires
  - Hiring 30% of women with STEM degrees out of total hires with STEM degrees by 2025
- Women equal to 20% of total employee by 2025
- 20% of women in management positions by 2025
- 27% of women in succession plans by 2025
- More than 100 training hours per employee in the 2018-2022 period

**GOVERNANCE**
- Release of Trade Compliance Guidelines including Human Rights Impact Assessment
- Extension of business compliance training to other types of third parties by 2022

* Calculated on revenues. Baseline: year 2019
** Reduction in absolute value. Baseline: year 2019
ESG … our key priorities in executing our Plan for the long-term growth
Driving execution and value creation

- SUPPORTING OUR KEY COMMERCIAL AND INDUSTRIAL GOALS
- ENABLING SUSTAINABLE GROWTH BY TECHNOLOGY AND INNOVATION
- MEETING AND ANTICIPATING CUSTOMER PRIORITIES
- PARTNERING WITH OUR SUPPLIERS
- ENHANCING HUMAN CAPITAL AND SKILLS FOR THE FUTURE
- ACTING PUTTING TRANSPARENCY AND INTEGRITY AT OUR CORE
- DRIVING CAPITAL ALLOCATION AND LONG-TERM RETURNS
ADDRESSING OPPORTUNITIES AND INDUSTRIAL GOALS
Our commercial and industrial future is driven by innovation…
… and in turn this critical innovation is driven by sustainability

- Our ESG credentials: key enablers to reach over €80bn in new order intake over the next 5 years
- Our focus on R&D, innovation and technology support is key for growth
- Research and technological innovation at the heart of Leonardo’s sustainability approach
- Focused on deep digitalization and world-class capabilities
The commercial context of what we are aiming to achieve
Positive outlook supported by our commercial model and commitment to ESG and technologies

- Strong positioning in key **domestic markets**
- Competitive position in **key strategic countries**
- **International** footprint enhancement
- Strong commercial **reputation**
- Quality of products
- **Partnership** approach

- Robust **Trade compliance** program
- Highly qualified **skills**
- R&D **tech-focus**
- Enabling technologies for **decarbonization**

**OUR ORDER INTAKE TARGET**

- **Range:** Ca. €57
- **Target:** Ca. €80

2018-2021 Cumulative value
2022-2026 Cumulative value

© 2022 Leonardo - Società per azioni
Transforming our R&D efforts towards digitalisation and leading-edge world-class capabilities
Innovation enables us to achieve significant results in decarbonization

- Deep and wide-ranging digitalisation
- Leading-edge world-class capabilities and technologies
- End-customers needs
- Sustainability in products and processes
- Security-by design approach

- Value for our stakeholders including customers and supplier
- New opportunities
- Development cost and time reduction
- High standards on both product safety and cyber resilience

Innovation in materials, Digital Twin, New Materials and Innovative Propulsion Systems, energy saving technologies and digital working environment

Cyber resilience for all our products
TECHNOLOGY AND INNOVATION ENABLING SUSTAINABLE GROWTH
Our future is driven by innovation …

… In turn driven by sustainability, digitalisation and cyber-resilience

- Our meaningful technological innovation enables continuous improvements in our decarbonization
- …and provides our full value chain with the opportunity and tools to reduce their emissions
- We leverage our key competencies, know-how and passion to accelerate growth in our R&D efforts
- Our R&D and product engineering activities are focussed on meeting the growing need for security and resilience
Significant progress in meeting our decarbonisation targets
Innovative solutions helping us to make great progress in reducing Scope 1 & 2 emissions

**CO₂ EMISSIONS SCOPE 1 & 2**

-19% → -40%

**SF₆ replacement**
Over 100,000 tons of CO₂ avoided in 2021 thanks to the partial replacement of SF₆

**Energy Self Production Program**
About 5,000 tons of CO₂ avoided per year starting by 2025 … increasing renewables and reducing energy consumption from the external grid

**LED lighting programme**
From 2014 ca. 6,000 tons of CO₂ avoided per year … and additional 7,400 tons of CO₂ per year avoided by 2025 compared to 2019

**District heating**
Turin, Brescia, Genoa and Świdnik sites

CONFIRMED IN THE ‘CLIMATE A LIST’, THE ONLY COMPANY IN THE A&D SECTOR

* Market-based
We enable our value chain to reduce emissions
Leveraging on digital twin and focused research to address scope 3

VIRTUALIZATION

- **33,700 training hours delivered** in 2021 through flight simulators
- **ca 117,000 tons of CO₂ avoided** through from 2019 thanks to virtual training systems
- Air Traffic Management: **100,000 tons of CO₂ avoided in one year** with Leonardo’s Free Route ATM system in the sky in Italy

NEW MATERIALS

- **-20% of CO₂ emissions** with the use of carbon fiber for aerostructures
- **Thermoplastic matrix materials**, which make it possible to reduce aircraft weight and therefore fuel consumption

NEW PROPULSION SYSTEMS AND SAF

- Studying **electric or hybrid** platforms
- Adoption of **SAFs**: up to -80% of CO₂ emissions over the entire life cycle thanks to the use of with respect to traditional fuels
- **12 Leonardo’s helicopter models** can operate on fuels with up to 50% of SAFs *

Leonardo Labs at the core of our R&D efforts
Our internal capabilities and external collaborations drive long-term R&D of the most innovative technologies

**LEONARDO LABS**

- **11** Leonardo Labs (in 6 regions in Italy and 1 in the USA)
- **4** joint external laboratories
- **200** research fellows by 2023

**DAVINCI-1 HPC**

- **7th** in the aerospace sector behind to NASA and JAXA agencies *
- **5** Pflops of computing power
- **20** PByte of cumulative storage capacity

**TARGETS**

- Increasing computing power **by 40%** per capita **
- Increasing storage capacity **by 40%** per capita **

---

* November 2021  **Calculated as the number of flops and bytes in relation to employees in Italy. 2020 year baseline
Unique assets at the heart of our R&D
DAVINCI-1 HPC gives a unique edge in reducing time to market, risks and costs

- **APPLIED TECHNOLOGIES**
  - **DAVINCI**
  - **QUANTUM**
    - Communications and crypto random number
  - **MATERIALS**
    - Innovative materials
  - **DIGITAL TWIN AND ADVANCED SIMULATION**
    - Certification by Simulation
  - **UNMANNED ROBOTICS**
    - Predictive maintenance
    - Global monitoring
  - **ELECTRIFICATION**
    - New propulsion system, fuel cells, …
  - **BIG DATA**
  - **ARTIFICIAL INTELLIGENCE**

- **ENABLERS**
  - **COMPUTING AND STORAGE CAPABILITIES**
  - **DAVINCI-1 HPC/CLOUD**
THE UK EXAMPLE: ALIGNING ESG CUSTOMER PRIORITIES WITH OUR COMMERCIAL GOALS
Aligning ESG customer priorities with our commercial goals

- Sustainability has become a significant part of our customer requirements
- ESG criteria are now a cornerstone of the MoD bidding process
- Leonardo is positioned as we have strong alignment with our own ESG targets and those of our customers
- And we also invest in our people to ensure they have the rights skills for the future
### How sustainability embeds itself as cornerstone of our customers’ requirements

Targeting climate neutrality by 2030 for Scope 1 & 2, and across the value chain by 2050

| UK Government is the first country to legislate for Net Zero by 2050 |
| Defence sector accounts for c.50% of all UK public sector emissions |
| Failure to have viable plan for Net Zero by 2050 will prevent bidding for contracts >£10m |

**We are committed to Net Zero (Scope 1 & 2) in the UK by 2030 – ahead of MoD requirements**

- **Net Zero** for Scope 1 & 2 emissions by **2030**
- **Net Zero** for value chain by **2050**
Our commitment to social values in line with MoD expectations
How we invest in our people and supply chain to add social value in the UK

SOCIAL VALUE

- **Tackling economic inequality**
  Create new businesses, new jobs and new skills
  Increase supply chain resilience and capacity

- **Fighting climate change**
  Effective stewardship of the environment

- **Equal opportunity**
  Reduce the disability employment gap
  Tackle workforce inequality

- **Wellbeing**
  Improve health and wellbeing
  Improve community cohesion

- **COVID-19 recovery**
  Help local communities to manage and recover from the impact of COVID-19

WHAT WE DO AT LEONARDO UK

- Supporting 9,700 jobs indirectly along the supply chain (two-thirds SMEs)
- Extended flexible working arrangements for 75% of the UK employees
- Levelling Up agenda – Leonardo using supply chain across the UK
- Investing £3.5m annually on employee training and development
- Ofsted rated our apprenticeship program as outstanding with retention rate of 87% after 6 years
- Asking our suppliers to meet our commitments on prompt payment code and living wage pledge
- Pursuing a path to self-generation to produce up to 25% of our energy use by 2030
- Procured 100% green energy through renewable energy sources since 2016
PARTNERING WITH OUR SUPPLIERS
Overview of our supply chain
Our supply chain in 2021

- **9.2 billion** of purchases of goods and service
- **65%** of revenues
- **11,000** suppliers worldwide
- **81%** of purchases related to domestic markets
- **6,700** SMEs

* Calculated as the number of SMEs out of total suppliers by country
Growing with our partners
Partnerships and supplier development programmes

MAIN INITIATIVES

- **LEAP partnership**
  Supplier management model aimed at creating the best conditions to enhance capabilities and technological excellence of our partners
  - Improvement and development projects launched for over **120** suppliers

- **LEADS (Leonardo Assessment and Development for Sustainability)**
  New model for assessing sustainability issues and risks and developing key suppliers
  - **500** Italian and foreign key suppliers involved

- **Leonardo Supplier Award**
  First edition, aimed at recognising key suppliers for their excellence, spirit of collaboration and results achieved
  - Conferred to **58** suppliers at global level, more than half are Italian SMEs

- **Elite Leonardo Lounge**
  Two-year development programme targeted at entrepreneurs and top managers of supplier companies
  - **67** key suppliers participating for a turnover of €1.3 billion

2022 update

**Sustainability training**
over **500** Italian SMEs selected to participate in this new video course project in 2022
Responsible procurement management for long-term partnerships
Main phases of supplier selection and management

**REGISTRATION ON THE PROCUREMENT PORTAL**
- Acceptance of the Code of Ethics, Anti-corruption Code, Supplier Code of Conduct, Organization Management and Control Model

**PRE-QUALIFICATION**
- Self-assessment questionnaire requesting the possession of economic, financial, social and environmental requirements
- Possession of technical and operational requirements and additional elements for specific supply
- Check of specific tender requirements, T&C, compliance with specific regulations, reputational checks
- >6,400 pre-qualifications of suppliers
- >4,800 qualifications completed
- 197 reputational due diligence
- 1,019 suppliers selected based on environmental criteria

**QUALIFICATION**
- Audit on site
- Inspection visits
- Documentary checks
- Blacklisted suppliers

**SELECTION/CALL FOR BIDS**
- Improvement plans
- Pre-qualification revocation
- >5,000 HSE audits on service providers (indirect suppliers)
- >900 audits on direct suppliers
- >4,000 performance improvement reviews on direct suppliers
- >16 black listed suppliers

**MANAGEMENT & MONITORING**
- 48 denied pre-qualifications of new suppliers
- 133 revoked pre-qualifications of suppliers in the renewal phase
- 1,019 suppliers selected based on environmental criteria

Connecting ESG progress and remuneration
Confirming alignment between Industrial plan and management performance

10% of **short-term** variable remuneration linked to ESG objectives

20% of **long-term** variable remuneration linked to ESG objectives

**Short-term incentive**

**CEO & General Manager**
- 5% → Inclusion of Leonardo in DJSI
- 5% → Average accident frequency rate*

**Managers**
- 1,050+ managers, including Managers with Strategic Responsibilities and Senior Managers.

**Long-term incentive**

**CEO & General Manager**
- 10% → Scope 1 & 2 GHG Emissions**
- 10% → Gender diversity, percentage of female new hires w/ STEM***

**Managers**
- 215+ managers of the Group, including Managers with Strategic Responsibilities and Senior Managers

* Calculated according to the GRI method as number of accidents per 1,000,000 hours worked. The target is 0.78 (implies a reduction of 25% compared to the average frequency for the period from 2018 to 2019).

** Calculated according to the location-based method as a ratio of emissions of Scopes 1 and 2 location-based (tCO₂e) to revenues (€mil.) per year (Intensity of CO₂ emissions on revenues). The target is 43.1 at 2023.

*** Calculated as the ratio of female new hires with a STEM degree out of total new hires with a STEM degree – The average target is 20% over the three-year period.
TRANSPARENCY AND INTEGRITY AT OUR CORE
Transparency and integrity at our core

• Our business culture is based on responsibility, correctness and integrity
• Rules and Company culture translating into daily behaviors strengthen our credibility and performance
• Our activities are performed in full compliance with all national and international laws and regulations
• Compliance guiding values clearly communicated by the Top Management
• Robust and fit for purpose Trade and Business Compliance programme
Acting responsibly is at the very base of our way to do business. Implementing a robust and ‘fit-for-purpose’ Trade and Business Compliance programme.
Managing and mitigating our risk exposure from a business compliance side
An enhanced level of due diligence on each transaction

**RISK ASSESSMENT ON COMMERCIAL ACTIVITIES**

- Country risk and level of corruption
- Local law/regulations requirements
- Remuneration
- Ownership
- Reputation
- Personal or professional links
- Inclusion in international blacklist
- Country of registration

**Gate Risk Score**

- Not acceptable
  - High
  - Medium
  - Low

**Drivers Risk Score**

- Ethical and reputational risks

**Mitigation actions**

40 red flags
Managing and mitigating our risk exposure on export activities
Rigorous evaluation of the risks associated with each transaction including human rights

TRADE COMPLIANCE PROGRAM

- **Red flags**
  - **Export Controls**: Assessing red flags related to any applicable export control laws and regulation concerning the potential ‘Politically Sensitive Transactions’
  - **Know Your Customer**: Assessing the red flags related to either the customer and/or the end-user subject to restrictions or sanctions
  - **Sanctions**: Assessing the red flags related to any embargoes, sanctions or any other trade restrictions applying to Sensitive Countries List
  - **Territory**: Assessing the red flags related to the risk of corruption

HUMAN RIGHTS IMPACT ASSESSMENT

- **Red flags**
  - **By country**
    - Assessment on violations of human rights, including internal repression, violations of international humanitarian law, conflict minerals
    - Update of Sensitive Countries list
  - **By transaction**
    - Additional drivers for transactions with Sensitive Countries
Maintaining the highest reputational standard on Compliance and Integrity
The importance of continuous training and awareness raising efforts

Training for our employees
- > 47,000 hours of training on business and trade compliance in 2021 to around 27,000 participants
- >20,800 trained on anti-corruption

Training for third-parties
- > 200 hours of training delivered to sales promoters and commercial advisors
- Before signing a contract, online training has become mandatory

Continuous monitoring
- >1,400 due diligence and reputational analyses on counterparties and potential commercial partners
- ca 140 due diligence audits on sales promoters, commercial advisors, distributors, resellers

In 2021, included in band A, the highest band in the Defence Companies Index on Anti-Corruption and Corporate Transparency by Transparency International
ESG DRIVING OUR LONG-TERM RETURNS
ESG driving growth, capital allocation and long-term returns

- We have adopted the same rigorous approach to measuring both financial and non-financial performance.
- We are anticipating the trend for an integrated financial and non-financial accounting standard.
- Full integration between our financial and ESG strategy to enable long-term sustainable growth.
- We have made significant progress on our ESG targets and aim to continue to do so.
- ESG is crucial to our future: it drives our growth, how we manage risks and opportunities and how we allocate capital.
Measure, Measure, and be Measured
Sound internal control system supporting reasonable assurance of ESG data

1. Mapping
New operational procedures have been put in place detailing the main processes of collection, aggregation and transmission of ESG data to be included in the non financial statement (within the annual Integrated Report), replicating the disclosure and reporting methodology used for financial data.

2. Testing
Specific internal control points introduced along the process. Internal Audit carrying out testing activities on a sample of controls described in the procedures.

3. Reasonable assurance
A set of ESG KPIs has been subjected to reasonable assurance, using the same approach used for financial data.

Pioneer in the A&D sector and in Italy in the reasonable assurance on a set of ESG KPIs within the Integrated Report
Full alignment and integration of both our financial strategy and ESG

Strong confidence in achieving our targets

(*) Based on the current assessment of the effects deriving from the geopolitical and global health situation on the supply chain and the global economy and assuming no additional major deterioration
ESG is crucial in optimal capital allocation
50% investment is aligned with SDG goals

SDG-ALIGNED INVESTMENTS

Yearly Average 2021-2023
€ 600-700mln*

OUR MAIN CONTRIBUTION TO SDGs

Ensuring resilient infrastructures, increasing efficient and digital processes and developing technologies with green impact

Improving resources efficiency and productivity by innovation & promoting safety at work

Supporting safe and resilient cities, preventing disasters and intervening in emergency situations

Promoting waste reduction, recycling, reuse and therefore reducing the impact on environment

Enhancing skills & competencies

Improving energy efficiency and increasing the share of renewable energy

* Including Capitalized R&D, Capex, Tooling and Other Immaterial
50% of Leonardo funding sources now are “ESG linked"

Two ESG linked financial transactions subscribed in 2021

- €2.4 bn ESG linked Revolving Credit Facility (RCF)
- €600 mln ESG linked Term Loan (to refinance January 2022 debt maturing)

FINANCING SOURCES

50% ESG linked

€6,0bn

2021 *

KPIs selected fully aligned with ESG strategy and Long-Term Incentive Plan

#1
Reduction of CO₂ emissions

#2
Employment of women with STEM degree

* Pro forma for January 2022 bond reimbursement.
APPENDIX
Our ESG achievements in 2021

In 2021, achieved the highest score among the companies in the Aerospace and Defence sector for the 3rd consecutive year, included for the 12th year in a row.

Confirmed in the ‘Climate A List 2021’ of CDP (formerly the Carbon Disclosure Project), the only company in the A&D sector.

Confirmed as 2021 Global Compact LEAD, Leonardo was identified by the UN Global Compact as being among the most highly-engaged participants of the world’s largest corporate sustainability initiative.

In 2021, included in band A, the highest band in the Defence Companies Index on Anti-Corruption and Corporate Transparency by Transparency International.

Improved ESG rating issued by the most recognized international research providers and credit rating agencies.

Ranked 3rd among the European A&D companies according to V.E (Moody’s ESG Solutions).

Included for the second time in Bloomberg’s Gender Equality Index (GEI).

Achieved the highest rating in the ISS Quality Score in the environmental and social categories.

In 2021, included in the MIB ESG Index, the first Italian blue-chip index launched by Euronext and Borsa Italiana, including the best 40 Italian listed companies for ESG performance.
Materiality analysis

- 27 Top managers involved
- >1,600 reviewed regulations
- >760 mln analysed tweets

- Experience with innovation and advanced technologies: 100%
- Digital IT and cyber security: 100%
- CSR and ESG: 100%
- Knowledge of Leonardo’s businesses, industry scenarios and strategies: 100%
- Interpretation of management data and balance sheet of complex industrial realities: 100%
- Authority and standing-up: 100%
- Experience in business and international multinational companies: 92%
- Finance, business management and extraordinary operations: 92%
- Risk oversight/management: 92%
- HR and organizational transformation: 92%
- Business judgment and analytical and decision making skills: 92%
- Legal and international contacts: 83%
- Top management positions in comparable listed companies: 50%

Update at March 2022
Investment aligned with SDG goals
Our main contribution to SDG

NEW INITIATIVES INCREASING INDUSTRIAL PROCESS EFFICIENCY

Energy efficiency
Transition to LED technology for most industrial plants

Re-industrialization projects
Implementation of automated equipment and digital solutions in order to increase competitiveness and product reliability for both existing and upcoming programs (ATR and EuroMALE)

Barrel production line
Production line improvement with machines substitution in order to increase production rate and to reduce waste in the process

Digitalization
Digitalization of manufacturing and engineering processes driven by upgrade applications (such as SAP and Product Life-cycle Management) in order to reduce waste and improve quality

NEW PRODUCTS INCLUDED IN OUR SDG ALIGNED PORTFOLIO

M-346 and M-345
Our trainers through a greater use of simulation systems allow a reduction of the flight-hours resulting in benefits on carbon footprint and emissions

AW609
First civil tiltrotor to be certified which will represent and enable technology for prosperity and progress combining into one aircraft the benefits of helicopter and fixed-wing aircraft

AW169
Light Intermediate helicopter with class-leading technology that guarantees the highest performance also representing a solution for a healthier planet along with operating capability in the most challenging conditions

Integrated Sensors Suite
New AESA multifunctional radars suite for naval platforms with state-of-the-art technologies. The new materials and manufacturing process for AESA antennas reduce power consumption and increase sustainable production
Partner in the Italian National Recovery Plan: playing with core assets and distinctive capabilities

Our commitment to human rights

### GROUP POLICY ON HUMAN RIGHTS

3 areas where risks related to human rights are significant:

1. **PEOPLE MANAGEMENT**
   - Prohibition on all discrimination against race, skin colour, gender, language, religion, political opinions, sexual orientation, nationality, social status or background, trade union membership, age or disability or any other type of discrimination or intolerance towards diversity.
   - Prohibition on all forms of exploitation of child, forced or illegal labour.
   - Guarantee for political and trade unions’ rights.
   - Protection of sensitive data of natural persons, whether they be employees, collaborators, visitors, customers or suppliers.
   - Protection of health and safety of workers, in compliance with applicable provisions and the highest standards in terms of safety and hygiene.
   - Promotion of health and safety and of diversity culture and inclusion through constitution of Working Groups formed by company and labour unions representatives.

2. **SUPPLY CHAIN**
   - Through the Supplier Code of Conduct, Leonardo requires to its suppliers:
     - protection of the right to work and equal opportunities, promoting dignity, health, freedom, equality of workers, rejecting all the forms of discrimination, whether directly or indirectly, also with reference to political or trade union related aspects;
     - non-involvement in any way whatsoever in forced labour, human beings trafficking, and exploitation of child labour and forced labour generally speaking;
     - payment of the minimum wages and benefits legally mandated, as well as working conditions, working time and compensation fair and complying with the laws and the standards applicable in the countries where the supplier operates;
     - safety and protection of workers’ health in the workplace in compliance with current regulations regarding health and safety.

   Leonardo, moreover, carries out reputational checks of third parties with which intends to establish contractual relationships and enforces social clauses to protect workers in the case of contract handovers.

3. **SALE AND DISTRIBUTION OF PRODUCTS**
   - Development of technology solutions for the security and protection of citizens, national institutions, technological sovereignty, and the resilience of countries.
   - Non-involvement in the production, development, storage, trade and/or sale of non-conventional weapons (e.g. cluster bombs, mines, chemical weapons).
   - Non-involvement in nuclear weapons production or maintenance activities.
   - Application of the Trade Compliance Programme to ensure full compliance of applicable laws and provisions of competent authorities for trade compliance aspects, including obligations for embargoes, sanctions and other trade restrictions.
   - Due diligence processes for potential customers and end-users, using screening activities to check whether they are on blacklists and other checks in case of transactions with Sensitive Countries.
   - Development of the Human Rights Impact Assessment tool which introduces specific red flags while carrying out business activities aimed at verifying compliance with internationally recognised human rights.

- Release of Trade Compliance Guidelines including Human Rights Impact Assessment

Energy management

Performance in 2021

- Energy consumption: 5,614 TJ in 2021 (-4% vs 2019)
- Natural gas consumption: 2,699 TJ (76.5 million m³) in 2021 (-5% vs 2019), mainly used for heating
- Consumption of electricity acquired: 2,265 TJ in 2021 (-8% vs 2019, of which 80% from renewable sources
Remuneration Policy aligned with shareholders interests, business strategy and ESG criteria

- Convergence of interests between management and shareholders
- Aligning the remuneration package with international market best practices
- Including Sustainability/ESG objectives, consistently with business strategy
- Complying with transparency and merit system principles of the Group strategy
- Attracting / retaining key performer resources
- Reducing excessively risk-oriented behavior

</table>

Free Operating Cash-Flow (FOCF): is the sum of the cash flows generated by (used in) operating activities (which includes interests and income taxes paid) and the cash flows generated by (used in) ordinary investment activity (property, plant and equipment and intangible assets) and dividends received.

* Restatement to include covid costs in 2021 as they were accounted below the line in 2021 and on EBITA in 2022.

SAFE HARBOR STATEMENT

NOTE: Some of the statements included in this document are not historical facts but rather statements of future expectations, also related to future economic and financial performance, to be considered forward-looking statements. These forward-looking statements are based on Company’s views and assumptions as of the date of the statements and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Given these uncertainties, you should not rely on forward-looking statements. The following factors could affect our forward-looking statements: the ability to obtain or the timing of obtaining future government awards; the availability of government funding and customer requirements both domestically and internationally; changes in government or customer priorities due to programme reviews or revisions to strategic objectives (including changes in priorities to respond to terrorist threats or to improve homeland security); difficulties in developing and producing operationally advanced technology systems; the competitive environment; economic business and political conditions domestically and internationally; programme performance and the timing of contract payments; the timing and customer acceptance of product deliveries and launches; our ability to achieve or realise savings for our customers or ourselves through our global cost-cutting programme and other financial management programmes; and the outcome of contingencies (including completion of any acquisitions and divestitures, litigation and environmental remediation efforts).
These are only some of the numerous factors that may affect the forward-looking statements contained in this document.
The Company undertakes no obligation to revise or update forward-looking statements as a result of new information since these statements may no longer be accurate or timely.
