PRESS RELEASE

## Leonardo-Finmeccanica strengthens its commitment to sustainability and governance

• Sustainability and corporate governance functions have been assigned to an internal Board committee, which will help the company continue to achieve excellence in responsible business conduct

**Rome, 29 September 2016** – The Board of Directors of Leonardo-Finmeccanica, which convened today, resolved to revise its internal regulations (Rules of Procedure of Board of Directors and relevant Committees) in order to further improve its governance model in line with the new edition of the Corporate Governance Code published in July 2015.

In this context, the Board has expanded the functions of the Nomination Committee to include more specific, advisory and proactive skills in the field of sustainability and corporate governance. This Committee, without prejudice to previous skills and composition, has therefore changed its name to the Nomination, Governance and Sustainability Committee.

Detailed information about compliance with the new Code and the relevant implementation thereof will be provided in the Report on Corporate Governance and Shareholder Structure to be published in 2017.

Leonardo-Finmeccanica is among the top ten global players in Aerospace, Defence and Security and Italy's main industrial company. As a single entity from January 2016, organised into business divisions (Helicopters; Aircraft; Aero-structures; Airborne & Space Systems; Land & Naval Defence Electronics; Defence Systems; Security & Information Systems), Leonardo-Finmeccanica operates in the most competitive international markets by leveraging its areas of technology and product leadership. Listed on the Milan Stock Exchange (LDO), at 31 December 2015 Finmeccanica recorded consolidated revenues of 13 billion Euros and has a significant industrial presence in Italy, the UK and the U.S.
