Key highlights of the first 9 months of the year

Electronics

LDO Electronics IT and UK

- Solid order intake **across all domains**:
  - Air – e.g. EFA and GCAP
  - Naval – e.g. FREMM Italy and PPA[1] Indonesia
  - Land – e.g. IT MoD contracts

DRS

- Strong performance on **electric power and propulsion** technologies, **advanced sensing** and **counter UAS**
  - Performance driven by Columbia Class programme

Helicopters

- **Solid order intake across all regions**, driven by defence/ governmental customers and offshore sector
- Strong revenues **across both platforms and services**

Aircraft

- **Strong sales**, reflecting the **jumbo contract for Kuwait Air Force** and solid contribution from **GCAP and C-27J**
- **Increased training services** both in customers (e.g., US Air Force) and flight hours at the IFTS[2], while introduced **M345** in the course syllabus of the IT Air Force

Aerostructures

- **Progressive recovery in B787 programme**, confirmed by **rate increase** from 5 fuselages in Q2 to 7 in Q3 and expected further growth, **in line with target production plan shared by Boeing**
- **A220 Rear Fuselage** contract awarded for fabrication and assembly in double source
- NEMESI[3] first fuselage delivered in Q3

Cyber

- **Strong order intake momentum**, due to **secure digital transformation** programmes for national Government and Defence customers
- Boost to the **international expansion across EU Institutions** (e.g., EU Commission, eu-LISA and ESA)
- Improved **profitability** driven by **proprietary products** and **portfolio boost** from latest acquisitions

Space

- Strong order perfomance across the service market, including **Earth Observation** activities for Italy and export
- Ongoing **international E2E offering**, leveraging **future Leonardo EO Constellation architecture**

Update on tariffs

US–EU Trade Deal officially implemented, **exempting the civil aeronautics sector**

Civil **aircraft and aircraft parts** from EU now **exempt reciprocal tariffs**

Exemption **effective from 1st September 2025**

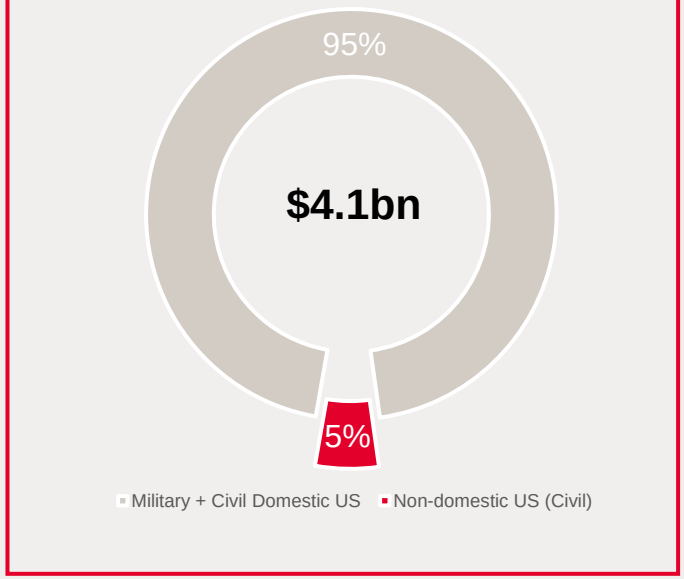

Previous red flag areas of US civil helicopter assembly line imports **addressed**

Tariffs Expenses in 2025

c. $15mln

- Expected clawback of September cash out[1] (c. $2mln)
- Potential clawback of the cash-out before Trade Deal implementation

Let’s dive into the future…

Moving toward an «European Space of Space»

- Signed **MoU with Airbus and Thales**, to create the key European player in space.
  The new company is expected **to be operational in 2027**
- Until then, **Leonardo is** actively working to develop its **satellite constellation**, and to **promote end-to-end solutions**
- **Leonardo multi domain solutions see Space as a key enabling pillar**, such as for the new **Integrated Air Defence architecture**

The newly signed MoU allows to go even further Leonardo Space ambition

Solid Group liquidity ensures adequate financial flexibility

As at 30 September 2025, Leonardo had sources of liquidity available for a total of about €4.5bn to meet the financing needs of the Group's, broken down as follows:

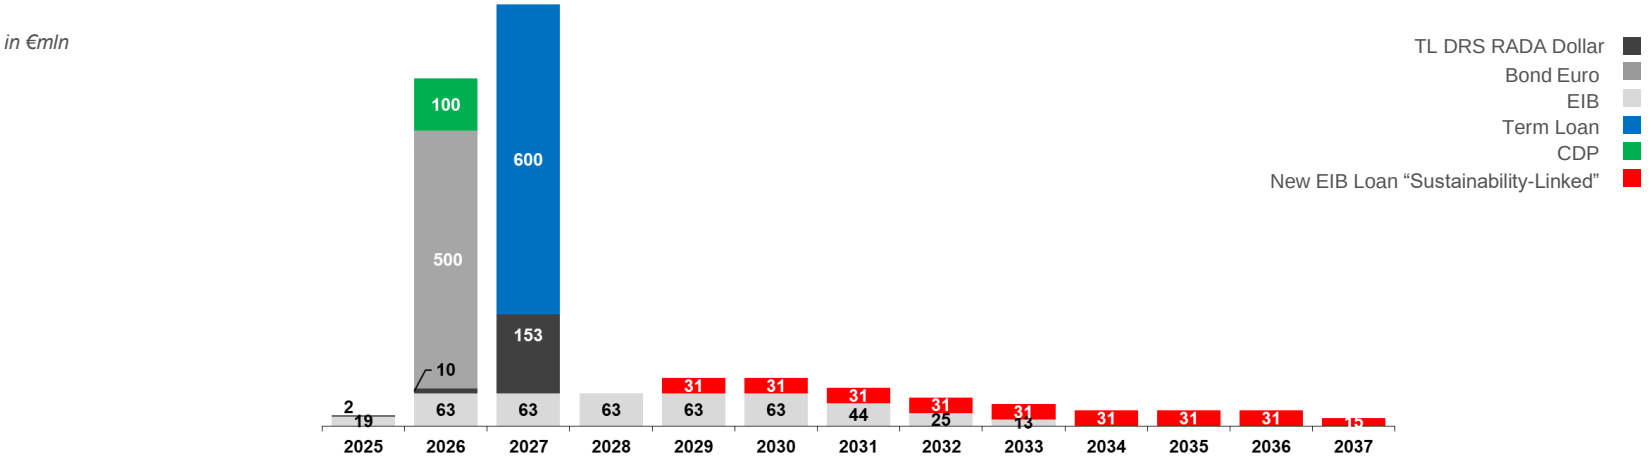

- Cash in-hands equal to €1.6bn
- New ESG Revolving Credit Facility (RCF) equal to €1.8bn[1]
- Existing unconfirmed credit lines equal to €1.0bn
- Revolving Credit Facility signed by Leonardo DRS equal to €0.2bn

© 2025 Leonardo - Società per Azioni

1. After the closing date of the third quarter, in October 2025, Leonardo signed, with a syndicate of international and national banks, an ESG-linked RCF with a duration of 5 years for an amount of €1.8bn. The new credit line replaces the existing RCF of the same amount which was simultaneously cancelled.

SAFE HARBOR STATEMENT

NOTE: Some of the statements included in this document are not historical facts but rather statements of future expectations, also related to future economic and financial performance, to be considered forward-looking statements. These forward-looking statements are based on Company's views and assumptions as of the date of the statements and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Given these uncertainties, you should not rely on forward-looking statements

The following factors could affect our forward-looking statements: the ability to obtain or the timing of obtaining future government awards; the availability of government funding and customer requirements both domestically and internationally; changes in government or customer priorities due to programme reviews or revisions to strategic objectives (including changes in priorities to respond to terrorist threats or to improve homeland security); difficulties in developing and producing operationally advanced technology systems; the competitive environment; economic business and political conditions domestically and internationally; programme performance and the timing of contract payments; the timing and customer acceptance of product deliveries and launches; our ability to achieve or realise savings for our customers or ourselves through our global cost-cutting programme and other financial management programmes; and the outcome of contingencies (including completion of any acquisitions and divestitures, litigation and environmental remediation efforts

These are only some of the numerous factors that may affect the forward-looking statements contained in this document

The Company undertakes no obligation to revise or update forward-looking statements as a result of new information since these statements may no longer be accurate or timely
